### SHE HAD SUFFERED FOR 20 LONG YEARS

Mrs. Morris Had Rheumatism So Bad She Couldn't Walk—Finds Relief at Last.

"Words can only partially describe the suffering I endured before I began taking Tanlac," said Mrs. Mary Morris of 422 St. Johns Road, Toronto, a few days ago.  
"For twenty years," continued Mrs. Morris, "I have tried in vain to get relief from stomach trouble, kidney disorders and rheumatism, and when I began taking Tanlac I was a confirmed invalid. During all these years I haven't been able to eat without suffering afterwards. My stomach was all upset. I had no appetite, I simply had to force myself to eat and then my food would sour and bloat me up terribly. I suffered all the time from indigestion and was constantly belching up my food sour and undigested. My kidneys worried me nearly all the time and during the past three years I developed rheumatism, which started first in my shoulders and arms and then got down into my lower limbs, and for more than two and a half years I have almost been an invalid. I was so crippled up that I couldn't walk, I couldn't even dress myself and the misery was almost unbearable. Sometimes the pain was like a knife cutting in, then again it was a dull, throbbing pain that seemed close to the bone. My legs would puff up and my joints were so stiff and hurt I could hardly move them. At times I had cramps in my legs until they felt like they would almost draw double and no one, unless they have suffered the same way, knows what I had to endure.  
"Well, I have spent lots of money for medicines of different kinds, but was never able to find anything to do me one bit of good. I had almost given up in despair, but Tanlac has already done me a world of good and I believe now I am going to get sound and well. I have just started on my third bottle of Tanlac and I can tell that I am improving every day. The rheumatism doesn't bother me anything like it did and I feel stronger and more vigorous than I have in a long time. While I haven't taken Tanlac long enough to say it has done wonders for me, I can say it is doing me good and that's more than I can say for any other medicine I ever took. I am certainly well pleased with the results I have gotten from Tanlac so far, and I'm going to keep on taking it as I believe my relief will soon be complete."  
Tanlac is sold in Kingston by A. P. Chown.

**DESTROYERS THE CURE**  
U.S. Senators Tour English Shipyards and Munition Plants.  
London, Nov. 7.—Having completed their tour of the English shipyards, Senators Kenyon of Iowa and Hendrick of Wyoming this morning went into conference with Vice-Admiral Sims, commander of the American destroyer squadron. After the conference Senator Kenyon said: "We are convinced destroyers are the best antidote for U-boats. We cannot have too many of them. The additional destroyers and the hundreds of thousands of tons of new shipping which England and the United States are turning out will in time overcome the U-boat."  
Every facility was given to the senators for obtaining first-hand information regarding England's shipbuilding efforts, which they said were colossal. They were especially interested in the new standard ships, which are being turned out rapidly.  
On their way back to London the senators were taken to a munitions plant, where they saw a group of thirty-six Americans making munitions with American machinery.

### ROME GREATLY STIRRED

BY THE PITIFUL SIGHTS-IN THE STREETS.

Arrival of Wounded From Isonzo Front—A Picture of Suffering—All Buildings Utilized.  
Rome, Nov. 7.—One of the most pitiful sights here is the arrival of the wounded from the front, with heartrending stories of their escape from the invaded towns. The Austro-German advance was so unexpected that no order of evacuation had been given to the towns near the border, and thus hardly any conveyances were available for the transportation of the wounded. Those who were able to stand were told to get up and walk away, while those too seriously wounded were left behind with the doctors, nurses and others who volunteered to remain. Others, who had attempted to walk, after a few miles had to give up through faintness and exhaustion.  
Therefore, in the torrential rain could be seen pitiful, forlorn groups of wounded, sitting worn out by the roadside and imploring already overloaded motor cars and trucks to give them a lift.  
All the hospitals, convents, schools, municipal buildings, and even churches in the town and villages between the Tagliamento and the Piave are filled with wounded, some lying on the floors, in the corridors and in the courtyards—wherever there is the smallest space—while the doctors are working indefatigably day and night, with a scarcity of surgical instruments and dressing, great quantities of which have been lost in the retreat.

### STARVATION IN JERUSALEM

Bread Eleven Times as High as at the War's Beginning.

London, Nov. 6.—Sufferings of the poor in Palestine, particularly in Jerusalem, are set forth in letters from the Hebrew teachers in that section which have been received here by leaders of the Zionist movement. Hunger and the extortionate prices charged for food are the chief causes of distress. The price of bread has advanced elevenfold since the beginning of the war. Petroleum costs thirty times as much as in 1914, and milk five times the ante-war price.  
Concerning the situation in Jerusalem, one teacher wrote:  
"The money evil has become intolerable. In Constantinople paper money circulates freely; here you must pay in coin or kind, the price in paper. The misery of the poor is unspeakable. The roads are lined with starving persons, who sit about begging for a mouthful of bread. The poor Jews sell all their belongings—clothes, linen, bed covers—to the soldiers to get a few pence for food. Epidemics have somewhat abated, but most of the patients die, because, owing to the lack of nourishment they cannot resist disease."  
The headmaster of the Hebrew Boys' School in Jerusalem thus reports:  
"The condition of the Jewish exiles, who have been driven by Djemal Pasha out of Jaffa and the neighboring districts, is very much worse than that of other sections of the populace. In spite of the reports to the contrary launched by the Turkish authorities, none of these thousands of hapless refugees has been allowed to return to his home, and whatever preparations have been made for transporting, housing, feeding, educating, and giving employment to them have had to be made by the private charity of the local Jews and their brethren in other countries."

"This is a sour world for the man with a sour disposition."

**PETROGRAD FEARS ANOTHER REVOLT**  
The Provisional Government Prohibits Armed Demonstrations; Asks for Order

Petrograd, Nov. 6.—The probabilities of the eventuation of the threatened Bolshevik outbreak are incalculable. The Provisional Government has formally prohibited armed operations and has appealed to the garrison and the population to keep order. Government armored cars are in evidence everywhere. On the other hand, at the Petrograd Soviet meeting Friday night the Chairman, Trotsky, declared a demonstration would take place and that he had commandeered 5,000 rifles from the Government factory "to fight a counter-revolution."  
Perhaps Petrograd has more to fear from amateur handling of their rifles and certain commandeered bombs, and armored cars carrying machine guns, than from desire deliberately to produce chaos.
