Washing Won't Rid Head of Dandruff

The only sure way to get rid of dandruff is to dissolve it, then you destroy it entirely. To do this, get about four ounces of ordinary liquid arvon; apply it at night when retiring; use enough to moisten the scalp and rub it in gently with the finger tips.
Do this tonight and by morning most if not all of your dandruff will be gone, and three or four more applications will completely dissolve and entirely destroy every single sign and trace of it, no matter how much dandruff you may have.
You will find, too, that all itching and digging of the scalp will stop at once, and your hair will be fluffy, lustrous, glossy, silky and soft, and look and feel a hundred times better.
You can get liquid arvon at any drug store. It is inexpensive and never fails to do the work.

Tortured For Nearly Two Years

MRS. PLANTE FOUND RELIEF IN DODD'S KIDNEY PILLS

She Tells How They Helped Her Kidney Disease and Made a New Woman of Her.
St. Florence, Que., May 24.—(Special.)—Two Boxes of Dodd's Kidney Pills made a new person of me. The speaker is Madame M. L. Plante, of this place, and her numerous friends here fully verify her statement.
"For nearly two years," Mrs. Plante continues, "kidney disease tortured me. I heard of Dodd's Kidney Pills and made up my mind to try them, and to my surprise they did me good almost at once. Two boxes cured me completely. I recommend them to all my friends."
Mrs. Plante is only one of many who have had a similar experience. They were weak and run-down, and sick all over. Dodd's Kidney Pills helped them. How? Simply by curing the kidneys. The diseased kidneys were the cause of all the trouble. They were failing to strain the impurities out of the blood, and the result was disease all over the body. Dodd's Kidney Pills helped the kidneys, the impurities were strained out of the blood. The result was pure blood and good health all over the body. The cause of the disease had been removed.
