"In the press a few weeks ago," the hotel keeper hastily explained, "your transfer from the Nile country was announced. "How will the madness end, Captain Woodhouse? What will be the boundary lines of Europe's nations in, say,

> Mr. Billy Capper, ejected from the Hotel Splendide, took little umbrage at such treatment. It was not an uncommon experience, and, besides, a quiet triumph that would not be dampened by trifles filled his soul. Cheerfully he pushed through the motley crowd on Waterport street down to the lower levels of the city by the Line wall, where the roosts of sailors and warrens of quondam adventurers off all the seven seas made far more congenial atmosphere than that of the Splendide's hollow pretense. He chose a hostelry more commensurate with his slender purse than Almer's, though as a matter of fact the question of paying a hotel bill was furthest from Billy Capper's thoughts. Such formal transactions he avoided whenever feasible. The proprietor of the San Roc, where Capper took a room, had such an evil eye that his new guest made a mental note that perhaps he might have to leave his bag behind when he de-

camped. Capper abhorred violence-Alone over a glass of thin winethe champagne days, alas, had been too fleeting!-Capper took stock of his situation and conned the developments he hoped to be the instrument for starting. To begin with, finances were wretchedly bad, and that was a circumstance so near the ordinary for Cupper that he shuddered as he pulled a gold guinea and a few silver blu from his pocket and mechanically counted them over. Of the 300 marks Louisa-pretty snake!-had given him

in the Cafe Riche and the expense money he had received from her the following day to cover his expedition to Alexandria for the Wilhelmstrasse naught but this paltry residue! That second cabin ticket on the Princess Mary had taken the last big bite from black and tan town with a quid and little more between himself and the

old starved dog life. But-and Capper narrowed his eyes and sagely wagged his bead-there'd be something fat coming. When he got knee to knee with the governor general of the Rock and told him what he, Billy Capper, knew about the identity of Captain Woodhouse, newly transferred to the signal service at Gibraltar, why, if there wasn't a cool £50 or a matter of that as honorarium from a generous government Billy Capper had missed his guess-that's all. The little spy anticipated no difficulty in gaining audience with the governor. Before he had been fifteen min-
