

NEW HARNESS STORE

We are now open for business, carrying a choice stock of Harness, Trunks, Valises, Brushes, Blankets, Whips, Etc. Also Automobile Tires. Repair work promptly attended to. Your patronage solicited.

H. Swaffield 76 Brock Street.

Prescription Service

At Best's stores is second to none. That it is appreciated is amply proven by the number of doctors who send their prescriptions here and by the hundreds of satisfied customers.

Both at the main store and at the Branch a qualified druggist is always on the job, waiting to compound medicine which may mean life or death. This service means long, weary hours and careful, trying watchfulness, and it is really up to you to take advantage of it and take all your doctors' orders to "Best's."

The "Best" Drug Stores

Open Sundays. 121 Princess St. Branch: 414 Princess St.

St. Peter's church, Brockville, was the scene of a pretty wedding on Wednesday, when Miss Laura Isabella Curry, eldest daughter of Frederick Richard Curry, was united in marriage to Thorfinson Brown, B.Sc., son of Mrs. Gerald Brown, Claresholm, Alta.

We still have a few pair of odd sizes at \$4.98.

Jack Johnston's Shoe Store 70 Brock Street

C.P.R. ENGINEER TELLS OF TROUBLE

Tried Four Years to Find Right Medicine—Tanlac Ends Troubles.

"After trying for years to find something to relieve my awful condition, a few bottles of Tanlac soon fixed me up all right and I haven't had a bit of trouble since," declared William McIntosh, of 2019-A, Dundas street, West Toronto, the other day. Mr. McIntosh is a well-known engineer on the Canadian Pacific Railway and has been on the road for seventeen years.

"I suffered terribly from stomach trouble and indigestion," he continued, "that had worried me for four long years. After eating anything my food would ferment and form a hard lump in my stomach and I felt like I was burning up inside. Then I would bloat up with gas that pressed up against my heart till I could hardly breathe. Nearly all kinds of fruits and vegetables would disagree with me, and I would act like poison and I had to be so careful with my diet that I never enjoyed my meals. For I knew what misery was in store for me later on. I was constantly belching up a sourish, bitter water, sometimes a thick phlegm would rise and there was a dull aching pain in the pit of my stomach nearly all the time."

"I took medicine after medicine for the last four years trying to get relief but it was no use, and I was getting worse all the time. One day a friend of mine urged me to try Tanlac, as he said it had helped him a lot, so I got me a bottle. I have taken four bottles now and I can say positively that it has entirely relieved me of all my stomach trouble. I can eat all kinds of fruits and vegetable and anything else I want and never have a touch of indigestion afterwards. My food does not sour any more, gas has stopped forming, that burning sensation and boating are all gone and I am in as good condition to-day as I ever was. It certainly is fine to be able to eat anything I want

TANNERS STRIKE IS AT AN END

(Continued from Page 1.)

ing hours the full energies of the men shall be applied to the work of the factory. Clause No. 3 recognizes the right of the men, Mr. Davis told the men in his presence that they were not discharged for forming a union, but for taking up the firm's time in discussing their union matters in factory hours. The committee stated that ninety of work for the aliens as well as for their own. The agreement had been adopted by a unanimous vote.

Mayor Hughes said he was called to the conference by Mr. Davis. He was afraid there would be some trouble and it was his business as mayor to avoid trouble. He knew Davis & Son and they were fair and met them half way all the time. The company gave their word and he believed they would carry it out and give the men a square deal. He was glad the strike was settled and believed that if the men get the proper spirit everything will be all right and agreeable.

A vote of thanks was tendered Mr. Nickle, Mayor Hughes and Mr. Comp for their services in effecting a settlement.

COULD RELEASE FIT MEN

But He Will Never Be Able To Fight Again.

F. Scouten, a brother of H. M. Scouten, of Wilton, Ont., is now in hospital at Cooden Camp, Bexhill-on-Sea, England. In a letter home he states that he is well except for his foot, and adds: "I could be working at farming in Canada just as well as lying around here, an expense to the country. I will never be able to fight again. I suppose I could do some odd job in this country and release fit men for the front line."

"I saw a bunch of British Whigs to-day and I see they are \$16 a ton pressed, and pork \$20.25 per hundred on car.

News From Cataragui.

Cataragui, June 27.—The War Workers Society now boasts a membership of nearly eighty. Mrs. W. Roberts, Toronto, the widow of the former rector of this parish, is visiting Mrs. B. Lancaster. Mrs. Wymann Rowe has gone to the city to reside with her son, Corporal John Rowe. John Hood is home from Petawawa camp on sick leave. Mr. and Mrs. Erwin Hunter have a baby girl. Mrs. J. Hunter has returned to her home in Hamilton. Mrs. George Caldwell, Carp, has been the guest of Mrs. E. R. Kelly. Mr. and Mrs. Percy Ward have moved in with Mrs. John Ward. Mrs. Parkin has returned home after visiting her brother, T. Guess. C. L. Edwards, Ottawa, is in Kingston hospital for medical treatment. Mrs. Edwards and baby are at the home of her father, Dr. Edwards, M.P. Mrs. Norman Bunker, Ottawa, is spending the week with her father and mother. Mr. and Mrs. W. J. Smythe, Sunnyside.

Forty-Nine Years a Teacher.

Stratford, June 28.—With the completion of the present school term Miss E. Laura Walker, of Romeo Ward School, will have completed forty-nine years on the staff of the public schools of the city, a record for long and faithful service that will be hard to equal in Ontario. Miss Walker has wielded a great influence over those who came under her charge, and rarely has been absent from duty during her years of service. Her pupils presented her with a gold-headed umbrella.

"Over the Top."

Are You Master

Does your business master you? Does it insist on following you home and to bed and worrying you day and night until you are on the verge of nervous collapse?

A few weeks' use of Dr. Chase's Nerve Food will do wonders for any business man or business woman whose nervous system has failed to stand the strain. It nourishes the nerves back to health and vigor.

GREAT POTATO WASTE

Can Be Prevented by Thorough Spraying.

Women's Meetings in Full Swing—The Summer Institute Meetings Are of Benefit to Every Woman Who Attends—Topics to Be Discussed and Work Planned.

(Contributed by Ontario Department of Agriculture, Toronto.)

POTATOES are sprayed to prevent such fungus disease as Early Blight and Late Blight and Rot. These diseases are caused by plants known as fungi. These fungi which derive their nourishment from living plants injure them in so doing in various ways and thus give rise to what are known as fungus diseases.

In combating the great majority of fungus diseases methods of prevention only are practicable. Spraying potatoes is not done to cure but to prevent disease. In other words the object of spraying is to cover the surface of the leaves and stems with a substance, poisonous to the spores of fungi, in which they cannot grow, and penetrate the plant. Spraying, therefore, in order to be effective, must be timely and thorough. The spray mixture must be on the plants before the spores reach them and the surface of the leaves and stems must be covered so completely that there is not the smallest space on which a spore can germinate.

Efficient spraying of potatoes depends:

1. Upon the use of the proper fungicide. Bordeaux mixture has so far proved to be the only satisfactory spray mixture for potato diseases.

2. Upon timely and repeated spraying. Spraying should be commenced when the plants are from six to eight inches high and repeated at intervals of from a week to ten days throughout the growing season. From three to seven applications will be required, the number depending upon the weather, the wetter the weather the more frequent the spraying.

3. Upon the liberal use of Bordeaux mixture. From 50 to 150 gallons of Bordeaux mixture should be used per acre at each application.

4. Upon thorough spraying, which means the covering of every portion of the plant with the Bordeaux mixture in the form of a fine mist. This can be done only when the solution is applied with good pressure so as to insure covering every portion of the plant. The best results from spraying are obtained when potato sprayers are used which are fitted with T-joint attachments, so as to insure covering both surfaces of the leaves at each spraying.

5. Upon spraying before rather than after prolonged rainy periods. Infection of the plants takes place during or soon after rain. Therefore it is of the utmost importance to have the covering mixture on the plants when the rain comes.—Prof. J. E. Howett, Ontario Agricultural College.

The Importance of Women's Institute Meetings.

A series of meetings which, to the women of rural Ontario, have always proved worth while, and increasingly so the last year or two, is the Women's Institute meetings. These are important because they are reaching in their nature. They afford the town and country woman, no matter what her position may be, a channel through which she can be of all-round service to humanity.

Since the war began Red Cross and other patriotic work has, of course, received first consideration. The alleviation of suffering seems peculiarly woman's work. The need is greater to-day than ever.

The great demand by the Allies for certain foods such as beef, pork, wheat and sugar has caused the housewife to change her methods of pre-war days. She must now learn to substitute and to eliminate various forms of waste. Perishable foods must be more widely used, not only in summer, but also in winter. These must be conserved, through proper storage, canning or drying. Such subjects as these may be discussed at the meetings. An expert demonstrator may be secured from the Department to give information or a practical demonstration to assist the housewife.

The members may club together and do their shopping at one centre with one fire if they so choose, and in addition to the work accomplished may have a social time together.

The children in the rural districts must not be forgotten. They must be prepared for the great responsibilities which are too soon to fall upon them. Their education must not be neglected. They must not be handicapped by physical imperfections. Subjects of importance to the rural districts must be discussed and means adopted to improve conditions. The Medical Inspection of rural schools and the clinics held through the Women's Institute are doing much to improve conditions.

The girls also need attention. We are apt to forget the girls in our anxiety for the boys. Their lives and their prospects for the future are being affected by this war. Hence opportunities for study, for amusement, for developing their talents to the full, must be afforded them. Many of these opportunities may be secured through the Institute.

Surely with subjects of such vital importance as the above-mentioned, all meetings should be worth while. We would call the attention of all to the importance of the summer meeting, held throughout June, when the delegate from the Department is in attendance. She has the latest information on all subjects of importance to the Institutes, and is a specialist on her own particular subjects.—G. A. Putnam, Superintendent Women's Institutes.

The consumption of newsprint in the United States must be cut down at least ten per cent. Dr. Richard von Kuehlmann, the German Foreign Secretary, will resign his portfolio.

Probs: Saturday mostly fair and moderately warm.

SATURDAY! A Day of Wonderful Bargain Opportunities! Tomorrow, the last day of June should prove an exceptionally busy one at the "Woman's Store of Kingston"—as we have prepared a bargain list of unusual merit that should, make instant appeal to all thrifty women.
