Strong, durable shoes for boys and girls, comfortable lasts, constructed to protect and support growing foot muscles.

Good shoes worn by your children is evidence of your own taste and judgment.

Allan M. Reid,

111 Princess Street. Kingston.

TO ASK COUNCIL FOR AID

SO THAT THE CRECHE MAY NOT BE CLOSED

Grants and Contributions Totalling \$50 a Month Would Keep the Place Open For Benefit of Working Women.

The public meeting called by Mayor Hughes to take steps to assist in keeping open the creche, which has been a great help to the working women of the city, drew about one dozen people to the City Council chamber on Tuesday evening.

The mayor presided. Owing to the lack of interest displayed, it was decided to ask the Council for a grant towards the creche to keep it in operation. The committee has enough money to run it during October and November, but if assistance is not given in the meantime the creche will have to be closed about the first of December.

Mayor Hughes will bring the matter to the attention of the civic finance committee at its meeting next week and it is likely that a grant will be made to this much-needed institution.

Among those present were Bishop and Mrs. Bidwell, Mrs. W. G. Jordan, Mrs. F. King, Miss M. Gordon, Miss Jordan, Mrs. W. F. Nickle, Mr. and Mrs. R. D. Sutherland and Mrs. Chief Armstrong.

BOYS' WORK CONFERENCE

It is Thought Many Will Be in Attendance.

It is thought 250 delegates will be here for the Boys' Work Conference opening on Thursday night. The conference will reach boys from five outside counties and will give splendid opportunity for a complete demonstration of the comprehensive plan of work set forth in the Canadian Standard Efficiency Tests Programme.

The boys will be entertained in Kingston homes, until Monday morning. The firm of James Reid wish to announce that they do not make any additional charge for their motor funeral car in attendance at funerals in the city or country.

Could be Conscribed. Steps are being taken by the American Government to refuse the registration of Americans who tried to escape the American draft by not registering as citizens of the United States.

A great many are now registering at the American consulates throughout the country. These men will therefore be liable to conscription here.

Warned This Captain That The Kidneys Were Responsible for His Pains and Aches — Freed of Pain and Suffering by a Well-known Medicine.

Hereford, Que., Oct. 10.—Captain Peabody is well known all through this section, and his cure by use of Dr. Chase's Kidney-Liver Pills has aroused great interest in this great medicine.

The Captain had been suffering for a long time, and could never get any treatment to afford lasting relief until he began using Dr. Chase's Kidney-Liver Pills.

Captain A. Peabody, Hereford, Que., writes: "For years I suffered from indigestion, rheumatism and neuralgia. Lightninglike pains would shoot all through my body, and I also had severe pains over my left kidney and through the hips. I doctored for years and tried all kinds of remedies, but the only result was money spent without relief. At last I read in Dr. Chase's Almanac of his Kidney-Liver Pills and decided to try them. One box made such a change that I sent for five more. Before I had finished them the pains in my head and hips had disappeared, and I was clear of those sharp, shooting pains through the body. I still take these Pills occasionally to keep my bowels regular, and would not be without them, as I have them to thank for my cure."

"I can also speak highly of Dr. Chase's Catarrh Powder and Linseed and Turpentine. The former cured me of catarrh in the head, which caused frequent headaches. I am completely cured of this now, and breathe freely as when a boy. The Linseed and Turpentine proved of great benefit for a bad cough which bothered me continually for three winters. Last winter I took one bottle of the Linseed and Turpentine, and have not been bothered with a cough since."

Dr. Chase's Kidney-Liver Pills, one pill a dose, 25 cents a box, all dealers, or Edmanson, Bates & Co., Limited, Toronto. Don't be talked into accepting anything said to be just as good. Imitations and substitutes only disappoint.

NIGHT CLASSES MAY BE OPENED

(Continued from page 1.)

into the high school and he asked what became of the eighty per cent. We must look to the further education of the children who left the public school at the age of fourteen.

Boys and girls between the age of fourteen and eighteen must be cared for. These years were the most critical in their lives. And what shall we do for them? It was for this reason that the day and night classes in technical education have been established. And what progress had been made. The speaker cited the city of Hamilton with a day school of 150; London, with 100 to 130; Brantford from 10 to 20; Sudbury with 24; just recently classes had been established at Ottawa with 75; Windsor 40; Chatham 50; and what had the department attempted to do? It was intended that these classes should provide everything which would be fundamental to the work in the industrial life. There would be fifty per cent. practical work and fifty per cent. academic work. Mechanical drawing was one of the chief subjects. The very best teachers must be secured, as the success of the classes depended on the teachers. In Hamilton, twenty firms were co-operating and sending their employees to the classes five hours each week, and paying them for their time.

These men were studying chiefly drawing and mathematics. Night classes had been established since 1911. Last year 29,000 attended these classes all over Ontario.

Dr. Merchant declared that the classes were making excellent success. He was convinced however, that the scheme would not be the success it should be until compulsory education was enforced and he was working towards that end. He would like to see Kingston initiate such a plan. He cited Milwaukee as a place where compulsory education of girls and boys, between fourteen and eighteen was enforced. A great many people got the idea that the education provided the children in public schools was sufficient. As a result, we were losing much, as the children could be trained for better service. The present war had forced the truth of this upon us. The speaker appealed for the establishment in Kingston of a school for the study of English, mathematics, and mechanical drawing. Pupils passing into the next grade would be eligible for these classes. Half time classes had been found to be a great success.

The conference with Dr. Merchant lasted over two hours, and the trustees were greatly pleased with the way in which Dr. Merchant presented the matter, and on motion of Trustees Meek and Anglin he was tendered a hearty vote of thanks.

CURLERS NOT READY.

Little Business Transacted at the Annual Meeting. The local curlers seem to have forgotten that winter is coming soon and that organization for the season's campaign should be started now. The annual meeting of the club was held for Tuesday evening, but it was almost nine o'clock before a quorum appeared. Three members walked out during the meeting and the quorum being broken no further business was possible.

During the short time that twenty-one members were present, Dean Coleman presided, and in the absence of T. M. Asselstine, secretary, P. D. Lyman filled that position. The report of the executive was read and approved, and with only a few minor changes was adopted.

The Whig trophy competition was much discussed. It took the president's vote to break a tie and decide that these would be two sets of games in this competition.

Another meeting will have to be held to elect officers.

Calvary Congregational Church.

On Thanksgiving night a crowded and appreciative audience listened to the splendid concert put up by the above church. Rev. D. Laing occupied the chair and suitably introduced the artists. Rev. T. De Courcy Raynor, Miss Treneer and Mrs. Jones each gave excellent recitations manifesting fine elocutionary ability. A. Haffner, George Allan, Rev. J. Lyall, Mrs. Morris, Mrs. Woolgar and Mrs. E. Jones were the soloists and rendered their pieces in fine taste. Miss Clough delighted the audience with two pianoforte solos displaying great musical skill. Misses Sanderson kindly acted as pianists. The Y.M.C.A. quartette party also gave several selections which were highly appreciated. The choir had the opening and closing pieces on the programme. The concert throughout was of a sacred nature and was thoroughly enjoyed by everyone present. The proceeds are to be devoted to help install a furnace in the church. After suitable votes of thanks the concert closed by the singing of the National Anthem and the Benediction.

BEAR CHASED BOY.

Pot at Mowat Memorial Hospital Broke Loose Sunday Morning.

On Sunday two Kingstonians, accompanied by a little boy, paid a visit to the Mowat Memorial Hospital. The little fellow became very much interested in the pet bears at the institution until one of the big ones broke its chain and incited the boy's red coat started to chase the little fellow. It required clubs and stones to put the bear under control, after which it was securely chained up.
