## CHILD WELFARE STATION INCIDENTS OF THE DAY

TO BE OPENED IN KINGSTON ABOUT JUNE 15TH.

Mrs. Frances Robinson to be in charge—The Creche Building Will Be Used For the Work.

Mrs. Frances Robinson, R.N., assistant nurse for the local branch of the Victorian Order of Nurses, left on Monday for Toronto to attend the annual conference of the graduate nurses of Canada. At the close of the meeting Mrs. Robinson will remain in Toronto to study in detail the process of baby and child welfare work as it is carried on in the various Toronto centres.

On or about June 15th the Kingston Branch of the Victorian Order will open a child welfare station in this city for the conservation of baby and child life and the prevention of preventable illness among children.

With the best of intentions and the greatest desire to keep their babies well, mothers often do the things best suited to making them ill. This can and shall be prevented if mothers take advantage of the splendid work the Victorian Order expect to do here in Kingston.

On April 20th, this splendid organization, which for twenty-one years has done untold good in this community, held a "Tag Day." The proceeds amounted to \$1,150, and a generous citizen added to this a cheque for \$800 to enable the committee to expand into the special line of preventive work so long cherished by the local committee, and which is now so close to realization.

The building, known as the "Creche" or "Day Nursery" at Barrie and Ordnance streets, will be used for the opening of this work and Mrs. Robinson will be in charge.

Kingston is especially fortunate in having a woman with the ability and personal characteristics so well suited to fill this important position as Mrs. Frances Robinson possesses. She has assisted on the Victorian Order Nursing District for eight years and is known and everywhere loved for her large sympathies and untiring zeal for the welfare of the poor and suffering. If mothers fail to visit the welfare centre for advice and instruction, and fail to bring their babies for the keen eye of the nurse to detect danger, the crime of neglect will be theirs' only.

The Welfare Centre will be open daily from two to five o'clock in the afternoon, and the exact date will be announced later. It is also hoped to supply properly sterilized milk for bottle infants as the work develops and the mothers show a desire to cooperate with this great work.

Save the babies. They are the future nation. They must be given a chance to be "physically fit."

SHIP WORKMEN PUNISHED  
For Taking Holiday Monday and Breaking Agreement.

Between seventy-five and one hundred employees of the Collingwood Shipbuilding Company who went down to work on Tuesday morning were informed that as they had taken the King's birthday as a holiday, they could take Tuesday without pay.

At the plant it was stated that a written agreement had been drawn up between the company and the men in which it was agreed that Victoria Day was to be observed as a holiday, while work was to be done on the King's birthday. Instead of this many of the men took both days as holidays, and as a result much inconvenience resulted to the company.

Mr. Ryan secured the following numbers of autos for breaking the by-laws on Friday, Saturday and Sunday last, but there were a few he was unable to get, he points out, owing to their speed: 2523, 2964, 9180, 91001, 86129, 89377, 91480, 14749, 16685, 89608, 91352, 91662, 91634.
