better in every essential than any
other piano, the

has earned the title "World's Best Piano."
So marked is this superiority, so perfect its tone,
its action, and every detail of its construction,
that even the novice needs only to examine it
to be convinced that it has no equal. It has taken
65 years of continuous effort on the part of three
generations of Heintzmans
to attain for this piano its
proud position.

**KITCHENER'S CHANCES
OF WINNING POOR**

**Their Star Player Hillier Is Not
In Condition To
Play.**

(Canadian Press Despatch)
Toronto, March 14.—It is feared here that the chances of Kitchener, O.H.A. champions, successfully defending the Allan Cup, went glimmering to-day, when it was discovered that George Hillier, star of the team, was not in shape to play to-night. Hillier, it is reported, has a small bone broken in his right foot as the result of a slash from Boston's stick at the close of the game on Tuesday night. He may start to-night, but it is not considered likely.

As Kitchener has only one spare available, it may be necessary to play the game six men aside, instead of seven called for under the western rules. Winnipeg to-day are strong favorites, even without the handicap to Kitchener of Hillier being off. The odds in the betting were 2 to 1 in favor of the westerners.

Although the weather here is rainy and mild, the artificial ice in the Arena is said to be harder than on Tuesday. There will be a large crowd to see the game.

Eight hundred thousand men are to be called to the colors gradually during the present year, under the second United States army draft, which begins on March 29th.
