SLANG TERMS IN THE ARMY

By D. L. Berwick.

The following explanations of Army Slang have been compiled by D. L. Berwick for the benefit of new recruits about to enter the army and who will no doubt find these slangs amusing at the start:

Rookie (Recruit)—A member of the famous awkward squad. His rights are left to the judgment of a merciless instructor.

Hun—This does not only apply to the germ of the present war, but is also a nickname for rookies of the R.F.C.

Quarter Bloke (Quartermaster-sergeant)—The first obstacle for the rookie to overcome. A dealer in new and second-hand goods. Always anxious to dispose of second-hand stock first. Smokes good cigars and amenable to reason if well treated.

Hard Tack—A substitute used in the army for bread. Besides its sustaining qualities can be used as poker chips. If short of bombs at any time the hard tack is a deadly

Building-up for the Spring Attack at the Front is a good deal like putting the body in condition for an invasion of the terms of grip, pneumonia or "Spring fever" here at home.

At this time of the year most people suffer from a condition often called Spring Fever. They feel tired, worn out, before the day is half thru. They may have frequent headaches and sometimes "pimply" or pale skin and white lips. The reason for this is that during the wintertime, shut up within doors, eating too much meat and too little green vegetables, one heaps fuel into the system which is not burned up and the clinkers remain to poison the system—a clogging up of the circulation—with inactive liver and kidneys. Time to put your house in order. For an invigorating tonic which will clarify the blood, put new life in the body, sparkle to the eyes, and a wholesome skin, nothing does so well as a glyceric herb extract made from Golden Seal root, Blood and Stone root, Oregon grape root and Wild Cherry bark. This can be had in convenient, ready-to-use tablet form at all drug stores, fifty cents, and has been sold for the past fifty years as Dr. Pierce's Golden Medical Discovery. By reason of the nerves feeding on the blood, when the blood is pure the other nerve pains disappear because such pain is the cry of the starved nerves for food. When suffering from backache, frequent or scanty urine, rheumatic pains here or there, or that constant tired feeling, the simple way to overcome these disorders is merely to obtain Dr. Pierce's Anuric from your druggist. In tablets, fifty cents.

GEN. WOOD'S SON PRIVATE.

Too Young For Commission He Wanted to Fight.

Cambridge, Mass., March 21.—Otho I. Wood, son of Major-General Leonard Wood, yesterday enlisted as a private in the regular army and will report for duty at Fort Slocum, N.Y., Saturday morning. He is a sophomore at Harvard University and a captain in the Harvard regiment.

Because he is under twenty-one years of age he was unable to obtain admission to a reserve officers' training camp.

OVERWORK PARALYSIS

Doctors Said His Case Was Hopeless—Could Not Walk or Write—Speech Almost Gone—How Cure Was Effected.

St. Ann's, Ont., Mar. 21.—Paralysis is far more easily prevented than cured. For this reason it is only wise to be warned by sleeplessness, headache, nervous indigestion and neuralgic pains and begin reconstruction treatment before the nervous system becomes too far depleted.

This letter from Mr. Hyatt is quoted to prove to you that Dr. Chase's Nerve Food is effective even after paralysis has set in. It is not advisable, however, to neglect nervous disorders until such conditions are developed.

Mr. Avery Hyatt, blacksmith, St. Ann's, Lincoln County, Ont., writes: "I am a blacksmith by trade, and ten years ago became afflicted with paralysis. I could not walk or read or write, and could talk with difficulty, so that it was a hard matter to understand anything would say. Being only a young man, I was nearly discouraged. Two doctors told me it was brought on by overwork, and that my case was hopeless.

One day my father read about Dr. Chase's Nerve Food, and advised me to try it. I bought 12 boxes, and when the fifth was used I saw that I was getting better. By the time the 12 boxes were used I was cured. I am well and strong and working every day, thanks to Dr. Chase's Nerve Food."

This statement is certified to by Elmore J. Hodgins, J.P.

Dr. Chase's Nerve Food, 50 cents a box, a full treatment of 6 boxes for \$2.75, at all dealers, or Edmanson, Bates & Co., Limited, Toronto. Do not be talked into accepting substitute. Imitations only disappoint.

weapon, aimed accurately at any one's head.

Bully—Translated in English it means "good." This is also the name of a particular brand of canned cornbeet, manufactured by a well-known Chicago firm and served "occasionally" to the troops.

Dough—A necessity manufactured by bakery units and sometimes doled out by paymasters. You can always procure a good supply of this "gunk" from the bakers, but the paymaster is generally "short" and "needs" your sympathy.

Olio—A greasy substance which has lately been discovered to jeopardize the productions of our honest farmers.

Mulligan—Strictly Irish. Always in a stew. This very tasty dish can always be found on the menu at each meal.

One Star Wonder—A very much abused gentleman who endeavors to do his best. Very popular among the female sex and a keen supporter of the flapper's cause. Found in England "The Flappers' Delight."

Flapper—Owing to the scarcity of chickens this name has been used as a substitute. A very precocious little thing, always stepping outside the age limit.

Padre—A most genial person known as the spirit of our army. A dealer in good spirits. Otherwise called chaplain by some, with apologies to Charlie. This gentleman can always be identified by the double iron cross which he displays.

Sister—This term does not only apply to a blood relation, but also to an angel of mercy who bears cheerily the hardships of war. Sisters sometimes play very important roles in one's life.

Lear swinger—An artist. Not a soldier. A tester of medical faculties. To swing the lead is no crime, but failure is generally met with disastrous results.

Fags—A connecting link between a fool and a fire. A consoler to soldiers. A great nerve soother to soldiers, whose lives are filled with "butts."

Non-com—In the majority of cases "non comus mentis." "Nuff said."

Lance Jack—A private camouflaged.

"Arf a mo.—In other words "five American seconds, please." This slang originated among Costermongers and is very amusing when expressed by Mr. Thomas Atkins—be of the Yorkshire dialect.

The smoke—(London where the King lives). A small village very central to Canadian camps in England, and used by Colonial troops for recreation purposes.

French leave—Questionable if this did not originate in France. Most expensive form of leave.

Blighter or blunder—A gentleman of leisure. Known in Canada as a fast guy. Always upholding the reputation of "a fool and his money." Very popular among certain classes.

Blinkin—A qualifying adjective. For instance, one generally speaks of the blinkin sergeant-major.

Blighty—A small word—"the soldier's home, sweet home."

Jack Johnson—A large German shell. Like the great prize fighter, more sound than force at present.

Whizz bang—A small German shell responsible for Barringer's original saying, "Where did that one go to?"

Duds—Chiefly German ammunition.

Coal box—Another German shell. Like the average coal box of the present day, full of empty shells.

Archies—A new name given to our anti-aircraft (empty air crack) guns. Stand clear below, please.

Peace dove—The only animal that Noah forgot to mate in the ark. This specie being extinct now, we must carry on to a finish.

FOOD CAMPAIGN.

Over \$250,000 Will be Granted to Provincial Governments.

Ottawa, March 21.—More than a quarter of a million dollars will be furnished from the Dominion treasury to aid the provincial governments to carry on their part of the campaign for greater production of foodstuffs in Canada, Sir Robert Borden announced in the course of his address in the House of Commons.

The appropriation which has been promised by the Dominion Government, will be distributed as follows: To the Ontario Government, \$60,000; to Quebec, \$60,000; to Nova Scotia, \$30,000; to New Brunswick, \$15,000; to Prince Edward Island, \$5,000; to British Columbia, \$15,000; to Saskatchewan, \$35,000; to Alberta, \$25,000; Manitoba, \$25,000.

MERCHANT AND EXPLORER.

Denver Millionaire is Dead in South America.

Denver, Colo., March 21.—William Cook Daniels, of Denver, millionaire dry goods merchant, traveler and explorer, died in Buenos Aires, according to a cablegram received here. Mr. Daniels financed and headed an expedition into the wilds of New Guinea in 1904 under the direction of the Royal Geographical Society and Cambridge University. Mrs. Daniels is conducting, at her own expense, a hospital in Switzerland for interned British and French officers.

Poll as Big Vote as Men.

New York, March 21.—Women voted for the first time in elections held yesterday in many villages of this state. In several places they polled nearly as many votes as the men. A woman appeared among the contestants for office in Fort Plain, where Ann Waters, a Democrat, was elected tax collector. She was the only member of her party who blocked the Republicans from making a clean sweep.

In Hempstead women brought about the defeat of all the present officials.

Big Quantity of Explosives.

Paris, March 21.—An official communique regarding operations on the Macedonian front says: "Raids were carried out with success in the region of Seres and west of Presba Lake, where a French detachment surprised an enemy reconnoitering party and took prisoners. There was very great activity on the part of Allied aviators, who threw down more than 1,900 kilograms of explosives on enemy establishments in the Struma and Vardar valleys and near Resha, west of Monastir. Important results were observed."

London, March 21.—The House of Lords today passed on third reading the bill qualifying women to act as solicitors.

BEST LIVER AND BOWEL LAXATIVE FOR FAMILY USE

"Cascarets" Regulate Women, Men and Children Without Injury.

Take When Bilious, Headachy, For Colds, Bad Breath, Sour Stomach.

WORK WHILE YOU SLEEP

Instead of nasty, harsh pills, salts, castor oil or dangerous calomel, why don't you keep Cascarets handy in your home? Cascarets act on the liver and thirty feet of bowels so gently you don't realize you have taken a cathartic, but they act thoroughly and can be depended upon when a good liver and bowel cleansing is necessary—they move the bile and poison from the bowels without gripping and sweeten the stomach. You eat one or two at night like candy and you wake up feeling fine, the headache, biliousness, bad breath, coated tongue, sour stomach, constipation, or bad cold disappears. Mothers should give cross, sick, feverish or bilious children a whole Cascarets any time they are harmless and safe for the little folks.

MORE RESTRICTIONS DUE.

London Restaurants and Theatres, to Close Earlier.

London, March 21.—The proposal for the closing of eating and amusement places at 9.30 p.m. has not yet been definitely adopted. The Coal Controller was in conference yesterday with committees from the restaurant and amusement organizations on the subject. All the industries affected declare the plan will be ruinous to them, the music hall and restaurant proprietors especially expressing their opposition.

Every proposal for wartime restrictions has met the same sort of outcry when it was first broached, but it is pointed out that the disaster which the stockkeepers and various other businesses had predicted has not occurred as a result of the restriction upon their activities. At the latest scheme is adopted, London, it is believed, will accept it with the same spirit in which it has borne other infringements upon old customs during the war.

Safe Home Treatment For Objectionable Hairs

(Boudoir Secrets)

The electric needle is not required for the removal of hair or fuzz, for with the use of plain delatone, the most stubborn growth can be quickly banished. A paste is made with water and a little of the powder, then spread over the hairy surface. In about 2 minutes it is rubbed off and the skin washed. This simple treatment not only removes the hair, but leaves the skin free from blemish. Be sure you get genuine delatone.

That a shortage in Montreal milk supply may be expected in the summer, was the opinion expressed by W. F. Stephen, secretary of the Milk Shippers' Association, district of Montreal.

A Daylight Saving Bill along the lines of the bill presented last summer, was introduced by Sir George Foster, and read a first time. The first reading of the bill was seconded by Mr. Carvell.
