

Production

Increased effort and efficiency in labor, more economy and less waste in living, building up capital by harder work and greater savings will enrich you, and your country. The men and women at home must produce more to cover war's waste.

It is easier to make money than to save it. A Savings Account at The Bank of Toronto will help save what your increased effort provides.

Keep the Furnace in Check and Save Fuel

The best results are obtained during the Fall months by using Nut coal in your furnace. It will give a gentle heat and fire is easily kept in check, with drafts off, without the chance of its going out, which often happens when you try the same thing with larger coal.
