Cape Vincent Bank Case.

Next Friday it is expected a final accounting of the executors of the estate of the late S. S. Block, Cape Vincent, N.Y., will make it possible for the state banking department to declare a final dividend to the creditors, in the matter of the settlement of the affairs of the Bank of Cape Vincent. It is not known how much this dividend will be, but it will be small. The first dividend amounted to fifty per cent.

All of the other stockholders in the bank, aside from the Block estate, have paid an assessment amounting to 100 cents on a dollar on their stock.

The total number of claims against the Block estate totalled about \$50,000. There is not enough personal property of the Block estate to meet the debts and the real property will consequently have to be sold.

Campaigning for Missions.

Laymen occupied the Methodist pulpits on Sunday, and campaigned for missions. Last year \$600,000 was contributed; the aim this year is \$800,000. The Kingston district had given \$6,339, and \$7,500 was hoped for this year. This was \$1.74 per capita. More interest in the work was all that was necessary.

Among the laymen taking part were Irvin Hilliard, K.C., M.P.P., Harrisburg; T. F. Harrison, Cobourg; M. S. Madole, Napante; Dean Coleman, Elmer Davis. They all did good service.

BOTH APPEALS ALLOWED

TORONTO COURT SETS ASIDE COUNTY COURT JUDGMENTS.

A New Trial Ordered in the Diamond-Norman Case—J. H. Tallon, of Verona, Must Pay For Mrs. H. H. Martin's Support.

The Court of Appeal at Toronto on Friday heard two cases, appeals from the judgments of Judge Madden delivered at the recent sittings of the County Court. In both cases the appeals were allowed.

Jacob Diamond owns a lot on Sixth street, on the west end of which lot he erected a building. H. F. Norman owns the adjacent lot to the west, on the east end of which he commenced excavating for the foundation of a house. Diamond claimed that Norman had interfered with his right of support, and asked for injunction. At the trial the judge dismissed his action.

The Court of Appeal set aside the judgment and directed a new trial. A. B. Cunningham appeared for the appellant Diamond, and H. H. Davis, of Toronto, for the respondent Norman.

In another case, Mrs. H. M. Martin, of Verona, sued J. H. Tallon, of Verona, on a bond given to secure the support and maintenance of Mrs. Martin. At the trial the judge dismissed the action, but the Court of Appeal set aside the judgment and directed that Tallon pay to Mrs. Martin the amount due under the bond. A. B. Cunningham appeared for the appellant Martin, and T. J. Rigney for the respondent Tallon.

LIBERTY LOAN PASSES \$5,000,000,000 MARK.

Washington, Oct. 29.—The second Liberty Loan apparently has passed the \$5,000,000,000 mark. A last day drive of titanic proportions throughout the nation raised up more than \$1,000,000,000 and was bound to have carried the total several hundred million dollars beyond the maximum sum treasury officials had hoped for. Secretary of the Treasury, Appeal set aside the judgment and directed that Tallon pay to Mrs. Martin the amount due under the bond. A. B. Cunningham appeared for the appellant Martin, and T. J. Rigney for the respondent Tallon.

TELEPHONE EXPERT HERE.

Arranging For Growth of the City Business in Future.

G. D. Hudson, Montreal, one of the fundamental engineers of the Bell Telephone Company, is visiting the city for the purpose of making a development study.

The functions of a telephone fundamental engineer is to make a proper provision for future telephone growth in order to ensure that adequate facilities will be provided in every locality of the city for both present and future subscribers. The last development study of the city was made in 1910, from the result of which the growth in the intervening years was forecasted and planned for. It may be interesting to know that the development then estimated and planned for is almost identical to that which has actually taken place.

HOSPITAL CARS UNLOAD

At the Corner of West and Ontario Streets.

A new idea and one which is very beneficial to the handling of returning soldiers was the unloading of the hospital train at the foot of West street on Monday morning. This is the first time that it was done and was a great help.

Some time ago R. J. McClelland, city engineer, co-operating with Capt. W. Peters and other officers of the Military Hospitals Commission, made arrangements with the Grand Trunk. An expert declared that hospital cars could safely take the curve at the foot of William street and then the company agreed to take the trains directly through to West street. This means that the cost cases can be taken care of more rapidly with the much shorter run to the hospital.
