HEALTH OF THE SCHOLARS

CALLS FOR EXPENDITURE OF \$10,000 AT CENTRAL SCHOOL.

Board of Education Will Ask Civic Finance Committee For Money to Put Two Basement Rooms in Fit Condition for the Pupils.

The Board of Education met on Thursday night, and passed quite a large slate of business, and adjourned for the summer holidays, which means there will be no meetings during July and August unless at the call of the chairman.

The Board took action in a most important matter, that of placing the rooms in the basement of Central school in a better condition from a sanitary standpoint, and also to better the lavatory conditions. The matter has been much discussed from time to time, and the Board feels that in the interests of the health of the children, which is always the first matter to receive the attention of the trustees, that there is need for an expenditure of money.

For this reason it was decided, on motion of Trustees Macnee and Anglin, that the Board approve of an expenditure not exceeding \$16,000 for the necessary lavatory and sanitary improvements in the two rooms of the basement of Central school, and that the management committee be instructed to wait on the finance committee of the City Council and ask for the amount of money mentioned to meet the expense. In the meantime the property committee will secure all the necessary information for the management committee to present to the civic finance committee. All the schools are at present filled, and it is a case of making the present accommodation fill the bill, but it looks as if Kingston will very soon have to have another new school.

On the recommendation of the property committee, tenders for work on repairs to Central school building, recently damaged by fire, were accepted as follows: the total expenditure being \$2,119: Carpenter work, Mr. Bullness, \$790; tin-smithing, Elliott Bros., \$565; painting, Savage & Co., \$764.

These recommendations of the property committee were also adopted. That the resignation of S. H. Wilson, caretaker of Victoria school, be accepted, and that Thomas Bonner be appointed at a salary of \$1,000 a year, the same as was received by his predecessor. That your committee be authorized to purchase a supply of fuel for the coming season whenever a favorable opportunity occurs.

Discussion Over Account.

There was some discussion over an account passed on the recommendation of the finance committee for the sum of \$185.95 to George A. Payne. The money was paid for shingling the house of the caretaker of the Collegiate Institute. Trustee Lemmon started the discussion. He said he did not want to object to the account itself, but he regarded this as an easy way of letting out work, and thought that the Board should call for tenders for any special work of this kind. He advocated an amendment in the by-laws calling for such work to be done by tender.

Trustee Godwin said that any job over \$25 should be by tender. He thought this would be the best way, as otherwise it might be taking too much money out of the Board.

Trustee Anglin pointed out that Mr. Payne had been doing repair work around the schools for the Board for years, and the property committee in getting him to do this work had just been following out the custom pursued for many years.

Trustee Craig said Mr. Payne's work had always been most satisfactory. Trustee Mills said he agreed with what Trustee Lemmon had said. If it was deemed necessary, he would be agreeable to have tenders asked for. However, in this case the Board could ask to see an itemized account, and if the charge was an excessive one, and further, the matter was brought to the attention of Mr. Payne he felt sure he would make it all right. At the same time he felt it would be a good move for the Board to have a motion calling for work to cost over a certain amount to be done by tender.

Later on Trustee Mills gave notice of motion that in future "tenders be asked for on any special work calling for an expenditure of more than \$50."

Trustee Anglin remarked that he would be opposed to any such motion. He said at the least the amount should be placed at \$100. He would not want to be chairman of a committee and limited to \$50. In these days of high prices \$50 would not go very far with a committee on any piece of work.

Money For Red Cross.

The children in the schools are certainly doing their "bit" in the way of helping on the work of the Red Cross Society. Every month Secretary Macdonald has a most encouraging report to make concerning the work the scholars are doing. He reported Thursday night that during May the pupils in the public schools contributed \$170.11 for Red Cross purposes.

On motion of Trustees Macnee and Mills it was decided that the Board would adjourn for the months of July and August. If a special meeting is necessary, it will be called by the chairman.

On motion of Trustees Mills and Macdonald the purchase of arts supplies and supplementary reading books was left with the management committee, with power to act.

Trustee Macdonald reported for the playgrounds committee, stating that already three pieces of apparatus had been ordered, at a cost of \$217, and the board ratified the action of the committee, and at the same time the chairman took occasion to congratulate Trustee Macdonald for the interest he had taken in this matter.

On motion of Trustees Craig and Anglin, it was decided to recommend to the Department of Education the advisability of appointing a sanitary expert to make an inspection of schools in the various localities.

The board received a letter from Dr. Bruce Taylor, principal of

Queen's University, in appreciation of the resolution of thanks extended to him by the board in the offering of prizes in the recent general knowledge test. Dr. Taylor said he intended to conduct a similar examination again next year.

A letter was received from Mrs. Robert Meek in appreciation of the board's resolution of sympathy in her recent bereavement.

City Clerk Sands notified the board that J. B. Cooke had been appointed a member of the board, to fill the vacancy caused by the death of Robert Meek.

Health of the Children.

Miss Jean McCallum, school nurse, made some important recommendations in her report. She submitted a report on the convention she recently attended in Toronto, at which the great need of nurses in the rural districts as well as in the cities, was pointed out. She referred to the good brought about by open air classrooms, and asked that the board, when it had under consideration the erection of a new school, make provision for an open air classroom.

Miss McCallum also pointed out that the time was not far distant when the board would be called upon to provide dental treatment for children who could not secure it. She also asked that the sanitary condition of the two rooms in the basement of Central school be given consideration.

The chairman referred to the matter of dental treatment for the children, and gave it his opinion, that the time had arrived for the board to provide free dental clinics. He thought that some arrangements might be made with the Kingston Dental Association along these lines. He suggested that the management committee look into the matter, and the chairman of this committee, Trustee Mills, stated that he regarded it as most important, and that his committee would take it up.

Other Reports.

Inspector J. Russel Stuart submitted his report on the school attendance for May, which showed the following: Grade classes, enrollment, 2,471; average attendance, 2,333; kindergartens, enrollment, 227; average, 168; Orphans' Home, enrollment, 36; average, 35.

The report of Principal E. O. Sliiter on the attendance at the Collegiate Institute for May, showed the following: Enrollment, 414; average attendance, 354.

The chairman, J. M. Farrell, presided at the meeting, and also present were Trustees Anglin, Bateman, Campbell, Craig, Godwin, Lemmon, Macdonald, Macnee, Metcalfe, Minnes, Monk, Mills, McLean and Sawyer.

Married in Canterbury, N.B.

The marriage was solemnized, on June 11th, at Canterbury, N.B., of Helena H. Hobbs, youngest daughter of Archibald Hattan, Pembroke street, to William Graham, of Van Buren, Me. Mrs. Hattan is a former Kingston young lady, but has resided for the past few years in Ottawa and Toronto, where she has many friends, whose kind wishes will follow her to her new home. Mrs. Hattan is a sister to Mrs. E. Kane and Mrs. Ralph Adsit, of this city.

KINGSTON EVENTS

25 YEARS AGO.

Owing to the late season, the spring wheat will not be a good crop. Fall wheat, oats and barley will turn out well.

The Kingston Cantons trip to Oswego was a most successful one. Bananas are plentiful at 30c per dozen.

Palpitation of the Heart and Nerve Troubles

WERE CURED BY

Milburn's Heart and Nerve Pills.

When the heart begins to beat irregularly or intermittently, palpitate and throb, skip beats, beat fast or a time, then so slow as to seem almost to stop, it causes great anxiety and alarm and the least excitement or exertion seems to affect it.

Many people are kept in a state of mild fear of death, become weak, worn and miserable through this unnatural action of the heart.

To all sufferers from heart troubles we would advise the use of Milburn's Heart and Nerve Pills, which by their action in strengthening the heart, regulating the beat, remove all the distressing conditions, and impart vigor and vitality to the system.

Mrs. Thomas Davidson, Mount Brydges, Ont., writes: "I have been a great sufferer in the past with nerve troubles and palpitation of the heart. I tried several remedies, but without any good results. My son came in one day and advised me to take Milburn's Heart and Nerve Pills. After using one and a half boxes, I am fully recovered, and am in a perfect state of health, thanks to your valuable medicine."

Price 50c a box at all dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

Everything for the Shaver

Soaps, brushes, creams and talcums.
