UP THEIR PREMIES.

uspector Timmerman Reports That He Never Saw Backyards and Cellars in So Satisfactory a Condition, Ald H. W. Newman, chairman of the City Health Committee reports that the proclamation calling upon all citizens to make this week a special clean-up week about their premises. is being generally observed. Inspec-tor Timmerman made an inspection of the premises on Nelson, Collingwood, Albert and Frontenac streets and reported that he never found backyards and cellars in so satisfactory a condition as he found them this week. The garbage and refuse collecting system in Kingston is qual to, if not superior, in efficiency, to any city in the Dominion. In conequence, it is not necessary to adopt the special methods used in Water-

Cutworms. The 24th of May! One of

the gala days of the year, but in war time a day that many more Canadians than usual will devote to their gardens. For those who started work early some of the first young shoots may even now be appearing, while there are others who have just reached the stage of putting in their seed.

Early though the season is, the insect world is already "on the job." Cutworms destroy thousands of dollars' worth of vegetable crops every year. Gardeners must aid in the campaign to save the crops by destroying these pests. Watch for their appearance, as they are algeady at work. They cut arough the stems of the young ans and tomato plants at the ground line during the night and leave the young plant dying on the ground. Investigation in the loose soil will generally discover the miscreant a few inches away, half an inch or so below the surface. They can be killed wholesale by scattering along the rows poisoged balt made as follows: Bran, 20 lbs, cheap molasses, I quart, Paris Green or white arsenic half a pound; water from 3 to 2 16 gallons: Mix the bran and Paris Green, (or white arsenie) thoroughly in a wash tub while dry. Dissolve the molasses in the water and wet the bran and well so as to dampen the bran thoroughly. A formula for small gardens is: one quart of bran, one teaspoonful of Paris Green and one tablespoonful of molasses, with sufficient water to moisten the bran. Apply after sundown as soon as cut-worm injury is noticed. There is one objection to this mixture -it is poisonous to the birds.

town in employing extra wagons and carts for clean-up week. Watertown has a poor system inasmuch as the work is given out to private contrac-THE PROCLAMATION TO CLEAN tors and permits of secumulations which demand the extra effort employed to remove it.

> To give the citizens some idea of what, is being done at the incinator and dump alderman Newman states that during the last three weeks there have been 125 loads of ashes carted daily to the Bagot street dump; an average of seven loads waste paper daily to the incinnerator, Eighteen loads of garbege is daily burned in the incinerator, each load weighing on an average, 1280 pounds, pounds, making an aggregate daily total of 23,058 pounds. These are also collected by the city carts. Over and above this we have daily visits from the butchers, grocers, fruit stores and wholesalers rigs with refuse and garbage, which the incinerator burns.

The efficiency of our system keeps the city sanitary, and clean and beautiful. The City Health Cr.mmittee are grateful to the citizens in assist-

ing to clean the city up. Ald. H. W. Newman states that many citizens regulate their clocks by the visits of the garbage collec-
