the new generation that will be blessed, for it will not know liquor.

POLICE POINTERS.

Fines are still going to the Ontario Government that the city treasury might just as well get. Why cannot the police department get after all the liquor law violators?

Two cases that the police did work up recently turned out very unfortunate for the city treasury. One culprit was fined \$1,000 and another \$600, both prohibitive amounts.

INVADING THE ST. LAWRENCE.

Residents along the shores of the St. Lawrence, in the vicinity of the Thousand Islands, have this spring, for the first time within the recollection of the oldest inhabitant, caught specimens of carp in those waters.

The carp is a fresh-water fish, having a compressed body, long dorsal fin with a strong spine, short anal fin, and large scales.

It loves to nose around in the mud and slime of shallow and stagnant water. Its mouth closely resembles that of the sucker, so well known to every fresh-water fisherman.

CONSCRIPTION AND THE FARM.

The military conscription act was designed to raise, as reinforcements for the Canadian army in the field, a total of 100,000 men.

LIQUOR REFLECTIONS.

The people will not vote whiskey back again. "King Alcohol" cannot "come back" as athletes sometimes do. The knockout blow has been administered.

detailed at Harrisfield Camp, to investigate claims for exemption and to take evidence under oath. In deserving cases, exemption will no doubt be granted.

THE FOOD REGULATIONS.

Are the residents of Kingston living up to the diet regulations of the Canada Food Board? This is a very important question which every one conscious of his or her duty must consider each day.

COURTROOM.

The war is to be won only by the unselfish, uncompromising and undoubting efforts of the three great nations now fighting upon the western front.

Rippling Rhymes

THE WOODS FULL

If there's a neighbor you dislike, don't let him make you sore; don't think of him while you hike to do the useful chore.

THINGS THAT NEVER HAPPEN

not included in the contract the company's manager stated that within one week he would supply the public with halibut at ten cents per pound.

PUBLIC OPINION

The Odorous Stogie.

Save the poor man's smoke, the nickel cigar, from excessive taxation, the dealers demand. If some of the stogies were taxed high enough to prohibit their use, the public would be grateful.

Miller's Profits.

The millers' complaint that the report of the Labor Department on their war profits, singles them out for special condemnation, while other people making even larger profits are passed over.

The People Know.

(St. Thomas Journal) S. R. Parsons, president of the Canadian Manufacturers' Association, announces that that body will "make a big stand on the protection issue" at their coming convention.

GERMANS APOLOGIZE FOR THEIR FAILURE

Say That A Decision Can Be Procured Only Comparatively Slowly.

Amsterdam, June 8.—The Berlin Vossische Zeitung's military correspondent in an article on the offensive on the western front says:

"It should be emphasized repeatedly, in view of exaggerated hopes, that a decision can be procured only comparatively slowly.

The foe is enabled to organize his resistance owing to his brilliantly constructed railway system.

The German supreme command cannot well proceed now against the newly consolidated French front, which is richly provided with reserves, and bear the great losses which experience shows are entailed by such operations."

A French armed merchant ship which came into port Friday reported an encounter with a submarine off the Virginia Capes.

Autro-German troops have been reported in far-eastern Siberia. There is a possibility of Japan taking possession of the island.
