

In The Ream Of Woman--Some Interesting Features

I WAS somewhat peeved LAST NIGHT. George got SENTIMENTAL about my hair AND I told him that having NICE HAIR was a duty BUT THAT having something UNDER THE hair was in a MEASURE A privilege AND I felt myself IN THE privileged class. I BELIEVE that men don't THINK OF anything but a woman's LOOKS, BUT I thought GEORGE WAS different.

Yours for beautiful hair,

To Stop a Persistent Hacking Cough

The best remedy is one you can easily make at home. Cheap, but very effective.

Thousands of people normally healthy in every other respect, are annoyed with a persistent hacking or bronchial cough year after year, disturbing their sleep and making life disagreeable. It's so needless—there's an old home-made remedy that will end such a cough easily and quickly.

Get from any druggist 2½ ounces of Pinex (50 cents worth), pour it into a glass, let it stand all the bottle with plain granulated sugar syrup. Begin taking it at once. Gradually but surely you will notice the phlegm thin out and then disappear altogether, thus ending a cough that you never thought would end. It also promptly loosens a dry or tight cough, stops the troublesome throat tickle, soothes the irritated membranes that line the throat and bronchial tubes, and relieves cough almost immediately. A day's use will usually back up an ordinary throat or chest cold, and for bronchitis, croup, whooping cough and bronchial asthma there is no more letter. It tastes pleasant and keeps perfectly.

Pinex is a most valuable concentrated compound of genuine Norway pine extract and is used by millions of people every year for throat and chest colds with splendid results.

To avoid disappointment, ask your druggist for "2½ ounces of Pinex" with full directions and don't accept anything else. A guarantee of absolute satisfaction or money promptly refunded goes with this preparation. The Pinex Co., Toronto, Ont.

The Starting Point Of Consumption

Lies in Weak, Watery Blood — Dr. Williams' Pink Pills Make the Blood Rich, Red and Pure.

Weak, watery blood is the starting point of consumption. When your blood is in this condition your whole health declines. Your face becomes pale or sallow, your appetite fails, your heart jumps and flutters at the least exertion or excitement. You are always weak and wretched and you lose interest in both work and amusements. This is the point from which you may easily step into that hopeless decline that leads to consumption and the grave. What is needed to bring back health, strength and energy is the new, rich red blood Dr. Williams' Pink Pills actually make. In all the world of medicine there is no other tonic and blood builder like them, and all who feel weak, run-down or easily tired should lose no time in giving these pills a fair trial. They have transformed thousands of weak, hopeless men and women, boys and girls into strong, robust people. In proof of these statements may be given the experience of Mrs. T. Brennan, Charlton, Ont., who says: "Not only myself, but my friends think that had it not been for Dr. Williams' Pink Pills I would have filled a consumptive's grave. My condition was most serious; my blood seemed literally to have turned to water; I was as pale as a sheet and became utterly unable to do any household work or go about. I doctored steadily for a long time but was growing weaker, and finally the doctor held out but little hope for my recovery. It was thought that a trip might help me and I was taken to New Ontario. Those who saw me while on my way did not think I would reach my journey's end alive. After I reached my destination a friend strongly urged me to try Dr. Williams' Pink Pills, and as of course I was anxious to regain health I did so. The pills were the first medicine I had taken which seemed to help me at all, and it was not long until I felt they were doing me good, I continued their use gladly, and began to feel hungry and soon after was able to move about the house. Next I was able to go out of doors and to help in the housework, and from that time on my progress was rapid, and in the end I was enjoying better health than I had ever done before. There are many people who can testify to the absolute truth of these statements, and I feel I would not be doing you wrong if I told you that I did not make these facts known."

You can get these pills through any dealer in medicine or by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

No one can deny that one of the most important features of the modern development of the American theatre has been the constantly larger and larger part being played by the stock company in the entertainment of the public theatregoers. company, in the interest of stock progress, notes the significant fact that never before in the history of the country have there been so many permanently established stock companies in various communities, or so many patrons for that form of amusement, it would seem, therefore, that in the evolution of the American dramatic field, the stock company has taken a decided place in the scheme of theatrical enjoyment.

The house of Moliere in Paris is distinctly a Parisian institution. It is a national stock company, but its habitat is Paris. The Hofburg Theatre in Vienna, one of the most beautiful theatres in the world, and almost as illustrious as the Theatre Francaise in Paris, in its traditions, is the national stock company of Austria. In America most of the large cities have their stock company. Here in Canada, Toronto, Winnipeg, Vancouver and Victoria have their stock company, and now Montreal has its stock organization at the New Empire, through the efforts of Paul Cazenueve, who has always been convinced that Montreal should have a permanent English stock company.

Since the outbreak of war, interest in Russia and things Russian has greatly increased in England and America. Russian novels, besides Tolstoy's appeared in bookstores and Russian drama was shown on the stage. Now one learns that Pathé has secured right to the Russian Art Films in Canada and the United States.

The Seven Deadly Sins are progressing at a great rate. Envy and Pride over and done with, we now tackle Passion and Wrath. Hope they're not catching. That's all. "Wrath" sounds most promising, for here is that nice actor, H. B. Warner, playing two roles no less. He must be working beyond the eight-hour limit. The scene is laid in Russia, and the plot deals in munition plots, peace fiends and the like, quite proper and natural.

Even in England, where they are awfully busy with the war, they are finding time to give children's shows at the picture theatres. The Birmingham Public Entertainments

NO Premiums Now—

A bigger bar for you now

because we are withdrawing all Premiums—due to the impossibility of getting good ones in the face of war conditions. This will be great news to many thousands who bought Comfort Soap because of its sheer merit and never saved the wrappers for premiums.

To other thousands who got Comfort premiums we honestly say we simply could not ask you to accept the kind of premiums now being made. The value isn't there! But the value is in the bigger, much bigger, Comfort Soap bar—at the same price.

Why do we prefer to give up premiums? It pays you in war time

We'll wait until after the war, anyhow, and see how the premiums are then. In the meanwhile, of course, all present Comfort wrappers and coupons now out in the stores will be redeemed as formerly, but understand the wrapper on the new big Comfort bar is not good for premiums.

The new, bigger bar of the same old Comfort will be at your grocer's maybe to-day—but either size will give you equal value.
