

IS NOW ABLE TO STRAIGHTEN UP

Had Rheumatism So Bad Was Nearly Helpless—Tanlac Overcomes Trouble.

"If you had seen me playing football yesterday with the rest of the boys you'd never have thought I was the same chap that a few weeks ago was so crippled with rheumatism that I couldn't straighten up," said James M. Norman, of 467 Willard Ave., Toronto, in telling the other day of his remarkable restoration through the use of Tanlac. Mr. Norman is an expert machinist, holding a responsible position with the John Inglis Co., Ltd., and before coming to Toronto he was for ten years foreman at the Canadian Steel Foundries, Ltd., of Montreal.

"During the past few years," he continued, "I had numerous attacks of rheumatism, and it was so bad that I was obliged to give up my old position that I had held for ten years. A little over a year ago I had an acute attack that laid me up for three solid months, when I was totally unable to put on my clothes. It was all drawn over like a very old man and if I tried to straighten up or bend way over to tie my shoe I felt just like a sharp knife was sticking in my back. Many a time after going to bed I would suffer such agony that I was unable to get a minute's rest all night long.

"It is utterly impossible for me to describe all the misery I suffered during these three years, and although I tried all kinds of medicines, and was treated by specialists, and had my back massaged time and again, I could get no relief. When I began to read the statements about Tanlac made by so many reliable people I decided to try it, too, though I had little hope that it would benefit me any. Well, sir, by the time I had finished taking my second bottle I could see a decided improvement. I have been taking Tanlac now for some time, and firmly believe that it is the only thing that has kept me on the job. I never have a bit of trouble with my back, the pain and stiffness are completely gone, I never notice any twinges of rheumatism and feel just as supple as I ever was. It is no trouble for me to bend at my work, and my back is as straight as anybody's. I feel just splendid in every way and can hold up my end of the game when out playing or tussling with the boys. Tanlac has done me more good than all the other medicines I have ever taken put together, and I can't say too much in its praise."

Tanlac is sold in Kingston by A. P. Chown, in Peterborough by Gilbert Ostler, in Batterssea by C. S. Clark, in Fernleigh by Ervin Martin, in Ardloch by M. J. Scullion, in Sharbot Lake by W. Y. Cannon.

Killed in Action.

Brockville, May 31.—Yesterday Mrs. Lionel Laub, Church street, received the sad intelligence that her youngest brother, Pte. Norman Foster, of the West Lancashire Field Ambulance Corps, had been killed in action on April 27th. The young soldier, in his twenty-second year, enlisted the day England declared war on Germany and passed through almost four years of warfare before receiving a wound, his first one proving fatal. He was one of six brothers who enlisted.

A DEMAND FOR FURS.

No Evidence of Money Shortage in Number of Orders.

For reasons not exactly apparent, the centre of the fur trade in the United States is in St. Louis, Mo. and so far as one can determine by the prices, it was never more prosperous. Buyers from all over the country were present recently at an auction, and the prices ran from 10 to 20 per cent. above those of January, while the dealers agreed that the figures have not as yet reached the high-water mark.

The sales amounted to \$6,000,000 in round numbers, and nothing indicated that the buyers lagged at the close, but rather that they were ready for more. One dealer declared that when furs are cheap women do not care for them, but when they rise in price they are at once demanded, a circumstance which, according to his view, indicated a continued demand. Without looking into the future it is evident that the figures now do not indicate a scarcity of money or that the pinch of poverty is being felt. If high-priced furs find a ready sale the fact may serve to show that as a nation the United States still lacks something of being poor.—Hartford Courant.

Krupps Buy Newspapers.

Confirmation of a despatch from France received in Washington reporting that a German syndicate had obtained control of the leading newspapers in Bohemia, is found in German and Austrian Socialist papers, which say that the Krupps and their fellow war-mongers of the German steel and iron industry, not satisfied with bringing important newspapers in Germany within their sphere of influence, are now buying up Austrian papers.

The Vienna Fremdenblatt and three of its subsidiary sheets have been acquired, and conquests in the provinces, especially in Prague, are now projected. The Arbeiter-Zeitung, the Vienna Socialist organ, says:

"The policy of all these papers, so far as war or peace is concerned, is henceforth to be directed from Germany."

Dying on the Other Side.

Colfax, New York. A snappy response to a somewhat hackneyed question was given by a big Oregonian recruit in a training camp.

A civilian visitor asked him, "And are you willing to die for your country?" "I am not," was the quick response; "I want to make some German die for his."
