

CHILDREN HAD WHOOPING COUGH

Whooping cough, although especially a disease of childhood, is by no means confined to that period, but may occur at any time of life. It is one of the most dangerous diseases of infancy, and yearly causes more deaths than scarlet fever, typhoid or diphtheria, and is more common in female than male children.

Whooping cough starts with sneezing, watering of the eyes, irritation of the throat, feverishness and cough. The coughing attacks occur frequently, but are generally more severe at night.

On the first sign of a "whoop" Dr. Wood's Norway Pine Syrup should be administered, as it helps to clear the bronchial tubes of the collected mucus and phlegm.

Mrs. George Cooper, Bloomfield, Ont., writes: "It is with pleasure I can write and tell you that there never was a better cough medicine made than Dr. Wood's Norway Pine Syrup. Our children had whooping cough last winter, and that is the only thing that seemed to help them. It loosens up the phlegm so that they could raise it easily. I will never be without it."

"Dr. Wood's" is 25c and 50c a bottle; put up in a yellow wrapper; three pine trees the trade mark; manufactured by The T. Millburn Co., Limited, Toronto, Ont.

FRANCE ADVANCES CLOCKS.

Summer Times Goes Into Effect Fortnight Earlier.

Paris, March 12.—For the third year in succession summer time was introduced throughout France Sunday night at 11 o'clock, when all clocks were put forward a full hour. The change this year will be made a fortnight earlier than last year, and it is estimated that, based on last year's experience, the reforms will mean a saving of half a million tons of coal in this country alone.

Nothing Like Internal Bathing for Constipation

If people only knew what Internal Bathing is doing for thousands of others there would be fewer Pills and Laxatives swallowed, very much less suffering from Constipation and the accompanying Stomach and Nervous troubles resulting from it.

Mrs. Cave, 541 Ellery St., Victoria, B.C., writes:

"Before getting the 'J. B. L. Cascade' I suffered constantly from Constipation, had frequent bilious attacks and sick headaches. Since beginning your system of Internal Bathing with the 'J. B. L. Cascade' four months ago, I have not had one attack, and feel stronger and better in every way. My only regret is that I did not get a 'Cascade' sooner."

By the proper application of nature's cure, warm water, by means of the 'J. B. L. Cascade' the lower intestines are kept free from all poisonous waste. Drugs force Nature, Internal Bathing assists her.

Dr. Chas. H. Tyrrell of New York, a specialist on internal bathing, invented and perfected the 'J. B. L. Cascade' which has done more during the past 20 years in restoring health and lessening disease than all other means combined. 'Why Men of Today' is Booklet. 'Why Men of Today' is Only 5c Per Cent. Efficient. He will also be pleased to explain the 'J. B. L. Cascade' to you.

Popular Drug Stores. Phone 59, Branch 2018.

Keeley Jr., M.O.D.O.

Those people (and they are many) who dread the ordeal of an eye examination are agreeably astonished to find that, as made by us, it causes no pain, discomfort, or inconvenience.

And We Use No Drugs.

Keeley Jr., M.O.D.O. 226 Princess Street

THE MERCHANTS ARE ORGANIZED

(Continued from Page 1.)

The members spent some time in a general discussion of the question, and some useful hints were brought forward.

A. E. Roney suggested the conscription of foreign labor and using it for work on the soil.

A. B. Kingsbury believed that garbage sent to the city's incinerator, if properly cooked, could be used to raise between 150,000 and 200,000 pounds of pork each year. He felt that it was a proposition that should be taken up by the City Council. The fair grounds might be utilized for the enterprise. He was ready to gamble on the proposition being a paying one.

L. C. Lockett said he had been given to understand that all the garbage collected, with the exception of that secured from the hospitals, was being made use of. The garbage from the hospitals could not be used for feeding purposes.

Edward Anderson said corn and other feed would have to be mixed with the garbage to bring about the proper feeding, and this would of course, incur extra expense.

Mr. Kingsbury said he felt sure the feeding of garbage could be made to pay. He suggested the feeding of garbage and grain. He pointed out that New York was making money out of its garbage. The grease in the garbage there was being made use of.

"And even all the tin cans, too," remarked a member.

Will Give Prizes.

Barnet Lipman suggested that in order to stimulate interest in increased production that the association put up some cash prizes.

"This was done last summer in a contest for the children," remarked the president, "and it met with great success."

A. E. Roney warmly supported Mr. Lipman's idea, and he moved that a special committee be appointed to arrange for suitable prizes.

"Offer good substantial prizes, too," said Mr. Roney. "I regard this as a very good idea."

The motion of Mr. Roney met with the hearty approval of all the members present. It was decided to appoint the committee, which is composed of Barnet Lipman, Edward Anderson, R. J. Reid, M. S. Grace and the president.

The prizes will be offered for crops of beans, pork and potatoes, and will take in both the city and the county. Details for this competition will be arranged by the committee, and a report presented to the association, for its approval.

Get After Hoarders.

R. J. Reid stated that some action should be taken to get after the hoarders of food. He cited a case where a man would not sell oats for \$1 per bushel, and another case where a man was holding two hundred tons of hay until he could get \$20 a ton.

The president stated that the Food Board was desirous of securing evidence of things of this kind, and that if the necessary evidence could be secured he would bring the matter before the Food Control Board.

Mr. Lockett wanted to know what was being done on the egg question. What had been done in the case where a million dozen eggs had been found to be stored, and were allowed to go bad?

Boost The Fair.

The president read a letter from R. J. Bushell, the bustling manager of the Kingston Industrial Fair, in which he asked for support.

The members were of the opinion that great praise was due Mr. Bushell and the directors for the success they had made of the fair, and at the same time it was felt that every merchant should back up the fair directors in every way possible. It was the opinion of all that the exhibition was an indirect benefit to every merchant, and the enterprise should be supported.

"It is an indirect benefit to everyone, and I think it should be backed up by our City Council," remarked Mr. Roney.

Mr. Roney further suggested a strong deputation to go before the City Council, in support of a sub-

Killed by Poisons

All scientists agree that poisonous products in the blood are eliminated by the kidneys and liver. The kidneys act as a kind of filter for these products. When the kidneys are changed or degenerated, they do not filter properly, and poisons are retained in the body. If we wish to prevent old age coming on too soon, or if we want to increase our chances for a long life, Dr. Pierce of Invalids' Hotel, Buffalo, N. Y., says that you should drink plenty of water daily between meals to flush the kidneys. Then procure Anurie at a drug store. This Anurie drives the uric acid out. Scientific men have learned that in gout, also rheumatism, poisonous uric acid crystals are deposited in or about the joints, in the muscles—where inflammation is set up.

If we wish to keep our kidneys in the best condition a diet of milk and vegetables, with only a little meat once a day, is the most suitable. Drink plenty of pure water, take Anurie three times a day for a month.

You can obtain a trial pkg. of Anurie by writing Dr. V. M. Pierce, Buffalo, N. Y., or Bridgeburg, Ont., enclosing 10c.

St. Catharines, Ont.—"For sixteen years I have been a sufferer from kidney trouble. I have had rheumatism most continuously and I have had rheumatic pains in my arms, hands and lower limbs. I have doctored and tried every medicine recommended to me, but have never found the relief in anything (no matter how much) until I took that little package of Anurie. In one week the rheumatism cleared and my bladder felt stronger than for years, so that I was not disturbed at night. I have since had to take several times during the night. I only hope that you will try this and will try Anurie if you suffer with any kind of kidney trouble."

STOP DANDRUFF! HAIR GETS THICK, WAVY, BEAUTIFUL

Girls! Draw a Cloth Through Your Hair and Double Its Beauty. Spend a Few Cents! Dandruff Vanishes and Hair Stops Coming Out.

To be possessed of a head of heavy, beautiful hair; soft, lustrous, fluffy, wavy and free from dandruff, is merely a matter of using a little Danderrine.

It is easy and inexpensive to have nice, soft hair and lots of it. Just get a small bottle of Knowlton's Danderrine now—all drug stores recommend it—apply a little as directed, and within ten minutes there will be an appearance of abundance, freshness, fluffiness and an incomparable gloss and lustre, and try as you will, you can not find a trace of dandruff or falling hair; but your real surprise will be after about two weeks' use, when you will see new hair—fine and downy at first—yes—but really new hair—sprouting out all over your scalp—Danderrine is, we believe, the only sure hair grower, destroyer of dandruff and cure for itchy scalp, and it never fails to stop falling hair at once.

If you want to prove how pretty and soft your hair really is, moisten a cloth with a little Danderrine and carefully draw it through your hair—taking one small strand at a time. Your hair will be soft, glossy and beautiful in just a few minutes. A delightful surprise awaits everyone who tries this.

stantial grant to help repair the fair buildings.

This suggestion was warmly supported by Mr. Lipman, who stated that it was up to the Council to support the fair.

Mr. Grace said that, in his opinion, it would not take much money to put the main building at the fair grounds in good condition. He had always had an exhibit there, and he felt that it was his duty to the city to do so. He was ready to subscribe \$25, and more, to help the fair. He felt that he was doubly repaid for the money he gave to the exhibition.

Mr. Bushell and the directors have performed miracles," he added.

The speaker moved that a committee be formed to devise ways and means to help the fair.

Mr. Mills also had warm words of praise for the fair, the manager and the directors. He declared that the time was not far distant when the exhibition would be made self-supporting. It was up to the merchants to back it up.

The motion to appoint a committee to devise ways and means of helping on the fair, was carried by a unanimous vote. The committee is composed of R. J. Reid, R. J. Reid, Bert Abernethy, A. E. Roney, W. Y. Mills, D. G. Laidlaw and William Anderson.

Get After Pedlars.

A. E. Roney drew the attention of the members to the fact that the pedlars by-law was not being strictly enforced, and asked that the association take steps to have it enforced.

It was pointed out that the Council had a special committee to deal with licensees.

"The City Council is keen on getting all the money, and I think this is a matter that should receive some attention," remarked Mr. Roney.

The members decided to have the secretary write the proper authorities, and ask that the by-law respecting pedlars be strictly enforced.

The association appointed three teams, to canvass the city, to secure members for the association. The aim is to have every merchant in the city join, and the association promises to be a great success. The members who have already signed up are most enthusiastic.

"There is no reason why we should not have a strong organization," said one of the members.

And no stone will be left unturned to make the association a "hummer."

STUDENTS BLAME BOARD.

Say Profs. Bland and Irwin Wrongly Dismissed.

Winnipeg, March 12.—That Professors Bland and Irwin were wrongfully dismissed from Wesley College here, and that the College Board attempted to deceive the Manitoba and Saskatchewan legislatures in connection with the conduct of these Professors, in effect is the conclusion reached by the student body of the Methodist College, which held a session on the matter on Wednesday last.

The report drawn up by the student body goes on to say that "Wesley College is to-day managed by men who have misstated the ground for the dismissal of Dr. Bland, and that he was dismissed because he expressed his convictions on the issues of the day. Further, Dr. Irwin was unfairly treated. In conclusion, the student body puts itself on record as protesting strongly against the action of the board in the whole matter."

Housewives Lower Prices.

Windsor, March 12.—Borrowing eggs brought to the public market Saturday morning by Essex County farmers, Windsor housewives forced the price down from 60c to 49c. Butter sold at an average price of 48c, the lowest in months. The embargo on exportation of chickens to the United States has had no effect on prices, which ranged yesterday from 30c to 35c a pound.

Gets 10 Cent Increase.

Brantford, March 12.—The local bricklayers have, it is understood, signed a new agreement with their employers calling for 65 cents per hour for an eight-hour day. The former scale was 55 cents per hour. Local carpenters are also asking for a raise.

Britain may hold its general election in July.

FATHER AND SON PERISH

ALEXANDER RANKIN WAS BORN AT JONES FALLS.

His Wife Alone Escaped From Burning House Near North Bay—Bodies Burned Beyond Recognition.

North Bay, March 12.—The home of Alex. Rankin, a farmer in the Township of Ferris a few miles from North Bay, burned a week ago and Rankin and his son perished in the flames. Mrs. Rankin escaped from the house in her night clothing, after calling to her husband and son who were asleep to come out. She managed to get out through a window, and going to the barn secured a horse blanket, and, wrapping this about her, made her way to a neighbor's house, where she arrived in an exhausted condition and nearly frozen.

The family at home, composing Mr. and Mrs. Rankin and son Henry, retired about 10 o'clock, and were asleep when the fire started. Mrs. Rankin was disturbed by smoke, and she went to arouse her husband and son. She got no response from the husband, but thinks her son Henry went downstairs and went back to arouse his father.

Mrs. Rankin, a woman of 61 years, suffered terribly from the cold before reaching a neighbor's house.

Undertaker Martyn and others went down the next day and recovered the remains of father and son, who were burned beyond recognition, except to discern the difference.

The remains of the father were on the beds springs and that of the son were about four feet away. They were brought to North Bay.

Mr. Rankin, who was aged 63 years, was born at Jones Falls, and in after life moved to Cobden, where Henry, the youngest of four, was born. His age at death was 29 years.

Mr. Rankin and family moved from Cobden to North Bay 26 years ago. For time he was employed on the C.P.R. at Chapleau and North Bay. Nineteen years ago he located in the Township of Ferris.

Mr. Rankin was a member of the Ferris Township Council for five years. Henry was also recognized in public life, being secretary and a member of the Junction School Board.

The deceased father leaves to mourn his loss wife, and mother of son; son, Alex. Jr., at Edmonton, Alta.; Lizzie (Mrs. Henry Welch) Thornloe; Margaret (Mrs. George McEerrow), North Bay.

NEW GOVERNMENT HAS SEAT AT PEKING

Prince Lvoff and His Followers Await Landing of Japanese Troops at Vladivostok

Petrograd, March 12.—The Pravda, organ of the Bolsheviks, prints a despatch from Irkutsk, which says: "The ex-president of the council of ministers of revolutionary Russia, Prince Lvoff, has constituted in the far east a new Russian Government, which at present has its seat at Peking, and which is awaiting the landing of Japanese troops at Vladivostok, in order to enter Siberian territory with them."

Telegraphic communication between Vladivostok and Irkutsk is interrupted. The Soviet of Vladivostok is mobilizing its forces for resistance and is forming a red army."

DEMOBILIZATION REPORT.

Major Arthur Sullivan to be in Charge of Work.

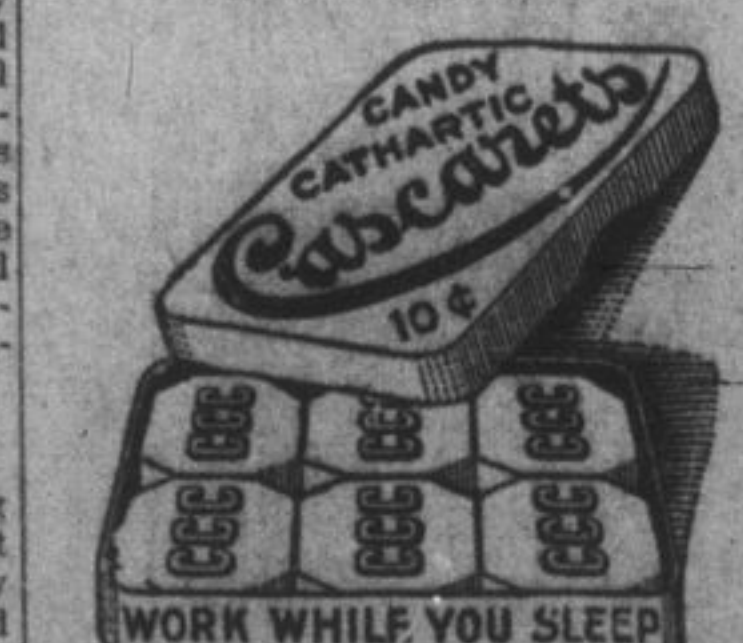

London, March 12.—The Canadian demobilization committee has issued its final report, and it is understood the recommendations have been referred to the authorities in Ottawa in the meantime it has been necessary to take steps to classify the men and arrange for a systematic dealing with the questions effecting demobilization of the Canadian forces.

Sir Edward Kemp has approved the appointment of Major Arthur Sullivan, the well-known Winnipeg barrister, who has been secretary to the committee, to be the officer in charge of this work under the adjutant general.

YOU'RE BILIOUS! CLEAN LIVER AND BOWELS TONIGHT

Don't Stay Headachy, Sick, or Have Bad Breeds and Sour Stomach.

Wake up Feeling Fine! Best Laxative For Men, Women and Children.

Enjoy life! Remove the liver and bowel poison which is keeping your head dizzy, joint tongue coated, breath offensive, and stomach sour. Don't stay bilious, sick, headachy, constipated and full of colic. Why don't you get a box of Cascarets from the drug store and eat one or two to-night and enjoy the nicest, gentlest liver and bowel cleansing you ever experienced. You will wake up feeling fit and fine. Cascarets never gripe or sicken like salts, pills and calomel. They act so gently that you hardly realize you have taken a cathartic. Mothers should give cross, sick, bilious or feverish children a whole Cascarets, which they act thoroughly and are harmless.

Probs: Becoming colder on Wednesday.

The Easter Display of the Smartest New York Suits, Coats and Millinery

Is now most complete, with the season's most advanced novelties—every new style is shown in this "wonderland" of ready-to-wearables.

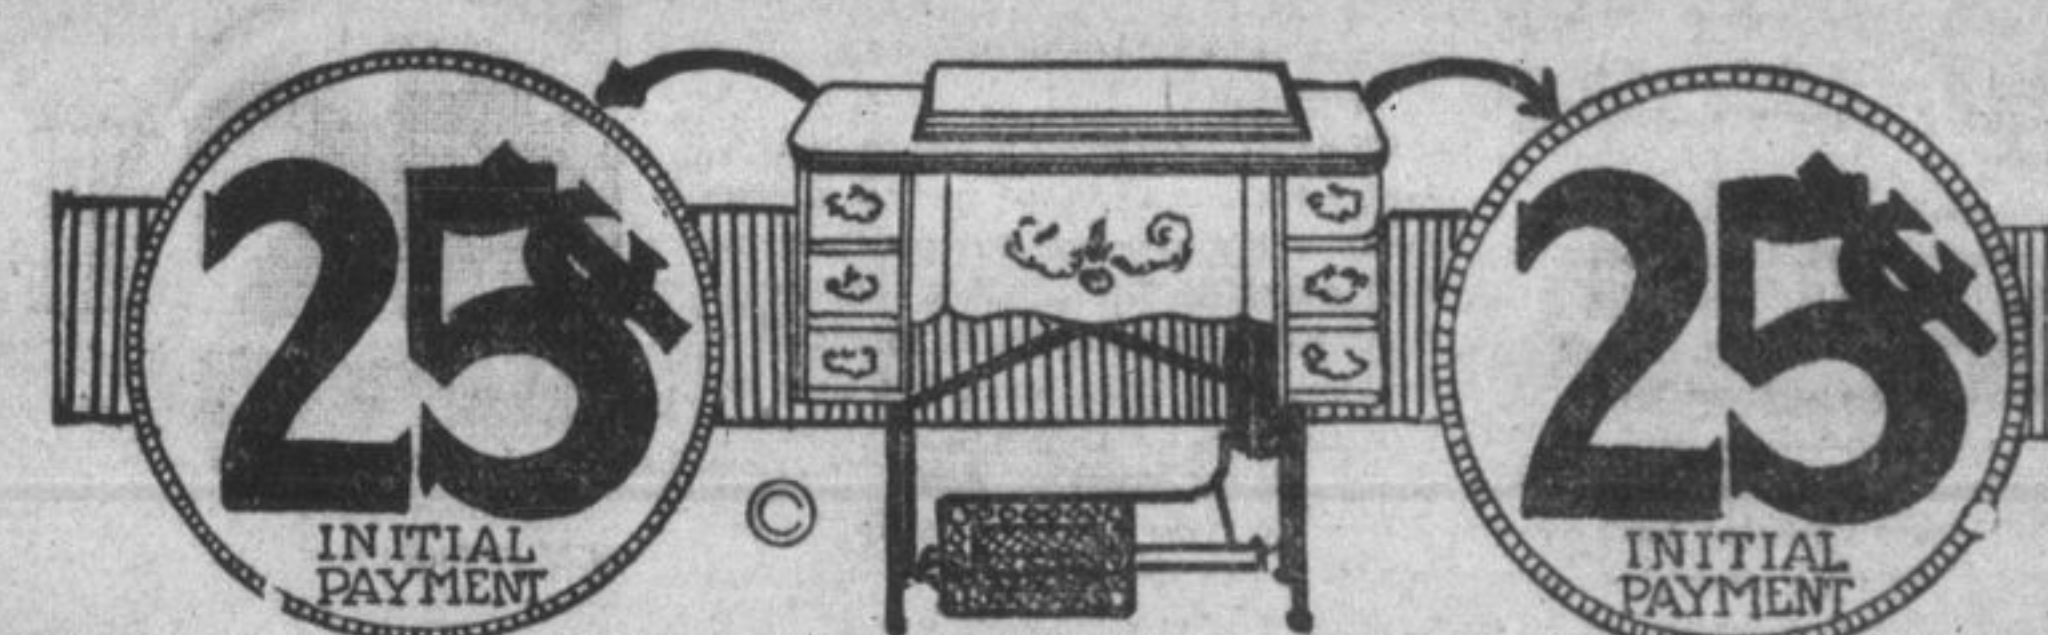

THE SUITS are most attractive, showing many stunning models for misses and matrons, in all the fashionable materials and colorings. Specially priced from \$18.50.

THE COATS are all swagger New York models in Tweeds, Coverts, Velour, Delhi and Serge—to be had in all the new shades. Priced from \$12.50.

THE MILLINERY is the largest, best assorted and most popular priced we have ever had the privilege of showing; with hats to suit every face, at prices that will make instant appeal.

We cordially invite your early inspection while stocks are at their best.

COMPENSATION GIVEN.

Germany Pays For Attack on Belgian Relief Steamer.

The Hague, March 12.—The Dutch Foreign Office announces that it has received compensation from Germany for damage to the property of the Belgian relief commission, resulting from a submarine attack on the Dutch steamer Rijndijk on April 7th, 1916.

The Rijndijk was beached after the attack, but her cargo was damaged by water. Germany apologized

to Holland for the attack in August, 1916, and last November it was announced at The Hague that she had paid compensation for damaging the Rijndijk.

Prohibition will overshadow all other issues in the New York Legislature this week. The proposal to ratify the prohibitory amendment to the federal constitution is on the calendar as a special order for today, when it is expected that the war strength of the opposing forces will be shown.

Record Price for Hogs.

Tronton, March 12.—David Scott & Sons shipped two decks of hogs from Belleville, paying for them the record price of \$10 per hundredweight. They also shipped one deck of veal calves, the price being 18c to 12c per pound.

Col. Edward Bruce Worthington, Sherbrooke, has been created a Companion of the Order of St. Michael and St. George.

A lot of times we take foolishness for forbearance.
