A MISSION BANQUET HELD

IN SYDENHAM STREET METHODIST HALL FRIDAY EVENING

There Were About 150 Present—Rev. Dr. Young, Toronto, and T. F. Harrison, Cobourg, Were the Speakers.

About one hundred and fifty missionary enthusiasts attended the banquet given in Sydenham street Methodist church hall on Friday evening. The dinner was held under the auspices of the Methodist laymen of the city and district and was prepared by ladies representing the Women's Missionary Society auxiliary of the city.

Judge H. A. Lavell made an ideal chairman, and the addresses delivered by Rev. W. R. Young, D.D., of Parkdale Methodist church, Toronto, and T. F. Harrison of Cobourg were indeed inspiring and stirred the missionary zeal of the men by their very force and lucidity.

T. F. Harrison ably presented the need for both home and foreign missionary enterprises. From personal observation he described the immoral and licentious conditions in Japan where men were catering to the physical and mental and were neglecting the spiritual side of man's three-fold nature.

Passing to conditions in Canada Mr. Harrison said: "Men outside the church say we are not delivering the goods. Is there anything better in the world to-day than the Christian church standing as it does for character building and better citizenship. We must admit that in part they are right, but who is to blame? Here we must again say that the responsibility comes to the church and it is our duty to square our lives according to the principles laid down by Jesus Christ. There never was a time so fruitful for service and if the church at home is right our missionary efforts will be right."

In asking that the contributions for missions be increased from \$650,000,000 to \$800,000,000 the general missionary board desires that the salaries of the workers in the rural districts may be brought to a point where they can live under the pressure of the high cost of commodities at the present time, and Mr. Harrison especially emphasized that fact.

Taking as the basis of his remarks the three words, "Memory, Vision and Duty," Dr. Young, a native of Kingston, spoke for nearly an hour on the victories of the past and the hopes of the future as well the duty that must not be shirked by the true lover of Jesus Christ.

Referring to the work accomplished in the past ninety-four years since the first missionary report was issued

URGENT NEED TO CONSERVE

(Continued from Page 5.)

It is as the members made the sentiment in the home. He pointed out that the war had been going on for three years, and that 40,000,000 people had been taken from the work of production, and had become engaged in the task of destruction. The war had taken from us the very best of our people. And what did this all mean? England was able to look after her crops, thanks to the brilliant work of the navy, as the Germans had not been able to take possession of the soil, but it was not so with some of the other countries. Belgium had been dependent on this country for her supply of foodstuffs since very early in the war, and here the speaker took occasion to pay warm tribute to the work of Mr. Hoover, in looking after the food supply for the Belgian people. Great areas of French land had been taken over by the Germans and cultivated. Now this land was producing for the enemy.

Blood-Making Medicine

It took centuries for medical science to discover that the blood is the life. Now, it is known that if the blood were always abundant, rich and pure, very few people would ever be ill. It was not until the end of the 19th century that an instrument was invented for measuring the red part of the blood. Then doctors could tell just how anemic a patient had become, and wish medicine to make new blood the patient soon got well.

All the blood in the body is nourished and kept rich and red by the food taken daily, but when, for any reason, a person is run down and cannot make sufficient blood from the food to keep the body in health, then a blood-making medicine is required. The simplest and very best of blood-makers suitable for home use by anyone, is Dr. Williams' Pink Pills. When a course of these pills is taken their good effect is soon shown in an improved appetite, stronger nerves, a sound digestion and an ability to master your work and enjoy leisure hours. For women there is a prompt relief of or prevention of ailments which make life a burden. As an all-round medicine for the cure of ailments due to weak, watery blood no medicine discovered by medical science can equal Dr. Williams' Pink Pills. You can get these pills through any dealer in medicine or by mail at 50 cents a box or six boxes for \$2.50 from the Dr. Williams' Medicine Co., Brockville, Ont.

Dupuis-Nolan Marriage.

The marriage of E. B. Dupuis, Thurso, Que., returned soldier from the 154th Glengarry Highlanders and Miss Georgina Nolan, 148 Montreal street, Kingston, was solemnized on Friday evening. The happy young couple left for Ottawa and Quebec to visit the groom's parents.

Dr. Hall's Cough Balsam.

Cures coughs and colds. 25c a bottle. Prouse's Drug Store.

Send for testimonials free. THE WOOD MEDICINE CO., Toledo, Ohio. Sold by all druggists, 15c.

URGENT NEED TO CONSERVE

(Continued from Page 5.)

There was a duty resting upon every man and woman in Canada, as well as the United States to do their "bit" to conserve food. The speaker referred to the steps which were being taken by this department to conserve food for the men at the front. The question had been asked, and it was but natural too, as to what all this had to do with the prices of foodstuffs? "We have been in this war three years," added the speaker. "The commodities we eat and the commodities we buy to-day and consume, are scarce. They have become scarce because of the fact that forty millions of people employed as producers are being taken away. The food is not scarce if we are prepared to forget the men who are fighting for us at the front. Scarce commodities are dear commodities. Legislation never made cheap bread."

Caps

Tweed caps in beautiful patterns, 50c to \$2.

Gloves

This is the glove store of the city. We sell Dent's and Fowles' English make, all kinds, 75c to \$4.75.

Pure Rich Blood Prevents Disease

Bad blood—that is, blood that is impure or impoverished, thin and pale,—is responsible for more ailments than anything else. It affects every organ and function. In some cases it causes catarrh; in others, dyspepsia; in others, rheumatism; and in still others, weak, tired, languid feelings and worse troubles. It is responsible for run-down conditions, and is the most common cause of disease. Hood's Sarsaparilla is the greatest purifier and enricher of the blood the world has ever known. It has been wonderfully successful in removing a variety of other humors, increasing the red-blood corpuscles, and building up the whole system. Get it today.

Advertisement for Williams Piano. Text: A Piano Made to Last a Lifetime. Reasons Why The Williams Piano Retains Its Tone. 1. Full Iron Plate weighing 222 pounds stripped. 2. The Harmonic Tone Prolonging Bridge cast in the plate insuring rigidity and giving throughout a perfectly graded scale of full resonant tones. 3. The Brass Agraffes through which each of the treble strings pass are attached to the Harmonic Bridge, always keeping the strings in their proper position so that each hammer head will strike the full length (three strings). Brass, unlike iron, will not rust, therefore the strings at this point will not rust. And as brass has a more mellowing influence on tone than iron, a finer quality of liquid, singing tone is obtained through the combined use of the Harmonic Bridge and Brass Agraffes. 4. The Overstrung Brass Bridge produces a deeper and more sonorous tone quality, not otherwise secured. 5. The Laminated Bridge. The bridge running diagonally through the centre of the piano, over which each of the treble strings pass is very stable, so warp, swell or contract with climatic changes, which would tend to throw the piano out of tune. By gluing nine separate pieces of wood together and capping it with a small solid piece, as is done on all Williams New Scale pianos, it is easily seen that this bridge cannot be affected by changes in climate. This is why the Williams will retain its tone. 6. This Artist Choice piano is equipped with bushed tuning pins, brass damper and best grade of Australian wool hammer heads and ivory keys. The Williams Piano is built on quality. See This Piano Before Deciding. THE J. M. GREENE MUSIC CO., LTD. Cor. Princess and Sydenham Streets. Kingston.
