### MUCH GOOD IN CHRISTMAS DINNER

FORE sitting down to your Christmas dinner you should read this through. Then you will be able to eat the roast beef or turkey and plum pudding without any misgivings as to the consequences. The Christmas dinner, according to a well known medical authority, is, after all, a simple affair, and its ingredients are in general of the most wholesome kind. Roast beef or turkey and plum pudding represent in plain terms the constituents of what is from a physiological point of view a complete diet, presenting all classes of reparative material demanded by the great processes of nutrition. It contains a balance of proteins, fats, carbobydrates and mineral salts which go to make up healthy tissue.

The plum pudding in particular is a complete food in itself, and the only risk of the Christmas meal is taking an excess of the good things which it provides. Fortunately people nowadays do not need to be told to guard against excess.

The gospel of temperance in regard with sallow to both eating and drinking has been ous enough who possess a sensible acquaintance with simple physiological facts to guide them. This knowledge. however, is not a fetter to their liber. ties, nor does it diminish their joy.

> Indigestible dishes are not, as a rule, the feature of the Christmas dinner tamore digestible than turkey, roast beef or Christmas pudding eaten in balanced quantities. There are plenty of other meats and sweets which are far more trying to the digestive apparatus than these. During the Christmas festivity, having regard even to the finest requirements of the functions, it is possible to be merry and wise together, a line of conduct which is in complete allegiance to physiological orders.

This practice of greeting the neighbors on Christmas morning with songs is still maintained in several parts of England, and the singers are called "waits." The word, probably meaning "watchers," at first was applied to and has now become restricted to the

Cheer Up For Christmas!

cheerful. Christmas, true to its custom, is again with us. Another year has ranged itself with those toat have gone before, as happens annually. Cheer up! The laws of nature are still in working order. Christmas is generally considered an occasion for cheer.

"Merry Christmas" is the slogan of the day, usually with the appendage "Happy New Year." It is also the time you receive a large number of things you don't want, in exchange for the same number that you would rather have kept. It is also the time father carries the box of cigars mother gave him out to the woodshed, removes the bands, places them on cigars of his own and gives what they originally contained to the ash man,

Be careful just the same.

Think of the excellent chance you had to pass on the white elephants kind friends presented you with the year before. You probably think you had to buy a lot of presents. ### Christmas In Newfoundland

the American countries, none perhaps has more picturesque Yuletide rites than little Newfoundland. Even in summer Newfoundland is seldom a tourist land-the men who come to fish or hunt aren't apt to overthrow native customs-and i the winter strangers to the "outpost" towns are few and far bebetween, wherefore a Newfound land Christmas remains today much as it was when the first settlers to England's oldest col

There were the old time chimney and the great open fireplace -the fishermen are largely of English descent, and so there is the burning of the Yule log.

During Christmas week, for example, such fishermen as were not busied doing their "fishing for the church"-that's to say, dropping their nets and bringing their catch to be sold for the benefit of the village curate-were wont to dress up as mummers. Bands of these strollers would meet at the homes of the different employers of fishermen, and there were festivities, ending in dancing. It took one back in fancy to the old feudal times in England. for the employers are to these fishermen as so many lords. whose slightest request is their law. After the feasting the older folk withdraw to one side to tell tales of their lives on the seas. Now and then the parish priest drops in to wish all the compliments of the day. The young folk proceed to dance or to plan and devise costumes for the dances to follow.
