FUEL ORDERS DECREASING
NO RUSH AT FUEL CONTROLLER'S OFFICE WEDNESDAY

It is possible that the City Schools May Be Closed—Drug Stores and News Stands Exempt from Fuel Order.

Fuel Controller Nickle reports that on Tuesday 280 orders for coal were received at his office, and eighty-five of these were given over to the dealers for immediate delivery. The orders will be filled according to the needs of the applicants. A restaurant was refused coal for cooking purposes on Tuesday, as only fuel for heating could be delivered on such an extremely cold day.

There was no big rush on the fuel controller's office Wednesday morning. Up till nine o'clock about half a dozen orders had been issued.

On Wednesday morning Mr. Nickle issued regulations to the people wanting coal, and they took these to the coal dealers to have filled.

One great trouble is that of securing the delivery of the coal. Many people who are right out of fuel will have to secure their own vehicles to draw it.

Churches Take Action.
 The churches will make every effort to economise coal. Last night the official board of Queen Street Methodist Church decided to use the Sunday School room for all services for the next two months. The League and prayer meetings will be held in conjunction with other Methodist churches, alternating about the churches. The meetings of other organizations will be held at private homes.

It is not likely that Zion Church, St. Luke's, Princess Street, Methodist, or the various missions can link up, as they are on the outskirts, but they might meet in the smaller rooms of the churches and thus avoid heating up the auditoriums.

Sydenham Street Church Saving.
 It has been decided at Sydenham Street Methodist Church to cut off entirely all the week evening meetings out of the church and the Sunday School hall, and arrangements will be made for the holding of these in various homes. The church will remain open only for the two services on Sunday, and the session of the Sunday School. The Sunday School hall and lecture hall will remain closed. Sydenham Street would willingly join with another congregation, but their congregation on Sunday night is too large to combine with any other congregation. Sydenham Street, however, would gladly welcome any other congregation to come in with them. The stand taken by the church will mean the saving of a great deal of fuel.

To Close The Schools.
 The proposal is made, that the schools close for the balance of February. This would likely lead to the saving of eighty or one hundred tons of anthracite and soft coal. The vacation for the pupils would not militate against the proposal. It is even suggested that the Easter holidays be used for study in view of the holidays given this month. If the Board of Education so decided.

If the schools do not close the hint is given that churches near to them might utilize the space they have to be kept reasonably warm on Saturdays and Sundays.

Give Same Discretion.
 Some retail merchants declare the regulations were made to benefit the metropolitan cities, where manufacturers, wholesalers and professional men close on Saturday at noon. In the smaller places Saturday is the merchants' best day. They feel that the government might give discretionary powers so that the merchants in towns and small cities might

HEALS INFLAMED, ITCHING SKIN
 A Home Treatment Which Relieves and Cures Eczema, Salt Rheum and All Itching Skin Diseases, and Leaves the Skin Soft, Smooth and Natural.

Woodstock, Ont., Feb. 6.—As a means of allaying inflammation, relieving the dreadful itching and healing and curing itching skin diseases, ulcers and eruptions, we believe that we can prove that Dr. Chase's Ointment is the most potent preparation that it is possible to obtain.

So many extreme cases have been cured, so much intense and continued agony has been relieved, and such a host of people have volunteered their evidence in this regard that we challenge anyone to produce like endorsement for any Ointment or any preparation which is recommended for such diseases.

Dr. Chase's Ointment certainly stands alone, unapproached and unrivalled as a healer of the skin and positive cure for itching skin diseases. From pimples to eczema, from chilblains to ulcers, each and every form of itching skin disease have been cured by this great ointment.

Mrs. J. Chapman, 408 Dundas street, Woodstock, Ont., writes:—"About three years ago, I suffered greatly from an awful rash and irritation of the skin on my chest and back. I could not bear to touch it and had to wear very loose clothing so nothing would rub against it. At night when I would lie down, I could get neither sleep nor rest. I tried different remedies and doctors' treatments, but never got any relief. At last my daughter advised me to try Dr. Chase's Ointment. I did so, and after the first application, I was able to get the first night's good rest that I had for a long time. I continued using the Ointment until I was completely cured."

Dr. Chase's Ointment is known in almost every community. Ask your neighbors about it. There is probably a marked cure at your door which you can investigate. The cures made by this preparation will stand investigation. 60 cents a box, at all dealers, or Edmondson, Bates & Co., Limited, Toronto. Do not be talked into accepting a substitute. Imitations only disappoint.

make the three heatless days at their convenience, say on Sunday, Monday and Tuesday.

Several Clubs To Close.
 The Country Club and the Yacht Club can only be opened on Wednesdays and Saturdays. On other days of the week the coal consumption at such clubs shall be restricted to the quantity necessary to prevent damage through freezing. This order is for February and March.

The regulations do not affect railways, public utilities, telephone and telegraph plants and premises, domestic customers, hospitals, churches, charitable institutions, military and naval barracks or posts, premises and plants of coal dealers, consular and other officials of foreign governments, mines and plants directly engaged in the manufacture of war supplies which may have received special permit from the fuel controller.

Can Remain Open.
 The closing regulations exempt drug stores and bona fide news stands, which may remain open on the 9th, 10th and 11th as usual.

Appointed a Committee.
 A meeting of the board of management of Brock street Methodist Church was held Tuesday night, when the fuel question was under discussion. A special committee was appointed to deal with the matter. This committee will meet and a report will be given in the course of a few days. The church is anxious to do all that is possible to help.

Theatrical News
 (Continued from Page 8.)

Coming To Grand.
 At last the new Paralta Plays, the pick of the pictures, have arrived in Kingston. And it remained for the Grand to secure the very first one for presentation on Thursday, Friday and Saturday of this week. The seven-reel romance, "A Man's Man," adopted from the book of the same name by Peter B. Kync. The action is swift, the story convincing and graphic, the interest cumulative, and the quality of the acting better than the average. Mr. Kerrigan is fitted with a role obviously to his liking and he makes an attractive hero, with his personality and screen experience standing out at all times. "Love, Laughs and Lather," is the title of the extremely funny two-reel Lonesome Luke comedy which will also be shown on this big programme. Other interesting items, and an act of big-time vaudeville complete the programme that would do justice to any high-class theatre.

Phyllis Nelson Terry.
 The story of a young Irish girl being suddenly thrust into the sordid surroundings of poverty to those of luxury and the development of a series of original and amusing situations as a result, will be unfolded at the Grand next Monday and Tuesday, February 11th and 12th, when Phyllis Nelson Terry appearing in a comedy entitled, "Maggie," by Edward Peple, whose plays, "The Prince Cap" and "The Littlest Rebel," have entertained thousands of theatregoers. In presenting the new play in Canada, Miss Nelson Terry is carrying out a personal desire, as she wishes to give her many friends the opportunity of seeing her in a role different from any she has played. Those who recall her emphatic success in "Tribby," and her splendid work in Shakespearean characters will be especially interested in the forthcoming production, which has been staged by George C. Tyler. The piece is said to be original in conception and to afford the star a part well suited to her ability. The actual place in New York and London and a competent company has been selected to support Miss Nelson Terry.

MILK PRODUCERS WILLING
 To Co-operate With the Inspector, Dr. Bell Says.

Dr. G. W. Bell, milk inspector, states that he has found the milk producers willing to co-operate with him in order to produce pure milk and cream. There are twenty-seven vendors doing business on Kingston streets and forty stores retail milk. It is estimated that Kingston consumes 6,215 quarts of milk a day. Milk is really scarce, the inspector says, and he knows of one vendor who buys from twenty-six dairymen, going as far as Brockville for some of it in order to supply his customers. It costs 6 1/4 cents a quart to deliver milk in bulk in Kingston, so the milk vendor has not an excessive profit.

Inspector Bell says that he has found all the milk vendors here complying with the requirements of the Act. The dirt test which at first he found unsatisfactory, has improved greatly, and since he has given definite instructions with regard to the handling of milk, the dirt will disappear altogether. One difficulty is that on account of scarcity vendors have to go here and there wherever they can get milk to make up their supply. Inspector Bell intends making a special test of the milk of each vendor before the renewal of licenses, which expire on the first of April.

KINGSTON EVENTS
 25 YEARS AGO

If any person desires evidence of hard times and depreciation of property, they can call on a market lawyer, who lent \$5,000 on a farm in Prince Edward County, valued at \$1,000 by official valuator, and is asked to take it for the amount of the loan.

A continental union club will be started here, with a large membership.
