Military Service Act

Important Announcement to All EXEMPTED MEN and to the Public Generally

IN dealing with the very large number of claims for exemption brought forward for consideration in connection with Class 1 under the Military Service Act, it has occurred, as was inevitable, that as a result of false statements and difficulties put in the way of investigation, some individuals have secured exemption whose proper place is in the Army.

It is not the intention of the Government to allow these men to evade permanently their obligation to bear their part in the military defence of the Country and of the ideals for which we are fighting.

Exemptions Granted on False Grounds It is, therefore, proposed to scrutinize carefully all exemptions granted to date in order to separate those which have been granted on false or insufficient grounds from those that are well founded.

With this object in view the various Registrars under the Military Service Act have been instructed to issue a series of questionnaires to exempted men. These questionnaires must be filled up correctly and returned promptly under penalty of forfeiture of exemption for failure to do so.

Exempted Men Who Have Changed Address It is therefore important in their own interest that all exempted men who have changed their address since their exemption was granted and who have not already notified the Registrar of such change should notify him at once.

Citizens Urged to Assist In many instances information has been furnished by members of the public which has led to the cancellation of exemptions obtained by false or misleading statements.

Correspondence should be directed to Major H. P. Cooke, Deputy Registrar under the Military Service Act, Kingston, Ont.

CHARLES J. DOHERTY, Minister of Justice.
