Heard From Prisoner of War. Lanark, Nov. 5.—Mr. and Mrs. Frederick Roffey were the happy recipients of word from their son, Private Walter Roffey, who was taken a prisoner nearly seven months ago, but from whom no word had been received up to the present time.

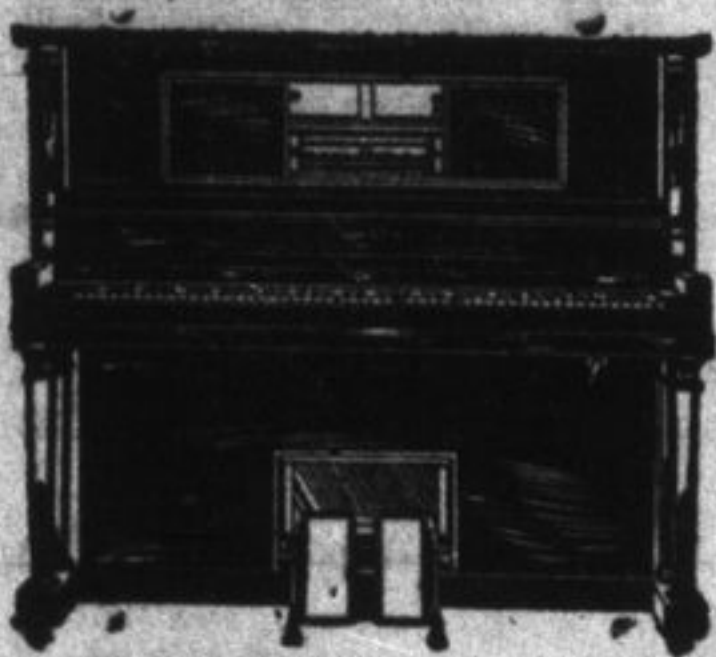

The uncertainty of his whereabouts, whether wounded, killed, or a prisoner, caused his parents much anxiety, for, although they had made enquiries in every direction that offered, they were unable to obtain any information. They had almost despaired of hearing from their son again when along comes the welcome intelligence, written by his own hand, that Walter is alive and well, although a prisoner in the hands of the enemy.

TROUBLED WITH CONSTIPATION FROM 16 TO 20.

Constipation is one of the commonest ills of mankind, and one too often allowed to go unlooked after until some serious complication sets in.

If the bowels are properly looked after there will be no constipation, jaundice, sick or bilious headaches, heartburn, coated tongue, sour stomach, floating specks before the eyes, etc.

Milburn's Laxa-Liver Pills will keep your bowels so regulated that in no time the constipation will disappear entirely. Miss Emma E. Melanson, Halifax, N.S., writes: "I am now 20 years of age, and since I was 16 I have been greatly troubled with constipation, so much so that at times I would be in bed three or four days a month. I tried all the old-fashioned remedies, castor oil, cascara, etc., with only temporary relief until my sister-in-law gave me some of Milburn's Laxa-Liver Pills. From the first they seemed beneficial and I gave them a fair trial. This was two years ago, and with an occasional dose I have kept entirely free from constipation for the period mentioned."

Milburn's Laxa-Liver Pills are 25c a vial at all dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

KAISER REFERS TO ENTENTE AS BRUTES In a Secret Despatch—Advised Brother Tino to Attack French Flank.

London, Nov. 6.—A despatch to Reuters, Limited, from Athens contains the texts of telegrams secretly exchanged between Athens and Berlin prior to the overthrow of King Constantine. One of the most interesting was sent Nov. 23, 1914, by Queen Sophie, sister of Emperor William to the Emperor. It follows: "By a miracle we are unburnt. The Allies bombarded the palace for three hours with the French fleet which opened fire without warning. We took refuge in the cellars.

"There was lively street fighting to-day, revolutionaries firing from houses on the army and people, who fought magnificently. It was a great victory against four great powers, whose troops fled before the Greeks and withdrew, escorted by Greek soldiers.

"There is great anxiety as to the demand the Allies will make, but we are prepared for anything. Please tell us when the army of Macedonia will be sufficiently strong to take the field.

Emperor William replied to his sister as follows: "I thank you cordially for your telegram, which has caused me deep emotion. I know the dangers through which you and Tino have passed. I admire your courage and at this difficult time.

"I also with pleasure the magnificent attitude of the army and their loyalty to the royal house. May God deliver you from your horrible position.

The Entente once more has shown its hand, and nothing remains for Tino but to take open action against these brutes. The intervention of Tino, with his forces co-operating against Sarraill's western flank, would bring about a decision in Macedonia and the liberation of poor Greece. Tino knows that."

EXTENT OF SUCCESS SURPRISE TO HUNS The Germans Didn't Expect Such Great Gains on Italian Front. Geneva, Switzerland, Nov. 6.—Swiss soldiers stationed on the Alpine heights on the frontier in the canton of Grisons report that since the Germans captured Udine, the number of troops going in the direction of Tripoli has been doubled. The Swiss troops say that when heavy artillery trains are passing the Germans make smoke curtains at exposed points to prevent the number of guns being ascertained by observers.

The Swiss soldiers declare there is every evidence that the Germans were surprised by their success against the Italians, but intend to take every advantage of the situation, and are preparing to entrench on the Tagliamento, as they did on the Marne, in the event of a failure in their forward movement.

Aviators Crash Into House. Picton, Nov. 5.—Two aviators from Mohawk Camp met with an accident here yesterday, their machine colliding with the chimney of a house, plunging head on into an adjoining residence, smashing the cornice of the house, and wrecking the machine, but other than a gash in the pilot's forehead, neither the pilot nor the co-pilot, who accompanied him was injured.

Everything in the world was created for some purpose. The old teachers keep spinsters hopeful.

A SHORTAGE OF DOCTORS

MEDICAL OFFICERS SENT AT RATE OF FIVE A MONTH

All Through Canada the Number of Medical Practitioners is Being Lessened—A Serious Situation.

The public has no conception of the trouble that faces Canada now in the depletion of the present supply of medical practitioners. There is a tremendous shortage and instead of more being promised the university authorities say that the classes are gradually growing less.

In discussing the matter, Lieut. Col. R. J. Gardner, A.D.M.S., of this military district, said that five medical officers are being sent overseas every month. This was more than the corresponding output of the university.

A striking case of the depletion of the country of medical officers is that of Capt. Doyle, who came from the Arctic circle to enlist. His position is like thousands of others, in that no successor has been found, and at present there is no medical officer at the particular fort he was stationed at. In the cities there is a scarcity which is not helped even by the use of undergraduates.

There seems little hope of a solution of the problem, so the citizens should realize that the medical profession is to-day greater in value than ever.

LORD BEAVERBROOK'S HONORS ARE DEFENDED

No Money Was Paid—Title Was Awarded For Political Services.

London, Nov. 6.—The Saturday Review in discussing editorially the sale of honors debated in the House of Lords last week, says: "Curiously enough, the peerage which has excited the most adverse comment was notoriously not given for money. Mr. Maxwell Aitken, who before the general election in 1910 was unknown to the press and the public in this country, was in 1911 created a knight.

"In 1916 he was promoted a baronet. In 1917, a request was made for an inquiry as to why this fountain of honor has been placed so generously upon a Canadian financier who takes no part in the proceedings of Parliament, nor, so far as was discoverable, in any of those branches of public life where activity is frequently recognized by a title.

"With Lord Beaverbrook's reputation as a financier we are not concerned. We may assume that Lord Beaverbrook employed no methods that are not tolerated, and, if successful, approved in the City. London, nor do we know if the knight-hood and baronetcy were paid for. We are ready to suppose that they were not.

"The facts about the peerage are common knowledge. It was certainly not given for cash. At a critical juncture Aitken brought Lloyd George and Bonar Law together, and rendered possible the formation of the present Coalition Government. It is a kind of intermediary service which in a big city deal is rewarded by a handsome commission in cash and shares. In this political deal, the broker was rewarded by a seat in the hereditary branch of the Legislature.

In that defensible transaction we see no blame attached to Lord Beaverbrook. He was right to take what he could get for his intervention.

KING ALEXANDER TRIES TO ENCOURAGE TROOPS

Greek Monarch Advises Officers to Keep Away From Politics and Stick to War

Washington, Nov. 5.—Despatches from Athens to the Greek legation today told of a visit by King Alexander to the barracks yesterday to witness drill and get in personal touch with the soldiers training to join the allies at the front. In a speech to the officers the king said: "I am very happy, realizing that you are working hard. I want to recommend you to keep away from politics, and be of one heart in your work. We must work together in order to bring the war to a victorious conclusion for our allies and ourselves."

London, Nov. 6.—The Canadian Associated Press understands the Canadian authorities are following the Imperial example of abolishing the category "C." All "B" men estimated likely fit for active service after six months training will go into class "A." All in category "C" are automatically promised category "B" which means they are deemed fit for service in Forestry, Labor, Medical or Garrison units.

RATEPAYERS REJECT FUEL AND FOOD DEPOT

Coal Dealers Urged If They Could Not Get Coal, City Would Fare Worse.

Brantford, Nov. 6.—By a majority of 195, the vote being 331 for and 437 against, the ratepayers here turned down the by-law which would have authorized the establishment of a civic fuel and food depot here. The coal-dealers had come out strongly against the proposition, urging that if they wish their old connections had been unable to get coal the city stood less chance. Official figures shown out here show that out of a need of 45,000 tons, 25,000 had already been delivered here, leaving a balance to come of 20,000. The trouble seems to be that some citizens have full collars while others have no coal at all, and there may be some difficulty in tiding the latter over the winter by supplying in small lots. A referendum on the question is to be taken in January, with the electors at large voting.

GREECE IS WAITING FOR FULL ASSURANCE

Of Allied Co-operation—Venizelos Has Not Called General Mobilization.

Washington, Nov. 6.—Greece may withhold general mobilization for war until assured of full Allied co-operation in furnishing needed supplies, official Italian cables indicated to-day.

It is apparent that the tremendous Teuton drive into Italy has created unrest among the Allied Powers in the Near East, whose situation would be critical should Germany deliver his crushing blow to Italy.

Premier Venizelos, of Greece, is in Rome now with prominent Greek statesmen conferring with officers of the Allied Powers. He says he will visit other Allied capitals before calling a general mobilization of the Greek army.

Fully awake to the acute danger in the Italian situation, all the Allied powers are co-operating to thwart the Kaiser's obvious effort to bring about peace between Germany and her Balkan enemies and devote his entire attention to Great Britain France and America.
