was known as Tilaventus. The Livenza river, to which line he Italian's fell back after having been driven across the Tagliamento. is not more than 75 miles in length, but it has numerous tributaries, chief among those on the east being the Meduna, the Giume and the Sile. while the Monticano and the Meschia are affluents of the west bank. The point at which the Livenza mingles its waters with the Adriatic is only 28 miles north-east of Italy's priceless-jewel city, Venice. Chief among the Italian towns of historic interest are Portogruaro, San Vito, Azzano, and the ruins of Concordia Sagittaria, the ancient Roman military station. It is probable that Venice is now wrapped in darkness at night from necessity as well as from military policy. The city receives its electricity through a high-tension current generated at the falls of Cellina, which are midway between the Tagliamento and Livena, some 50 miles north-east of the Mistress of the Adriatic. This wire was undoubtedly severed by the advance
