

DEAF PEOPLE

Deafness and noises in the head can now be most certainly cured by the newly discovered "French Orleans." This new remedy goes right to the actual seat of the trouble, and effects a complete and lasting cure in a few days.

One box is ample to cure any ordinary case, and has given almost immediate relief in hundreds of cases which had been considered "hopeless."

Mr. D. Borthwick, of Dalhousie, N.B., writes: "Your new remedy, which I received from you some time ago, has completely cured my hearing, after more than twenty years' deafness. I will be pleased to recommend it to all my friends."

Some of other equally good reports. Try one box today, which can be forwarded securely packed and post paid to any address upon the receipt of postal or money order for \$1. There is nothing better at any price.

Address: "Orleans" Co., H. T. Richards, Watling Street, Dorford, Kent, Eng. Please mention this paper.

THOMAS COPLEY Telephone 987

Wanting anything done in the carpentry line. Estimates given on all kinds of repairs and new work; also hardwood floors of all kinds. All orders will receive prompt attention. Shop 20 Queen Street.

BISURATED MAGNESIA FOR DYSPEPSIA, INDIGESTION

Heartburn, Belching, Sour Acid Stomach, Gas in stomach, etc. Take a teaspoonful of Bisurated Magnesia in a half glass of hot water after eating. It is safe, pleasant and harmless to use and gives almost instant relief. It neutralizes stomach acidity and sweetens the food contents so that digestion is easy and painless. Sold by druggists everywhere.

Dandruff Surely Destroys The Hair

Girls—if you want plenty of thick, beautiful, glossy, silky hair, do by all means get rid of dandruff, for it will starve your hair and ruin it if you don't. It doesn't do much good to try to brush or wash it out. The only sure way to get rid of dandruff is to dissolve it, then you destroy it entirely. To do this get about four ounces of ordinary liquid arvon; apply it at night when retiring, use enough to moisten the scalp and rub it in gently with the finger tips. By morning, most if not all, of your dandruff will be gone, and three or four more applications will completely dissolve and entirely destroy every single sign and trace of it. You will find, too, that all itching and digging of the scalp will stop, and your hair will look and feel a hundred times better. You can get liquid arvon at any drug store. It is inexpensive and four ounces is all you will need, no matter how much dandruff you have. This simple remedy never fails.

Add at least 50 per cent. to the good that one woman reports of another.

CLEAN OFF YOUR ROOF!

POLICEMEN ON THE WAR PATH AFTER NEGLIGENT CITIZENS

Demand That Walks Be Shovelled And That Roofs Be Cleared—Trying to Prevent Accidents.

"Thou shall keep thy walks shovelled and thy roof free from ice and snow that might drop on the heads of the citizens." This is the text of the policeman's commands to the citizens now.

For the last few days the policemen have been making a determined effort to enforce these two regulations. On of the force has been working in Catarqui ward and has succeeded in having quite a number of walks cleared of snow.

To clear the roofs, particularly those of stores on the main streets, is a dangerous piece of work, but absolutely necessary. There have been many serious accidents caused by snow and ice slipping off roofs to the sidewalk and falling on people walking beneath, causing severe injuries.

The policemen are tackling both problems and making delinquent citizens obey the law.

SOLDIERS' POULTRY COURSE

Returned Men Are Taught How To Raise Poultry.

With eggs selling generally for seventy cents a dozen and a few householders crowing exultantly because they are paying only fifty cents for the poultry course offered to the convalescent soldiers by the vocational training branch of the Military Hospitals Commission has much to recommend it, even to the city man who never before considered the advisability of raising his own eggs.

To the returned soldier who finds himself unfitness for strenuous work, or bound to some new occupation because of an amputated leg or arm, the poultry course is an open door to independence. The initial outlay is not large and a competent man well trained can see a great future before him.

He learns everything about poultry from incubation to the building of the best chicken house. The construction of the proper kind of poultry house and fitting it with the right equipment has an important part in his success. This settled he learns the most profitable of the utility breeds and the management of flocks for egg production. Feeds and feeding are given next consideration and finally he learns to market.

Many men have already completed the course and set up in business. They are uniformly successful according to the reports on file at the M. H. C. headquarters.

Great Clearing Sale. Prevost, Brock street, has made a great reduction in ready-made clothing and gent's furnishings to make room for his spring goods. Special value in boys' overcoats from 5 to 10 years; in blue and gray, at 2.50 for the coat of the country.

Wolfe Island Concert. Mrs. John T. McLaughlin, Wolfe Island, has held four concerts and raised over \$400 towards the payment for the Sacred Heart Church on Wolfe Island. The fourth was held on Monday evening last in the church hall and over 275 people attended.

Sleep Broken, Rest Impossible. Kingston Man Found His Nervous System Greatly Exhausted—Benefitted by a Friend's Experience—and Health Was Completely Restored.

Mr. W. B. Moore, No. 4 Lower Quebec St., Kingston, Ont., writes: "About five years ago, I was suffering from nervous trouble, pains in my back, and general run down condition, and was next door to dying a couple of times. I was so nervous at times that I could not get a cup of tea to my lips. Sometimes I would never close my eyes during the whole night, and if I did get to sleep, would waken up with a jump. Through seeing the effect of Dr. Chase's Nerve Food on a friend of mine, I was induced to try it. After taking a treatment, I found a great improvement, could sleep well, and an enjoying good health at present."

When the nerves give out everything goes wrong. The heart's action is weakened, the stomach fails to digest the food, headaches result, you cannot rest or sleep properly and you get rundown and discouraged.

There is only one way to get out of this condition and that is by feeding the nerves and thereby nourishing them back to health. The most successful treatment used for this purpose is Dr. Chase's Nerve Food. This fact has been proven in so many thousands of cases all about you that it seems as though everybody should know it by this time.

HE SHOWED HIS COLORS DEFENCE BY A. M. RANKIN

REV. T. E. BOURKE ANSWERED OF THE WORK DONE ON THE SUBURBAN ROAD AREA.

Who Had Questioned His Loyalty—He and His Boys Were Ready for Service—Put All He Had in Victory Bonds.

A writer in the Montreal Gazette questioned the loyalty of Rev. T. E. Bourke, formerly pastor of the Brock street Methodist church, and in reply Mr. Bourke wrote: "The day after war was declared in 1914, I called up a prominent citizen, and as I was then in the pastorate, I volunteered to go as a chaplain. This citizen directed me to forward my letter to Ottawa, which I did, and received a very kindly reply that it was placed on file, and in due time would receive consideration. How much consideration it received is not for me to say. Getting weary of waiting, I went to Colonel McGee, who was raising the 148th Battalion, and volunteered to go as a private soldier in his regiment, but was turned down as physically unfit for service overseas. Col. McGee expressed his high appreciation of my act, and gave me papers certifying that I had been there and offered my services, and was turned down. These papers are now in my possession. A few months later there was quite an agitation as to the possibility of a German invasion from the States, and I was anxious to be ready to meet them, so I went to the McGill Auxiliary regiment and was examined by their doctor, and he also turned me down as unfit for military service. Col. A. McGee can vouch for these facts. I have three sons, one is 20, one is 18 and one is 15 years of age. The one who is 20 is a gold medalist of McGill University, and because of his mathematical attainments on his graduation had many opportunities of earning good money, which money he needed, and which I needed, but the call of duty was so strong that he gave up those opportunities and with the blessing of his father and mother enlisted as a private soldier and is now at the front. The one who is 18 also enlisted, but was turned down as physically unfit, and has his papers to that effect. The one who is 15 could not yet offer.

Furthermore, in the recent Victory Loan campaign, Mrs. Bourke and myself gave to the Government all of our life savings. The amount was not very big and perhaps it was not a very patriotic act as we were getting 5 1/2 per cent on it, 2 per cent more than the bank was giving us, but the patriotic call comes in, and the fact that we gave our all and that many times since giving it we have been made to feel the pinch of having it placed where we cannot just put our hands upon it.

Are these acts evidence of loyalty or disloyalty? Let the public judge.

Mr. Rankin claimed that the city had no ground for complaint with regard to the way the work was being done. The city and the county were particularly favored by having the use of a large amount of Ontario Department of Highways road machinery. Mr. Rankin held that the financial conditions of the municipalities were no worse in 1918 than last year and he thought they could well afford to continue the work on the suburban road area this year. The Commission was asking Kingston and Frontenac each for \$4,000 again this year. Frontenac's share was asked for Phillipsburg and Kingston townships in which the work was done. Mr. Rankin hoped that the work would not be stopped as suggested by the City Council, especially when so much free labor and stone can be used on the roads horseback.

Warden Reed stated that the Council would deal carefully with the question.

Plea For General Hospital. Chairman R. E. Kent, F. G. Lockett and Dr. Wright, representing the Board of Governors of the Kingston General Hospital, addressed the Council and asked for an increased grant to that institution in view of the greatly increased cost of maintenance. The hospital depended largely upon the generosity of the people of Kingston and Frontenac. Coal alone last year cost the hospital \$2,000 more than in the previous year. The cost of food and drugs had also increased enormously, and the hospital simply could not get along with the present receipts. It was essential that all municipal grants be increased. Last year the County Council gave the hospital \$2,800. This year it was asked for \$3,500.

F. G. Lockett made a strong appeal for the hospital, and Dr. Wright told about the increases in wages, prices paid for drugs, etc.

Mr. Rankin, M.P.P., also put in a word on behalf of the city hospitals. He advocated changing the basis of grants and making an assessment of say one mill on the dollar; then the people would know just what they were giving. The hospitals deserved each—the county of the country.

Sympathetic consideration of the hospital representatives' request was promised by Warden Reed.

M. C. Nickle addressed the Council, and asked that it renew its grant of \$2,000 a month to the Canadian Patriotic Fund. He gave some interesting figures in regard to the work of the Canadian headquarters' committee. Last year the committee spent one million dollars a month on behalf of the country. It was the duty of the people at home to see that the families of the men who had gone to the front were taken care of as they should be. All Frontenac was asked for was to renew its grant of last year. It was not being asked for more than that.

On motion of Councillor Spankie, the Council decided to issue war certificates to the amount of \$40,000 to cover the patriotic grants of a part of 1918 to those of 1918 and for the early part of 1917. The Council grant this year will be the same as last—\$2,000 a month.

Standing Committees. The following standing committees were appointed—Finance—Councillors Halliday (Chairman), Spankie, Parks, Wensley, Cox, Patterson, Maitland. Property—Councillors McFadden (Chairman), Driscoll, Wensley, Maitland, Halliday. Roads and Bridges—Councillors McGregor (Chairman), Gemmill, Truscott, Howes, Gray. Printing and Education—Councillors Coulter (Chairman), Patterson, Cox, Stover, Parks, Howes, Calvin. Good Roads—Councillors Truscott (Chairman), McFadden, Coulter, Maitland and Warden Reed. Quarterly Board of Audit—Dr. William Spankie.

Councillor Halliday retired from the Property committee and Councillor Stover was appointed to take his place.

HAWAIIAN PLAY AT GRAND. "A Daughter of the Sun" a Pleasing Production.

Hawaiian music and Hawaiian settings make successful plays, and "A Daughter of the Sun" a story of a Hawaiian native, entertained large audiences at the Grand on Wednesday afternoon and evening. The introduction of a Japanese Not to get possession of Hawaii and wireless interceptions gave an additional thrill to the play. The spectators went home satisfied because the charming native girl was permitted to live and not jump into a volcano before the curtain fell. The cast was good throughout. James A. Bliss and Virginia Stuart handled out some refreshing comedy; Jean Clarendon took the role of a Japanese scientist-pilot in a most capable manner, and Freda Tymers played "The Daughter of the Sun" charmingly. Hawaiian natives rendered pleasing and plaintive melodies of their country.

The sermon that makes one think outside the church is the best kind of a sermon.

Young Ladies' Mahogany Tan Boots with Neolin Soles We are showing several up-to-date lines of Ladies' Boots with neolin soles at \$7.50, \$8.00 and \$10.00. The popular winter boot. Abernethy's Shoe Store
