Vocal Records that Stand TN the making of Pathe' Supreme I Vocal Records, by a recording process used only by Pathe',

every note, big or little, every delicate nuance, every breath, tone or expression of the artist is faithfully caught and inscribed.

The Pathe groove in which the minute sound waves are recorded is from two to four times as large as in any other record. This big groove enables Pathe' to get 40% more tone colors and detail. Compare these records with other makes in the same class. Study the detail, the tone quality, the true naturalness of the voice, the orchestral accompaniment, always in perfect sympathy, yet note how voice and instrument each stand out clear and distinct right through to the end. The satisfying completeness of a Pathe' vocal record leaves nothing to be

The Pathe' repertoire includes records by the foremost artists of the world, and will prove a revelation to the critical lover of the excep-

While to hear Pathe' records at their best, they should be played on the Pathephone, yet if you already have a machine of another make, any Pathe' agent can equip it to play Pathe' records-or, better still-will make you a liberal allowance for your machine in part payment of a Pathephone, which plays any record.

Send for Pathe Catalogue of Period Designs. The Pathe Freres Phonograph Co. of Canada, Limited 4.6.8 Clifford Street - Toronto, Ont.
