QUEEN'S EDUCATION FACULTY.

Likely to be Re-organized and Not Dispensed With.

The announcement that the Ontario Department of Education has withdrawn its agreement with Queen's University with regard to the Faculty of Education does not necessarily mean that the faculty is to be dispensed with here. Toronto University has received the same notice from the department. It is understood that the Minister of Education has in view the re-organization of the education faculties at Toronto and Queen's, the intention being to free them of university control. It is thought that the faculty here will be continued and that the co-operation of the Board of Education will again be sought.

One of the steel caps on a chimney at the penitentiary was blown off during the recent heavy gales, owing to the fact that it had not been fastened securely.

For selling deteriorated milk Justice of the Peace George Hunter on Wednesday fined a Howe Islander \$50 and costs.

Bishop Doull, of Kootenay, and Bishop Gray, of Edmonton, will be in city pulpits on Sunday.

HE DOES NOT KNOW HOW HE WAS INJURED

Prof. Brovedani Found Unconscious on Road—Likely Struck by Auto.

Prof. J. H. Brovedani of the department of French and Spanish at Queen's University, who was severely injured on Wednesday afternoon, was reported at the General Hospital to be much improved on Thursday.

He was found at Tuttle's Hill by Father Kingsley, early in the afternoon, lying unconscious at the side of the road. Father Kingsley immediately brought him to the city in a motor car.

The left side of his head was badly lacerated and cut and his eye terribly swollen. Besides this he was suffering from concussion of the brain and remained in the stupor for many hours. To-day he regained consciousness, but has no recollection of how the accident occurred. It is surmised, however, that he was struck by some passing automobile, who was too frightened to bring him to the city, or that he fell from his bicycle.

Letters to the Editor

A German Hold-up Permitted.

Kingston, Oct. 18 (To the Editor)—Now, British subjects of Kingston and Frontenac county, take notice of this.

Beer, Sandheimer & Co. of New York city a company that was blacklisted by the British Government as an enemy of the Empire, has been endeavoring to hold up our northern region of Ontario regarding the system of producing ores from the waste or crude metallic rock. They represent the Minerals Separation North American Co., of New York, and claim all control over the patents of using the flotation methods. They have been discouraging along with many others, as far as possible, the production of war metals so as to help the Fatherland, or Germany. They ask exorbitant prices for the use of these patents or want the mines to cease using them. This means a loss of millions of dollars to Ontario, loss of work to the miners and trades people of that northern district.

Now mark my words, neither Dr. Edwards nor W. F. Nickle nor the Tory party entered a protest to prevent this German hold-up. Just take our nickel and count, our gold, silver, lead, etc. We in Ontario produce 85 per cent. of all the nickel in the world. We have control here of the destinies of nations, for nickel is the basis of ship's armor, shells and bullets. Dr. Edwards, Dr. Nickle voted to conscript the best manhood of Canada, yet did not vote to conscript the wealth of the wealthy, and now this is war time, and they are not going to conscript or ask the United States to conscript or stop that German gang in New York city of holding us up with regard to those patents.

I am in favor of conscription, but conscript everything to win the war, particularly the wealthy, some of it gotten honestly and more gotten by pull, graft and trickery in the ranks of the Tory party during this war.

In years gone by the people divided themselves politically as Whigs and Tories. Whig meant your milk, on account of the solemn looks of the working class and farmers, who lived in those days on coarser food as a rule, and they were called Tories. They are the Liberals of to-day, and still represent the working class and do everything they can for them. Tory means an Irish robber. In those days the barons would descend from their castles and raid the farmers and working class and carry off their cattle, sheep and swine to feed their retainers within the castle walls, and even went so far as to carry off a man's pretty daughter as a slave to their stronghold. They were tired or ashamed to be called Tories, so they then called themselves Conservatives; later they tried to steal the proud name of "Liberal," and he they are known as the Liberal-Conservative-Nationalist party.

Still as the old cock crows the young one learns, and they are still the Irish robbers of old, but do the same acts under pressure, plunder, slander and graft, rob the farmer and working man of his just rights, and draw the line at the stealing of the daughter, but they might as well starve the families of the working class in towns and on farms by raising the prices of foodstuffs by high duties on what they need to carry on their work, as clothing, machinery, bacon, etc. Starving the man and his family under the cloak of British liberty, in which they have not an ounce in their whole make-up. Only playing the old game of the old flag, old loyalty cry to fool the people and cover up their other scandalous acts.

People of Frontenac, you have minerals and lots of them in your county. Cannot your member, Dr. Edwards, do something to get his Tory Nationalists at Ottawa to give a grant to open up the mineral wealth of his parliamentary riding? But not just sit down and let things slide and draw a salary of \$2,500 for nothing except to abuse the Liberals. Tell me of anything he has done to help the county in any way. I do not know of it.

Yours,
—JAMES TRAVERIS.

INCIDENTS OF THE DAY.

Local Notes and Items of General Interest.

The Bishop of Athabasca is in the city the guest of the Bishop of Ontario.

Archbishop Worrell, married in Halifax to-day, is to spend his honeymoon in Ontario and Cleveland, Ohio.

Fred. C. Aid and Charles Peterson have returned to the city after a most enjoyable eight days' trip through New York State.

The British War Office regrets it is unable to grant the permission asked by relatives of Canadian prisoners of war in Germany to send them parcels at Christmas.

John A. Smith, an infantryman, whose mother is on the staff of the Mowat Memorial Hospital, has been killed in action. The young man was very highly thought of in his battalion.

The members of the 8th C.M.R., from Hamilton, going to an eastern training camp, passed through the city via the G.T.R. at 11 o'clock on Wednesday night. Major Allan Stroud and Capt. R. Lessie Sparks, of Kingston, are with this contingent.

THE WHOLE BODY NEEDS PURE BLOOD

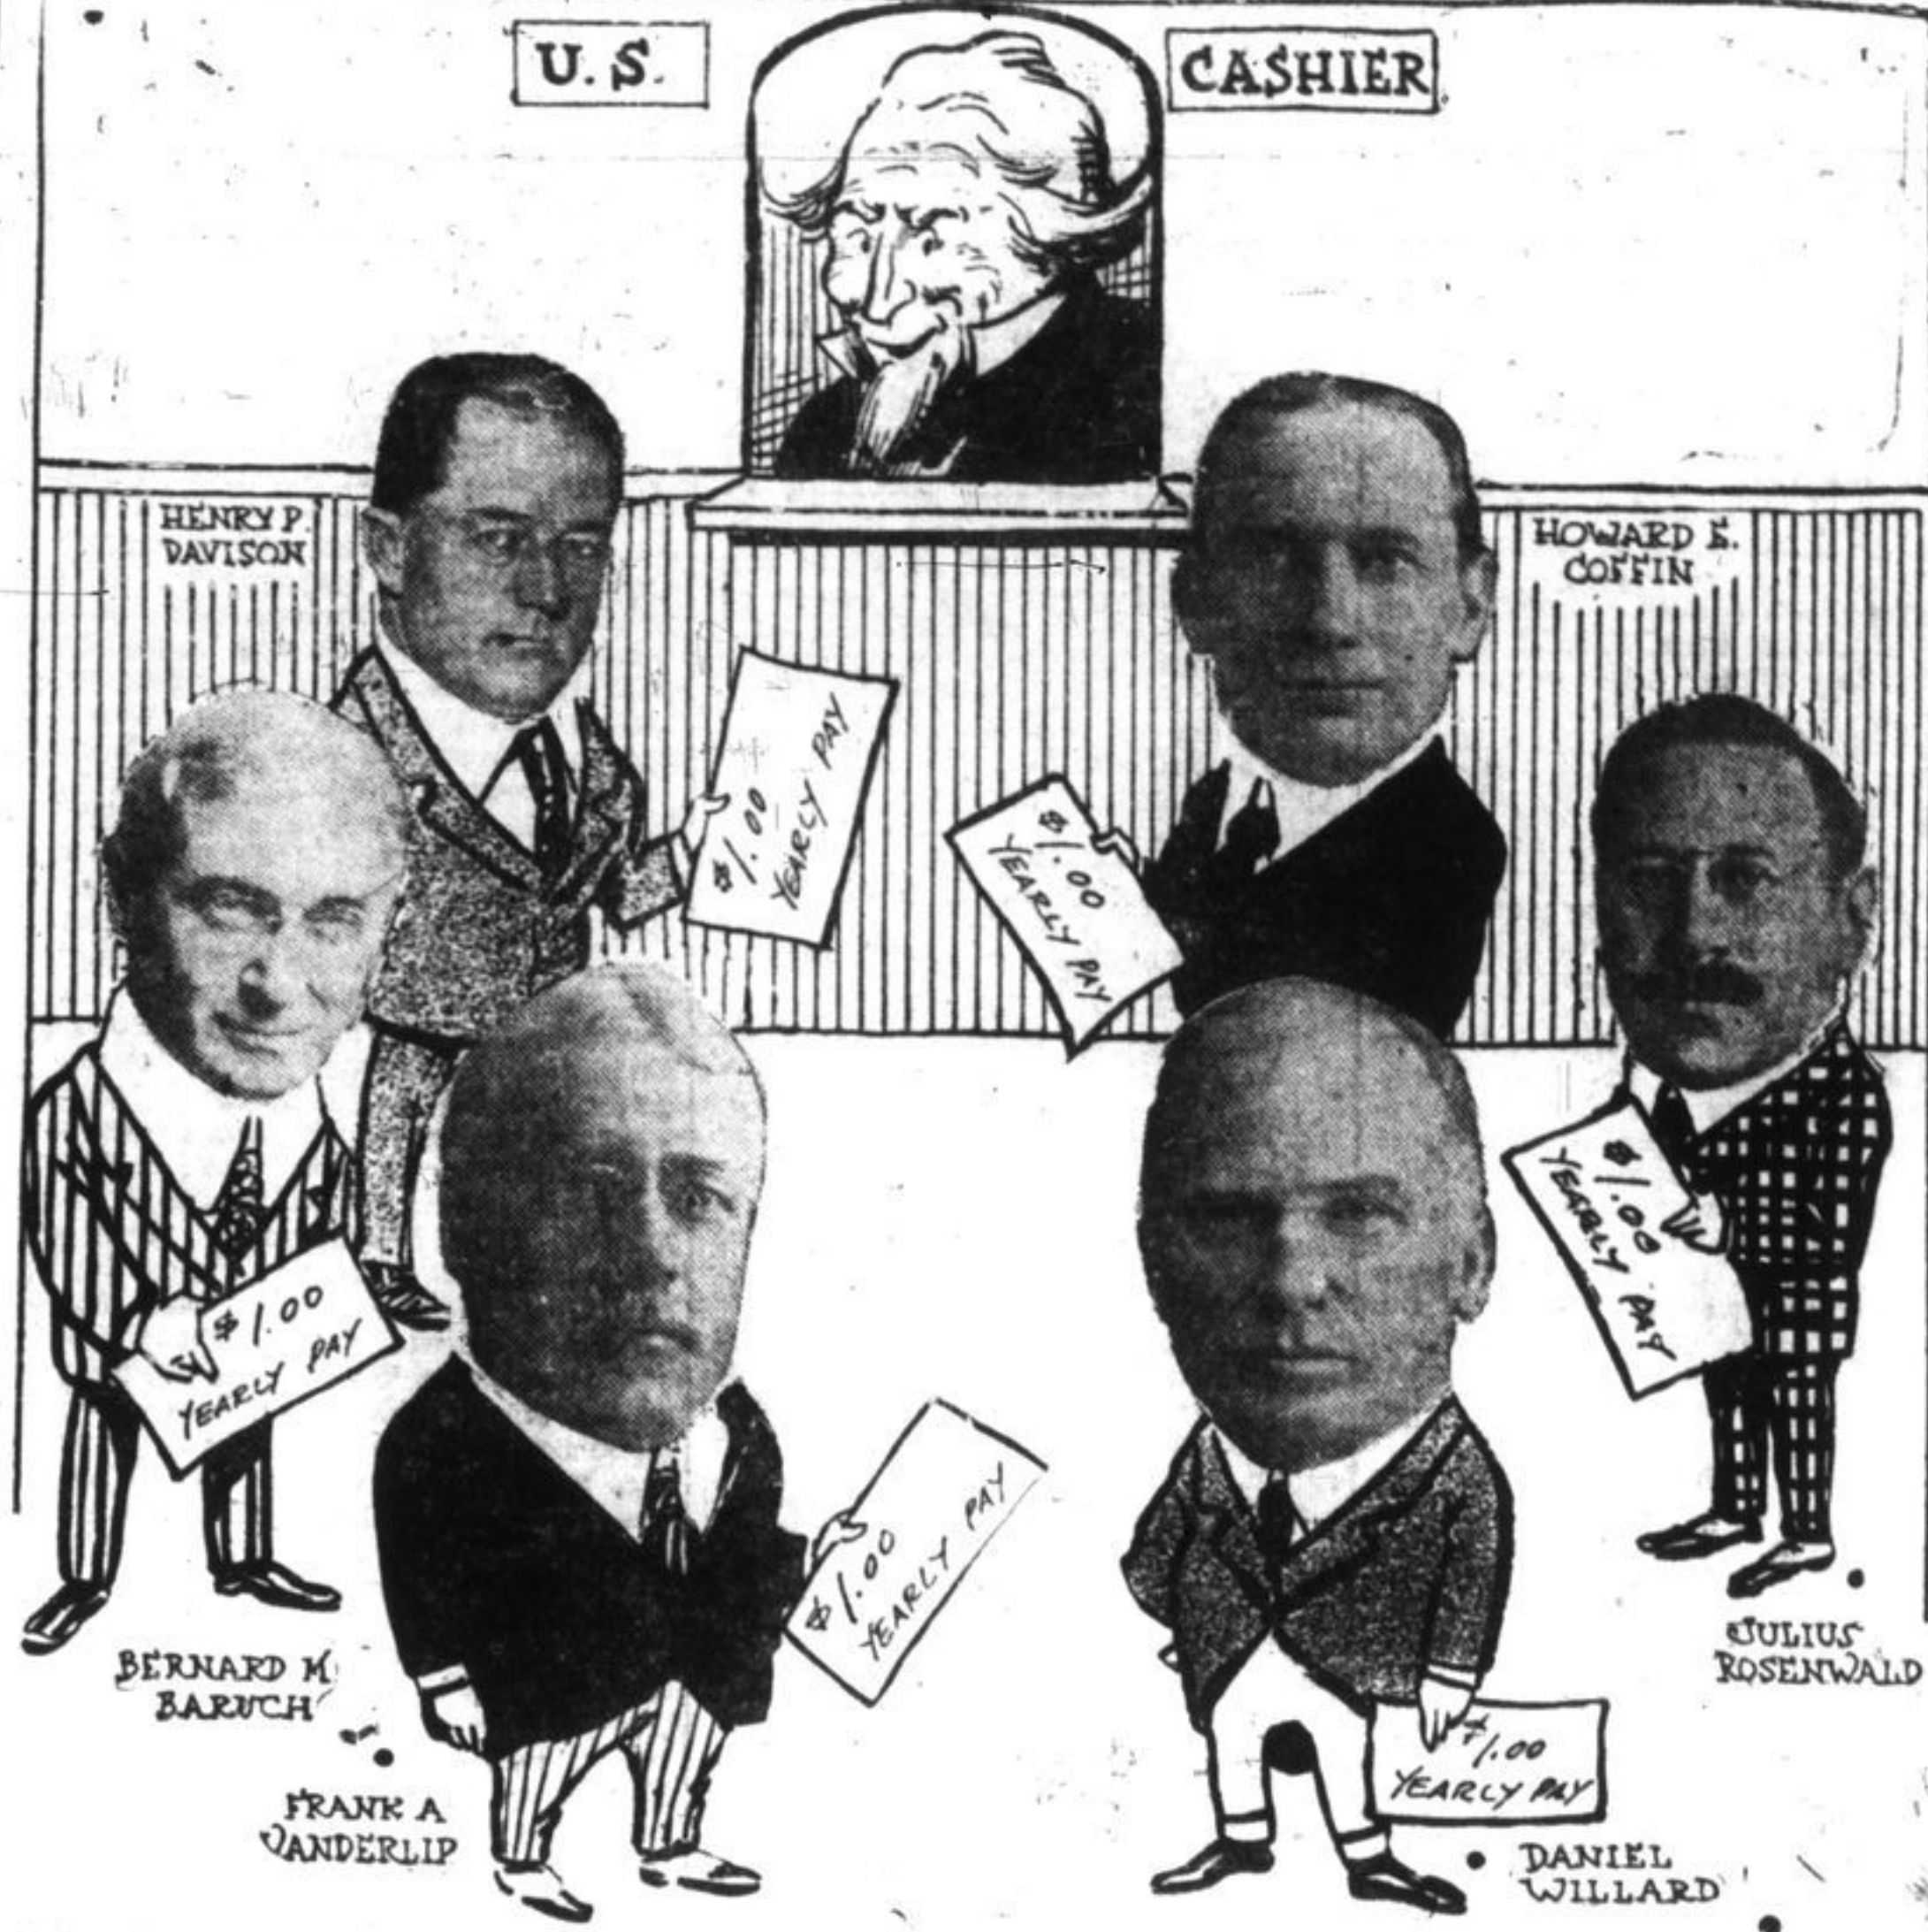

The bones, the muscles, and all the organs of the body depend for their strength and tone and healthy action on pure blood.

If the blood is very impure, the bones become diseased; the muscles become enfeebled; the step loses its elasticity; and there is inability to perform the usual amount of labor.

The skin loses its clearness, and pimples, blotches and other eruptions appear.

Hood's Sarsaparilla makes pure blood. It is positively unequalled in the treatment of scrofula and other humors, catarrh, rheumatism, dyspepsia, loss of appetite, that tired feeling. Be sure to get Hood's and get it today. All druggists.

HIGH SALARIED MEN TO WORK FOR U. S. AT \$1 A YEAR.

Uncle Sam is getting these noted men who quit positions paying highest salaries in the land to work for the United States at a salary of \$1 a year while the war lasts. Yes, these men, whose incomes ranged anywhere from \$100,000 to more than \$1,000,000 a year, have laid aside their customary duties and gone to the assistance of the Washington authorities, prepared to give their full time and special abilities toward bringing the war to a successful conclusion, and for a financial return of less than one-third of a cent a day. Their patriotism cannot be denied.

The King appeals for unrelaxed financial support for the Red Cross throughout the Empire, contributing \$10,000 himself for this year to its work.
