**Everyone Should Drink Hot Water in the Morning**

Wash away all the stomach, liver, and bowel poisons, before breakfast.

To feel your best day in and day out, to feel clean inside; no sour bile to coat your tongue and sicken your breath or dull your head, no constipation, bilious attacks, sick headache, colds, rheumatism or gassy, acid stomach, you must bathe the inside like you bathe outside. This is vastly more important, because the skin pores do not absorb impurities into the blood, while the bowel pores do, says a well-known physician. To keep these poisons and toxins well flushed from the stomach, liver, kidneys and bowels, drink before breakfast each day, a glass of hot water with a teaspoonful of limestone phosphate in it. This will cleanse, purify and freshen the entire alimentary tract, before putting more food into the stomach. Get a quarter pound of limestone phosphate from your pharmacist. It is inexpensive and almost tasteless. Drink phosphated hot water every morning to rid your system of these vile poisons and toxins; also to prevent their formation. As soap and hot water act on the skin, cleansing, sweetening and purifying, so limestone phosphate and hot water before breakfast, act on the stomach, liver, kidneys and bowels.

**J. LOCKIE WILSON'S VIEWS**

HE ADVOCATES THE STANDARD-IZING OF FARM IMPLEMENTS.

Says Union Government Presents Opportunity of Securing This Radical Reform, the Carrying Through of Which Would Save Money and Time for Farmer.

Resolution carried unani-mously by the big convention of agriculturists of Western Can-ada held recently in Winnipeg. That in consideration of the shortage of farm labor and the urgent necessity for increased production, the agriculturalists of Manitoba in con-vention, assembled, are of the opinion that the time has come when farm machinery should be standardized, particularly the breakable, wearable parts thereof, and that the Federal Government be asked to take immediate steps to bring to-gether representatives of the farm machinery manufacturers, and of Canada who, in co-operation with a committee of mechanical experts appointed by the Gov-ernment, would examine the various makes of farm imple-ments with a view to evolving the best possible standard types of labor-saving machines for use on Canadian farms, and that a copy of this resolution be forwarded to Sir Robert Bor-den, Prime Minister, and Hon. T. A. Crozer, Dominion Minister of Agriculture.

Mrs. Marshall Parrott, who has been ill for some time, was taken to the Kingston General Hospital last Tues-day. Mrs. Riley Lee, Toronto, is visiting her sister, Mrs. John Man-cur. James Ackerman, from Ernest-town Station, has moved his family into William Frink's cottage. Mr. and Mrs. Hill and family have moved from Marshall Babcock's farm, near Westbrook, to Mr. Barley's house recently vacated by A. Gordon's family.

John Walpole has moved into his new home recently purchased from Henry Hutchinson. William Martin has purchased the Donald Walker property on Main street. Mr. Weber, who has been spending some time with her mother, Mrs. T. J. Kelly, returned to Kingston last Thursday. John Mancur, who was taken ill at the home of his sister, Mrs. G. B. Joy, Napanee, was able to return home last Wednesday.

**Similar Reforms Accomplished.**

"You ask me why I say that such a reformation is possible?" said Mr. Wilson. "Such a reform might be im-possible under the party system of government, but to-day we have a Union Government in Ottawa. Under stress of war needs this government has already accomplished similar re-forms, one example of which is the compelling of the great milling in-terests to remodel their machinery so as to produce a standard grade of flour.

"My suggestion would be to have the federal government appoint a commission of mechanical experts to examine farm machinery such as biggers, mowers, seeders, cultivators, plows, etc., produced by the different manufacturers, and embody the best features of the comparatively few different makes in a standard design. The government might take over the patent rights cover the im-plement or differences and thus uniform implements and repairs would replace the many types of machines of slight-ly differing design now manufactured, but entail serious loss of time and money to the tiller of the soil, whose

**RUB ZAM-BUK WELL IN!**

The unusual penetrating power of Zam-Buk enables it to reach the seat of the trouble, ending the pain, removing the stiffness and reducing the swelling. At the same time Zam-Buk strengthens the tissues, making them better able to resist cold and dampness.

Miss Agnes Hall of Ranelagh, Ont., writes: "I had rheumatism in my hands so badly that at times I was unable to use them. They were badly swollen and ached terribly. A friend recommended Zam-Buk and I began rubbing it in regularly at nights. The pain was soon relieved, and perseverance resulted in a complete cure."

At the front, too, the men say there is nothing like Zam-Buk for rheumatism. Corp. J. C. Fremlin of the 16th Field Ambulance writes: "Zam-Buk is simply great for rheumatism. I wish we could get more of it."

**ZAM-BUK CURES ECZEMA**

For eczema Zam-Buk has no equal, as Mr. A. Josey of Spry Harbor, N.S., has proved. He writes: "For three years I suffered with eczema on my hands and the irritation was so bad that I could not sleep at nights. I tried many so-called 'cures' but got no better until I used Zam-Buk. This wonderful remedy has entirely rid me of the disease."

Zam-Buk is also the best remedy for old sores, blood-poisoning and piles, and as a first-aid for cuts, burns and scalds it is invaluable. 50c. per box, 3 for \$1.25. All dealers of Zam-Buk Co., Toronto. Send 1c. stamp (for postage) on one free trial box.

**GIRLS! MAKE LEMON LOTION TO WHITEN AND BEAUTIFY SKIN**

In all weathers the skin and complexion can be kept wonderfully clear, soft and white by the use of this inexpensive lemon lotion which any girl or woman can easily prepare.

The juice of two fresh lemons strained into a bottle containing three ounces of orchard white makes a whole quarter pint of the most remarkable skin beautifier at about the cost one must pay for a small jar of the ordinary cold creams. Care should be taken to strain the lemon juice through a fine cloth so no lemon pulp gets in, then this lotion will keep fresh for months. Every woman knows that lemon juice is used to bleach and remove such blemishes as freckles, sallowness and tan, and is the ideal skin softener, smoothen and beautifier.

Just try it! Get three ounces of orchard white at any pharmacy and make up a quarter pint of this sweetly fragrant lemon lotion. It naturally should help to soften, freshen, bleach and bring out the roses and hidden beauty of any skin. Those who will make it a habit to gently massage this lotion into the face, neck, arms and hands once or twice daily may be repaid with a skin that is flexible and young looking and a peach-like complexion.

"Would this interfere with inventive genius?" asked the reporter.

"On the contrary," said Mr. Wil-son, "the inventor could submit de-signs to the government experts and any improvements of real value would be purchased by the Government and the inventor would receive the proper reward for his genius."

**The SAFEST MATCHES in the WORLD**

Also the Cheapest! — are

**EDDY'S "SILENT 500'S"**

Safest because they are impregnated with a chemical solution which renders the stick "dead" immediately the match is extinguished—

Cheapest, because there are more perfect matches to the sized box than in any other box on the market.

For time economy and your own good sense, will urge the necessity of buying none but EDDY'S MATCHES.

**FORD Cars**

We aimed to give good advice in urging prospective Ford buyers to place their orders for cars before an advance, and will now venture to advise those who did not order to do so at once, as there is likely to be a scarcity of Ford cars, and an other advance is quite possible. The Ford factory at Detroit has been forced to reduce its production from 3,200 cars daily to 1,700, and the Canadian factory at Ford, Ont., is from 4,000 to 5,000 behind in their orders at the present time, and with no prospect in sight of catching up on account of the scarcity of materials.

The price is still very low for a real every day of the week car. Come in and pick out your car now while we have some in stock.
