VINOL MAKES GOOD BLOOD

Positive—Convincing Proof Many so-called remedies for anemia are only so in name. Their makers are afraid to prove their claims by telling what their medicines contain. The only way to be honest with the people is to let them know what they are paying for. Here is the Vinol formula. When the doctor knows what a medicine contains, it ceases to be a "patent" medicine.

START CHRISTMAS BOXES TO THE FRONT AS SOON AS POSSIBLE.

Shipments Must Leave Canada By November 15th—Particulars As To Addressing Parcels—Perishables Are Discouraged.

As the London office of the Dominion Express Company has cabled to J. R. Martin, manager of the Foreign Department in Montreal, that Christmas packages for the soldiers at the front must be in the hands of the military forwarding officer at Southampton by December 1st, it becomes necessary for Canadians to prepare their packages soon enough so that they can be despatched from this side on or about November 15th.

The man or woman who ships early will be doing his or her bit to lighten the burden," said Mr. Martin to a Montreal Gazette reporter recently. "You must remember that Christmas business has to be handled in addition to the regular army requirements. A very large number of packages for the front were handled at Christmas, both in 1915 and 1916, and, as there are more troops overseas now than ever before, you can see how great the task of the Military Transport department will be this year.

Single packages for the front must not exceed 56 pounds in weight, as the military authorities have no facilities at their disposal for handling larger packages. Anyone wishing to send consignments of greater weight will have to divide them into two or more packages. The goods should be very carefully packed, and the authorities suggest strong wooden boxes, preferably screwed instead of nailed or locked.

The above form applies to packages destined to troops in France or Belgium. Shipments for the Egyptian, Mesopotamian or Salonika forces should bear the same regimental particulars, but they should be directed: "In care of the Military Forwarding Officer, Avonmouth Docks, England."

Shipments of perishables, such as apples and other fruit, dressed chickens or fowl of any kind, etc., should be discouraged, as delays are unavoidable under present circumstances, and the danger of decay is considerable.

FOR BRITISH RED CROSS.

Confederate money has no redeeming traits. DYSPEPTIC FOR SIX YEARS.

Sergt. Duncan MacNeil (hon.) address 116 Pleasant-street, Halifax, N.S., writing from Europe, says: "For years I suffered from frequent attacks of dyspepsia, and though I tried all the remedies on the market I obtained little or no relief. I had not been long with the C.E.F. when my old trouble returned. Then a friend told me about Dr. Cassell's Tablets. The first box brought such pronounced relief that I continued, and to make a long story short complete cure was effected."

THIS ZEPPELIN IS INTACT

ONLY DAMAGE TO CAPTURED AIRSHIP IS A FEW TEARS. The Commandant Was Hurt — He Tried to Fire Pistol Into the Airship, But Was Prevented.

Bourbonne-les-Bains, France, Oct. 24.—The Zeppelin L-49, which came down at Bourbonne-les-Bains, was inspected to-day by the Associated Press correspondent, and was found to be intact, as were also the machinery and instruments. This is the first time during the war that a Zeppelin has been captured intact, complete, and an opportunity was given to a number of officers to inspect the craft.

The machine was driven down with her nose resting on the edge of the main road and the stern in the pine trees on a hill. Fully half the craft lay across a little valley 30 feet from the ground. So quickly did the aviators who had been in the airship land, that the Germans had no opportunity to do damage. The only visible break in the structure consisted of tears in the outer skins caused by the trees.

Twenty-one Prisoners Taken. The two officers and nineteen men who were taken prisoners were removed from the wreck to-day. They were the centre of a large crowd of residents of the French countryside, who, dressed in their best, walked, drove or rode from miles around to see the German airship and the prisoners. The commander's arm was in a sling, as he had been injured during landing. He seemed especially downcast for the loss of a complete Zeppelin to the enemy is a serious offence.

They Were Frostdriven.

With the French Armies, Oct. 24.—The crews of the super-Zeppelins L-49 and L-50 have now been interrogated, and their replies confirm the supposition that they made up part of a single expedition against England. These two airships measured 644 feet in length, and 157.65 cubic feet in volume, while the super-Zeppelin L-49 and L-50 have now been interrogated, and their replies confirm the supposition that they made up part of a single expedition against England.

PAINS OVER LEFT KIDNEY

Warned This Captain That The Kidneys Were Responsible For His Pains and Aches — Freed of Pain and Suffering by a Well-known Medicine.

Hereford, Que., Oct. 24.—Captain Peabody is well known all through this section, and his cure by use of Dr. Chase's Kidney-Liver Pills has created great interest in this great medicine. The Captain had been suffering for a long time, and could never get any treatment to afford lasting relief until he began using Dr. Chase's Kidney-Liver Pills.

Captain A. Peabody, Hereford, Que., writes: "For years I suffered from indigestion, rheumatism and neuralgia. Lightninglike pains would shoot all through my body, and I also had severe pains over my left kidney and through the hips. I doctored for years and tried all kinds of remedies, but the only result was money spent without relief. At last I read in Dr. Chase's Almanac of his Kidney-Liver Pills and decided to try them. One box made such a change that I sent for five more. Before I had finished them the pains in my kidneys and hips had disappeared, and I was clear of those sharp, shooting pains through the body. I still take these Pills occasionally to keep my bowels regular, and would not be without them, as I have them to thank for my cure."

"I can also speak highly of Dr. Chase's Catarrh Powder and Linsed and Turpentine. The former cured me of catarrh in the head, which caused frequent headaches. I am completely cured of this now, and breathe freely as when a boy. The Linsed and Turpentine proved of great benefit for a bad cough which bothered me continually for three winters. Last winter I took one bottle of the Linsed and Turpentine, and have not been bothered with a cough since."
