# Baker's Cocoa

Pure Rich Delicious Wholesome

*A leading authority on cocoa says:*

"In order to have the cacao products most useful and to have the protein best appropriated, you must not take out too much fat. Hence, in my view, Baker's Cocoa (from which only the excess of oil is extracted) is an ideal food.

*Its Use Saves Other Foods*

### WAR SHALL FULFILL DREAM

SO SAYS HIS MAJESTY KING GEORGE.

U.S. and Britain Should Work Together Towards Ideals of Progress and Civilization.

London, May 17.—King George, in addressing the American Labor delegates, said: "You have had an opportunity for justifying the efforts we are putting forth at home in order adequately to meet all the demands of the various theatres of war. I hope these experiences will enable you to assure the people of the United States that we are doing and mean to continue to do, our utmost in this direction."

"Your delegation includes lady representatives, who, I trust, may be able to give a satisfactory report of the manner in which British women have come forward to replace men called from various national industries to the fighting ranks, and how efficiently they are carrying out the work entrusted them."

"It has always been my dream that the two great English-speaking nations, with their individual national characteristics, should work together in close and harmonious relations towards those ideals of progress and civilization common to both peoples."

"Fate has decided that the war should fulfil this dream. The two nations have made common cause in the defence of freedom and justice. In the future days of peace may they continue to stand side by side to attain the same ideals and aspirations."

"We wish you a safe and happy return home. Science is daily increasing the power of rapid transportation between our islands and the continent of America, thus facilitating the interchange of these visits, and so strengthening the ties of mutual understanding, confidence and good fellowship which, please God, may ever henceforth unite us."

E. O. McCormick, of San Francisco, replied briefly on behalf of the Americans, thanking his Majesty and expressing the pleasure the visit had afforded the delegates, and how they appreciated it.

Each member of the delegation was presented to King George and Queen Mary, as well as to Princess Mary, and nearly an hour was spent in informal conversation.

**EVOLVES A SUPER WHEAT.**

Can be Grown Anywhere and Yields Forty Bushels.

Santa Rosa, Calif., May 18.—A "super wheat," containing fourteen per cent. gluten, has been evolved by Luther Burbank, the California horticulturist, after experiments extending over eleven years. It was announced here to-day.

The wheat may be grown from Hudson Bay to Patagonia. The new wheat is said to be of the winter variety, hardy and producing a white flour. It will average a yield of 40 bushels to an acre, Mr. Burbank said.

**Quicksand.** Quicksand differs from beach and other sand in that the individual grains have become worn by water or wind until the normal facets and angles have been abraded and each grain has become more or less spherical. The coefficient of friction is thus reduced to the minimum and the bed does not pack when dry and when wet behaves like a fluid. The depth of quicksand is conditioned by the depth of the hardpan or other compact material upon which the sand rests.

**The Cabal.**

The term "cabal" as applied to secret factions of any kind had its rise in England about 1667, being first applied to the cabinet of Charles II, and formed from the initials of the cabinet members' names—Lord Clifford, Lord Ashley, the Duke of Buckingham, Lord Arlington and the Duke of Lauderdale—C. A. B. A. L.

Since that day it has been customary, in all English speaking lands at least, to apply the name to any secret conclave, especially in politics. — Westminster Gazette.

**Tail of the Ptarmigan.**

One of the most entertaining of chapters in natural history is that which relates to the many curious means that birds and certain animals possess of deceiving the eyes of their enemies. Attention may be called to the following remarkable instance:

When the ptarmigan puts on its winter dress it has a black tail. One might suppose that this would attract attention to the bird crouching on the snow, but, in fact, it serves for concealment. Every projection on a snow field casts a dark shadow, and that is what the tail of the motionless ptarmigan looks like, the body of the bird resembling a mere bump on the white background.—Exchange.

**Ich Dien or Eich Dym.**

Which is accurate as the motto of the Prince of Wales—Ich Dien or Eich Dym? The one is German and the other Welsh. The one means "I serve," the other "Behold the man" or "Behold your man."

"Ich Dien" was the motto of John, king of Bohemia, whom the Black Prince slew at Crecy. "Eich Dym" are the words supposed to have been used by Edward I. when presenting his infant son to the Welsh assembly at Carnarvon.

Welsh tradition has adhered naturally to the Welsh form. The other has been more popularly accepted.—London Lady's Pictorial.

**A Young Man's Ambition.**

"Dad, when I get home from this war I'm going to be a doctor. For my short calls I'm going to have a Ford and for my long ones I'll have an aeroplane," wrote a young man to his father in the city recently. The writer has been in the service for some time.

### ITALY IS WAITING.

Quite Confident—Germany Insisted on Austrian Offensive.

Rome, May 18.—The meeting of Kaiser Charles with the German Emperor continues to be the subject of much comment in diplomatic and political circles here. A senator, speaking on the matter, said: "It is quite evident that the Ger-

### Blood Poison Developed

As the Result of Accident—Nerves Break Down After Three Weeks of Suffering—A Glowing Tribute To Treatment Used.

Kingston, Ont., May 18.—Blood poisoning seems to become more common from year to year, and the dread of it is ever on the increase. In the case reported here the doctor did not seem able to get rid of it, and after three weeks of suffering the patient was almost a nervous wreck.

Mrs. Susie Thompson, Smith street, Kingston, Ont., writes:

"Early in the fall of 1916 I had a painful accident. I ran a silver under my thumb nail, and neglected having it extracted. My thumb fingered very badly, in fact my arm was fearfully swollen up to the elbow. It developed into blood poison, and I had the doctor lance it several times, but it failed to get better. With the intense pain and loss of sleep I became a nervous wreck. After following the doctor's orders for three weeks and not getting any benefit I wrote my mother about it. By return mail she sent me a box of Dr. Chase's Ointment. The very first application eased the pain and I slept that night quite easily. I kept using the Ointment regularly, and by the fifth day all the swelling was gone, and also the inflammation."

"During this time I had become so weakened and run down that my whole nervous system seemed affected. I was very nervous and restless, appetite became poor, and I had frequent headaches. I decided to try Dr. Chase's Nerve Food, and had the same splendid results from this as from the Ointment. Using the Nerve Food internally built up my system and made me strong, while using the Ointment externally healed my sore thumb. I am now quite well, thanks to your wonderful remedies—the only regret I have is that I did not begin using them earlier, and saved myself months of suffering, to say nothing of Doctors' bills."

Dr. Chase's Nerve Food, 50 cents a box, a full treatment of 6 boxes for \$2.75, at all dealers, or Edmanston, Bates & Co. Limited, Toronto. Do not be talked into accepting a substitute. Imitations only disappoint.

man Emperor insisted to Charles that the Austrian army must make a move and come soon into action against Italy. An offensive on our front, therefore, is daily expected. On what point we are not yet able to ascertain, but wherever it may happen, our soldiers are ready calmly and courageously to meet any eventuality."

### COUNTER THE GERMAN CONTROL OF RUSSIA

Ambassador to the New Republic Hopes Country Will Rejoin Allies.

London, May 17.—At a dinner at the British-Russian Club of London last night, the speakers urged the necessity of countering the efforts of Germany to gain ascendancy in Russia. Sir John Norton Griffiths said that the Government, in the work of reconstruction, should not forget to take advantage of the material Russia could place at the disposal of the British Empire.

Sir George Buchanan, late Ambassador to Russia, fervently hoped that Russia would arise out of the present chaos and become once more a great, united country allied to Great Britain.

"We must not despair," he said, "but look ahead and wait patiently for the hour of reaction. We must be prepared for that moment and hold out a helping hand to Russia. If Germany is permitted to control Russia's man-power, natural resources and unexplored wealth she would become mistress of the east, and, whatever conditions we might impose upon her in the west, she would have won the war."

### ITALY WANTS U.S. MEN

On Its Battlefield To Inspire the Nation.

Washington, May 18.—Italy, in an informal way, has made known to the United States that the presence of American troops on the Italian front is greatly to be desired.

A few thousand men under the American flag, Italian officials feel, would hearten the Italian civilian population and their troops.

Italy has an abundance of man power, but desires the inspiration that would be afforded by the presence of American forces.

### Girl Accidentally Shot.

Bellefonte, May 18.—A shooting occurred in Trenton. A number of young men were examining a revolver in front of a store when one of them, J. Vanvalkenburg, unaware that the revolver was loaded pulled the trigger, and the bullet struck Miss Flynn who was emerging from the store.

The bullet was imbedded in her leg above the knee, and was later extracted. No serious results are anticipated.

Barn and Silo Roofed with Brantford Asphalt Roofing.

## Resists Fire, Sheds Water, Wears Long

Flying sparks and embers from a burning building often cause roofs near by to catch fire, especially in a dry, hot season. Under like conditions, roofs covered with

# Brantford Asphalt Roofing

are in no danger from flying embers, because any that fall on Brantford Asphalt Roofing die out harmlessly. Build a bonfire on a roof of Brantford Asphalt Roofing and the fire will not spread and the boards underneath the roofing will be protected in a surprising manner.

If a fire starts in the interior of a building Brantford Asphalt Roofing acts as a retardant and keeps the fire from spreading. Fire chiefs and insurance companies endorse its use in the most congested cities.

Brantford Asphalt Roofing does not absorb water, but sheds the heaviest rain with ease. Acid proof and alkali proof. Reliable, durable, economical. Three weights—60 lb., 70 lb., 80 lb. per square.

**Brantford Rubber Roofing** is the same quality as Brantford Asphalt Roofing, but has a smooth, rubbery surface instead of the sand. It is particularly suitable for verandah decks and floor coverings. Three weights—40 lb., 50 lb., and 60 lb. per square.

**Standard Mohawk Roofing** is made of the same materials as Brantford Asphalt Roofing, but is lighter in weight. A thoroughly reliable roofing at a low price. Tested for years and has given entire satisfaction. Sanded on one side. One weight—40 lb. per square.

**Mohawk Rubber Roofing** The same quality as Standard Mohawk but with a smooth surface. Used for all classes of temporary work—sheds, bunk-houses, camp sites, even dugouts in the trenches. 35 lb., 45 lb., and 55 lb. weights.

**Leatheroid Roofing** Slightly lower quality than Mohawk Rubber. Used for same purposes. 35 lb., 45 lb., and 55 lb. weights.

Samples of any of these roofings and prices will be furnished on request.

Mrs. Rev. Dodge died on Tuesday at Bellingham, Wash. Deceased was born in Cape Vincent, N.Y., a daughter of the late John D. Clark. Carleton Place assessment is \$1,000.00 and the population is 2,222.

## Fashion Authorizes The Tailor-made Shoe for Women

DAME Fashion has decreed that the proper shoes this year are to be conservative in both patterns and colors. The fashionable leathers will be kid and calf—and black finished footwear will be worn more extensively than heretofore.

upon the manufacturers of shoes in that country to cooperate in the conservation of material, labor and money by the standardization of shoe styles as far as possible.

This does not mean that this year's shoes are less smart or attractive, because, as a matter of fact, they are not. They are simply without the former extremes in pattern and variety of color combination.

As a matter of fact, the new designs really have advantages in comfort and economy over the more exaggerated styles of former seasons—because, as they are on the whole some-

what plainer and sturdier, they are more substantial and will give longer wear.

In their capacity as shoemakers to the Canadian Nation, Ames Holden McCready are in a position to determine with some authority the movements affecting style changes. We maintain a most important department devoted to studying, analysing and determining shoe fashions. This fact, combined with the great experience we get in making a tremendous number of shoes in more than eight hundred styles, is your assurance that A. H. M. shoes represent the latest and most attractive fashions.

You will find our trademark, "A.H.M." stamped on the sole of every shoe we make. If you have been in the habit of buying our shoes, you already know that they represent splendid value. But in future—on your next shoes—look for the trademark on the soles
