Sole of Car Ferry Steamship "Leonard"

SEALED TENDERS addressed to the undersigned and endorsed "Tender for Steamer Leonard" will be received at this office until 12 o'clock noon on Friday the 22nd of February, 1918, for the purchase of the Car Ferry Steamship "Leonard" formerly engaged in transferring cars between Levis and Quebec. The "Leonard" was built in 1914 and designed to fulfill the requirements of the highest class in Lloyd's for a vessel of this type. Her principal dimensions are: length over all 313 feet; breadth 45 feet; depth 23 feet; draught 16 feet. The "Leonard" is now lying at Levis, Que., below the dry dock where she can be examined. Information as to the steamer's engines, boilers, steam pressure, speed, bunkers, tracks, gangways, ice breaking, etc., etc., and further full information can be obtained at the Department of Railways and Canals, Ottawa.

An accepted bank cheque on a chartered bank of Canada for an amount equal to ten per cent of the total sum tendered made payable to the order of the Minister of Railways and Canals, must accompany each tender, which sum will be forfeited if the party tendering declines entering into contract for the work, at the rates stated in the offer submitted. The cheque thus sent in will be returned to the respective contractors whose tenders are not accepted. The cheque of the successful tenderer will be held as security, or part security, for the due fulfilment of the contract to be entered into. The lowest or any tender not necessarily accepted.
