The man who knows everything sometimes has trouble in finding people willing to hear him tell a tenth part of his wisdom.

Admitted the Offence.

Bellefleur, Sept. 5.—Mrs. Bertha Perle of Oshawa, who was arrested here on a charge of child desertion, appeared before the magistrate yesterday, and admitted the offence. She gave her age as sixteen years, and said she had been married four years. Her parents reside at Oshawa. The magistrate enlarged the case for judgment.

Doing things that are not worth while is a pernicious form of idleness. The prudent lawyer seldom takes a difficult case on shares. Too many men find it more convenient to owe than to pay.

Vision Your Sons, Mothers of Canada!

Vision them at early morning when through rising mists, there bursts a hurricane of fire— See your valiant boys—calm, grim, but cheerful—“stand-to-arms” until the Hun’s “morning hate” dies away.

Picture them at breakfast, the meal that must bring them the bodily sustenance to carry them through the strain of another day. Then think of what might happen if, one morning, there was no breakfast—no food to be had, and the word went down the lines that Canada had failed them.

Vision all these things, and then—As Women of Canada—Mothers of Men—Answer this Call to Service.

Canada must send to Her Own, and to the Allies Fighting Forces, more wheat, more beef, more bacon, and more of such other foods as are non-perishable and easily exported.

Canada can do this, without depriving her own population of a fair share of any of these foods if You Women will but help.

All we ask of you is, that instead of buying so much white flour (if you do your own baking) you vary your baking by using one-third oatmeal, corn, barley or rye flour. Or, if you buy your bread, that you order a certain proportion of brown bread each day.

Second, instead of using as much beef and bacon as formerly, you vary your family’s diet, by substituting for beef and bacon such equally nutritious foods as fish, peas, lentils, potatoes, nuts, bananas, etc.

Third, and this is most important—positively prevent the waste of a single ounce of food in your household.

They Must Be Fed

Statistics show that, everyday, in Canada, sufficient food is thrown into garbage cans, to feed the entire Canadian Overseas Army.

Travellers have often remarked that many a European family would live well upon the quantity and quality of food wasted in some Canadian homes.

Such waste is shameful at any time; but in these times it is criminal.
