WOMAN WORKS 15 HOURS A DAY

Marvelous Story of Woman's Change from Weakness to Strength by Taking Druggist's Advice.

Peru, Ind.—"I suffered from a displacement with backache and dragging down pains so badly that at times I could not be on my feet and it did not seem as though I could stand it. I tried different medicines without any benefit and several doctors told me nothing would do me any good. My druggist told me of Lydia E. Pinkham's Vegetable Compound. I took it with the result that I am now well and strong. I get up in the morning at four o'clock and work all day, come home and get supper and feel good. I don't know how many of my friends I have told what Lydia E. Pinkham's Vegetable Compound has done for me."

SLASHING COMMENT ON C. L. REPINGTON

Must Put End to Campaign of Calumny by Unbridled Military Faction.

London, May 14.—The Observer to-day publishes an article by its editor, J. L. Garvin, calling upon the Prime Minister and Secretary of War Miller to take action to put an end to what Mr. Garvin calls "the whole campaign of calumny by the unbridled military faction, which has been agitating for seven months against closer unity of the Allies, and working immeasurable harm in the army abroad, in the nation at home, and above all, in America." "On the eve of the worst crisis of

the battle," continues Mr. Garvin, "when the utmost confidence should exist between the Government and the army, the whole nation is endangered by a demented and virulent clique, which sticks at nothing, which shrinks from no mischief that private passion can inflict on the public interests. It is necessary that what we have to say should be put before the Prime Minister, and especially before the War Minister, Lord Milner, in order that they may act."

Mr. Garvin writes: "General Maurice is a cipher. A source of far worse mischief is Col. Repington, working in ill-omened association both through the Morning Post and that dubious sheet, the Naturalized News. Since Col. Repington entered into this latter connection he has wholly ceased, so far as any trust in his discretion is concerned, for we impugne neither his morals nor his intentions—to be a situation requisite for Caesar's title."

How Can You Explain A Corn?

A corn is absolutely needless, and millions of people know it.

Fully half the people one meets nowadays never suffer corn aches.

How can you explain a trouble so easily avoided?

A corn means this:

You are treating it by paring, just to get brief relief. Or you coddle it by padding. Or you use some old-time, inefficient method of removal.

The proper way to deal with corns is this:

Apply a Blue-jay plaster, then forget the corn. It will never pain again.

In two days, usually, the whole corn disappears. If it doesn't, just apply another plaster.

No corn pains twice with people who use Blue-jay. And no corn stays.

The method is gentle, scientific, sure. It is easy and quick.

That is how millions keep free from corns. Let it keep you free. See how it acts tonight.

B&B Blue-jay For Corns

Stops Pain Instantly—Ends Corns Completely

Large Package 25c at Druggists Small Package Discontinued

BAUER & BLACK, Limited, Makers of Surgical Dressings, etc., Chicago, Toronto, New York

How Blue-jay Acts

A is a thin soft pad which stops the pain by relieving the pressure. B is the B&B wax, which gently undermines the corn. Usually it takes only 48 hours to end the corn completely. C is rubber adhesive which sticks without wetting. It wraps around the corn making the plaster snug and comfortable. Blue-jay is applied in a strip. After 48 hours, new corns are the corn. The action is gentle, and applied to the corn makes the corn disappear without surgery.
