Famous Artists on Pathe Records

HERE are very few of the world's celebrated artists who, at one time or another in their career have not made a little journey to the re-cording laboratories of Pathe' Freres Phonograph Co. to lay their offerings of song and music in the lap a far of wider public than they can reach on opera and concert stages.

Among the present day celebrities who have made records for Pathe'-most of them exclusively-are:

Lucien Muratore Claudia Muzio Adamo Didur Kathleen Howard Edmond Clement Jacques Thibaud Rudolf Ganz Lina Cavalieri Paul Althouse Eleanora de Cisneros Margarethe Ober Leo Slezak A. Giorgini Anna Fitziu

David Bispham

and many others.

During the 20 odd years of its existence the Pathe' Company has been distinguished more than any other talking machine concern by the number of famous musicians who have selected them to perpetuate for all time their art and genius. Great artists have found that only with the exclusive and secret Pathe' method of recording can the full, rich, natural, vibrant tones of the human voice be reproduced.

In addition to the voluminous American catalogue, Pathe has an enormous repertoire of European selections, made by artists of the front rank who have never appeared here. If you are interested in the unusual in music, write for this special catalogue. It will be sent free upon request.
