

SUFFERED TERRIBLY WITH HER HEART WOULD WAKE UP SMOTHERING

The terrible smothering and choking up sensations and sinking spells, the feelings of dizziness and faintness that come over those whose heart and nerves are deranged causes the greatest distress of both mind and body.

Milburn's Heart and Nerve Pills give prompt relief and effect a complete cure in cases of such severity. Mrs. A. M. Powell, Norval Station, Ont., writes: "I cannot speak too highly of Milburn's Heart and Nerve Pills. I suffered five years with my heart and nerves, but the last two years I have suffered terribly. If I went to bed I would wake up as if I were smothering. I did not get one night's sleep out of seven. I got so very weak that the doctor was called in, and he said it was my heart, and that I must take great care of myself. I saw your advertisement in your almanac for Milburn's Heart and Nerve Pills, and said I would try them. I have only taken two boxes of them and I feel a new woman. I will recommend them to anyone afflicted with heart trouble."

Milburn's Heart and Nerve Pills are 50c a box at all dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

Miss Jean Wainor, Barrie, is the guest of her sister, Mrs. Horace Lawson, at the Royal Military College. Sergt. Alan Campbell, Montreal, spent the week-end with Mrs. H. R. Duff, Princess street.

WAS ON VERGE OF GIVING UP HIS JOB

Health Broken When He Began Taking Tanlac—Now Works Every Day.

"My health was so broken down that I was just on the point of giving up my job when I got hold of Tanlac, and it fixed me up all right after everything else had failed to do me any good," said Malcolm W. Yeo, of 120 Logan avenue, Toronto the other day.

Mr. Yeo formerly lived at Hamilton where he is well known, but is now employed by the William Davies Company at Toronto.

"About five years ago," he continued, "my stomach got all out of order, and I began to suffer terribly with indigestion. My appetite failed, and I never enjoyed a thing I would eat, what little I forced down soured on my stomach, and filled me up with gas till I could hardly breathe. I suffered from awful griping pains in my stomach and a sour bitterish water would rise up in my mouth and almost sicken me. Any kind of rich food like pork or pastry, would simply tear me all to pieces and I just had to stop eating anything of the kind. My food gave me no nourishment at all and I fell off in weight, and became so weak and miserable that I could hardly keep up with my work and saw that if I didn't get relief soon I was headed for a breakdown."

"All these years I was trying one thing after another in my efforts to find something that would help me, but without success, for I kept getting worse in spite of everything. When people began talking so much about Tanlac I decided to try it, and positively, I never have found anything to do me so much good. I have taken about five bottles now and I can eat most anything I want, fresh pork and pastry of all kinds, and nothing gives me a bit of trouble. That awful pain in my stomach is all gone, and I never have sourness or gas trouble any more. My food is nourishing me now, and I am stronger and better in every way than I have been in years. That tired worn out feeling has passed away and I haven't lost a single day from work since I started on Tanlac. Anybody who has suffered like I have knows how to appreciate a medicine that does the work like Tanlac and I am glad to give it my endorsement."

Tanlac is sold in Kingston by A. P. Clowen, in Plevea by Gilbert Oustler, in Batterssea by C. S. Clark, in Fernleigh by Ervin Martin, in Ardoch by M. J. Scullion, in Sharbot Lake by W. Y. Cannon.

The Telephone in England.

Montreal Herald.

In England, where the telephone system is owned by the Government and operated under the direction of the Post Office Department, some regulations are in force which are to Canadians sound extraordinary. For example, we read in the latest issue of a Government telephone directory (provincial edition):

"Payment of Subscriptions.—The subscription becomes due on the date of completion of the installation and is payable annually in advance."

"Long Distance Calls.—As soon as there is a reply from the distant subscriber the telephone call is timed to commence. When a period of three minutes has expired the telephonist (operator) will enter the circuit and 'Your time is up; will you have another three minutes?' If a reply in the affirmative is given the connections will be maintained for a second period of three minutes, at the end of which—no further extension of time being permitted under the regulations without booking another call—the telephonist (operator) will say 'Your six minutes is up. Shall I book you another call?'"

"Deposit for Trunk and Postal Facilities.—A subscriber desiring to make regular use of the trunk (telephone) telegram or express letter services is required to deposit such sum of money as will cover the maximum credit given."

"Fire Insurance of Instruments.—Subscribers are responsible for the value of any instrument destroyed by fire, and they are therefore recommended to cover their liability by insuring each instrument for at least five pounds. The sum mentioned does not include the cost of any switchboard which may have been installed on the subscriber's premises, but particulars of such cost can be obtained on application."

"Special Surcharges.—In case of new exchange lines, external extension lines or private wires, a special surcharge is payable before the work is put in hand. The minimum surcharge is \$4 and it is payable in respect of the first year only."

The standard charge for moving a telephone to a building in another block is 40 shillings.

Her Family.

The vicar visited a parishioner, a widow 75 years of age, who had ten children, all of whom had one daughter, had married and left her.

Now this daughter also was about to be married. The old lady would then be left quite alone, and the clergyman endeavored to sympathize with her.

"Well, Mrs. Higgins," he said, "you must feel lonely now, after having had so large a family."

"Yes, sir," she said, "I do feel it lonesome. I've brought up a long family, and here I am living alone. An' I misses 'em an' I wants 'em; but I misses 'em more than I wants 'em."

Long range bombardment of Paris began again early on Wednesday morning.

Shots fail to hit Our, Who Escapes From Officer.

Lindsay, May 29.—Military policemen, Sergts. Bethune and Colquhoun, have had thrilling experiences looking up deserters here. One was chased from under a barn and another was found in a hay loft. A third, a young man called Jewell, was found hidden in a clothes closet.

When arrested he requested to be allowed to walk down with the officers, without being handcuffed. On reaching outside he made a dash for liberty and, falling to halt when given the command, the sergeant shot three times at him without effect.

Later on the same evening Mrs. Jewell, mother of the lad, assaulted Sergt. Bethune with her umbrella. Later the young man gave himself up and was taken to Kingston.
