Teach the Children to Save
 Habits are acquired early in life. Children, who are taught the value of money and the habit of saving, grow up into good business men and capable women.
 The easiest way to teach children to save, is to start a Savings Account for each child (\$1.00 each is sufficient). After a child has saved another dollar to make an additional deposit, he or she will have a better appreciation of just what a dollar stands for, and how much work and self-denial it represents.

NIAGARA TO THE SEA
Canada's Wonder-Trip

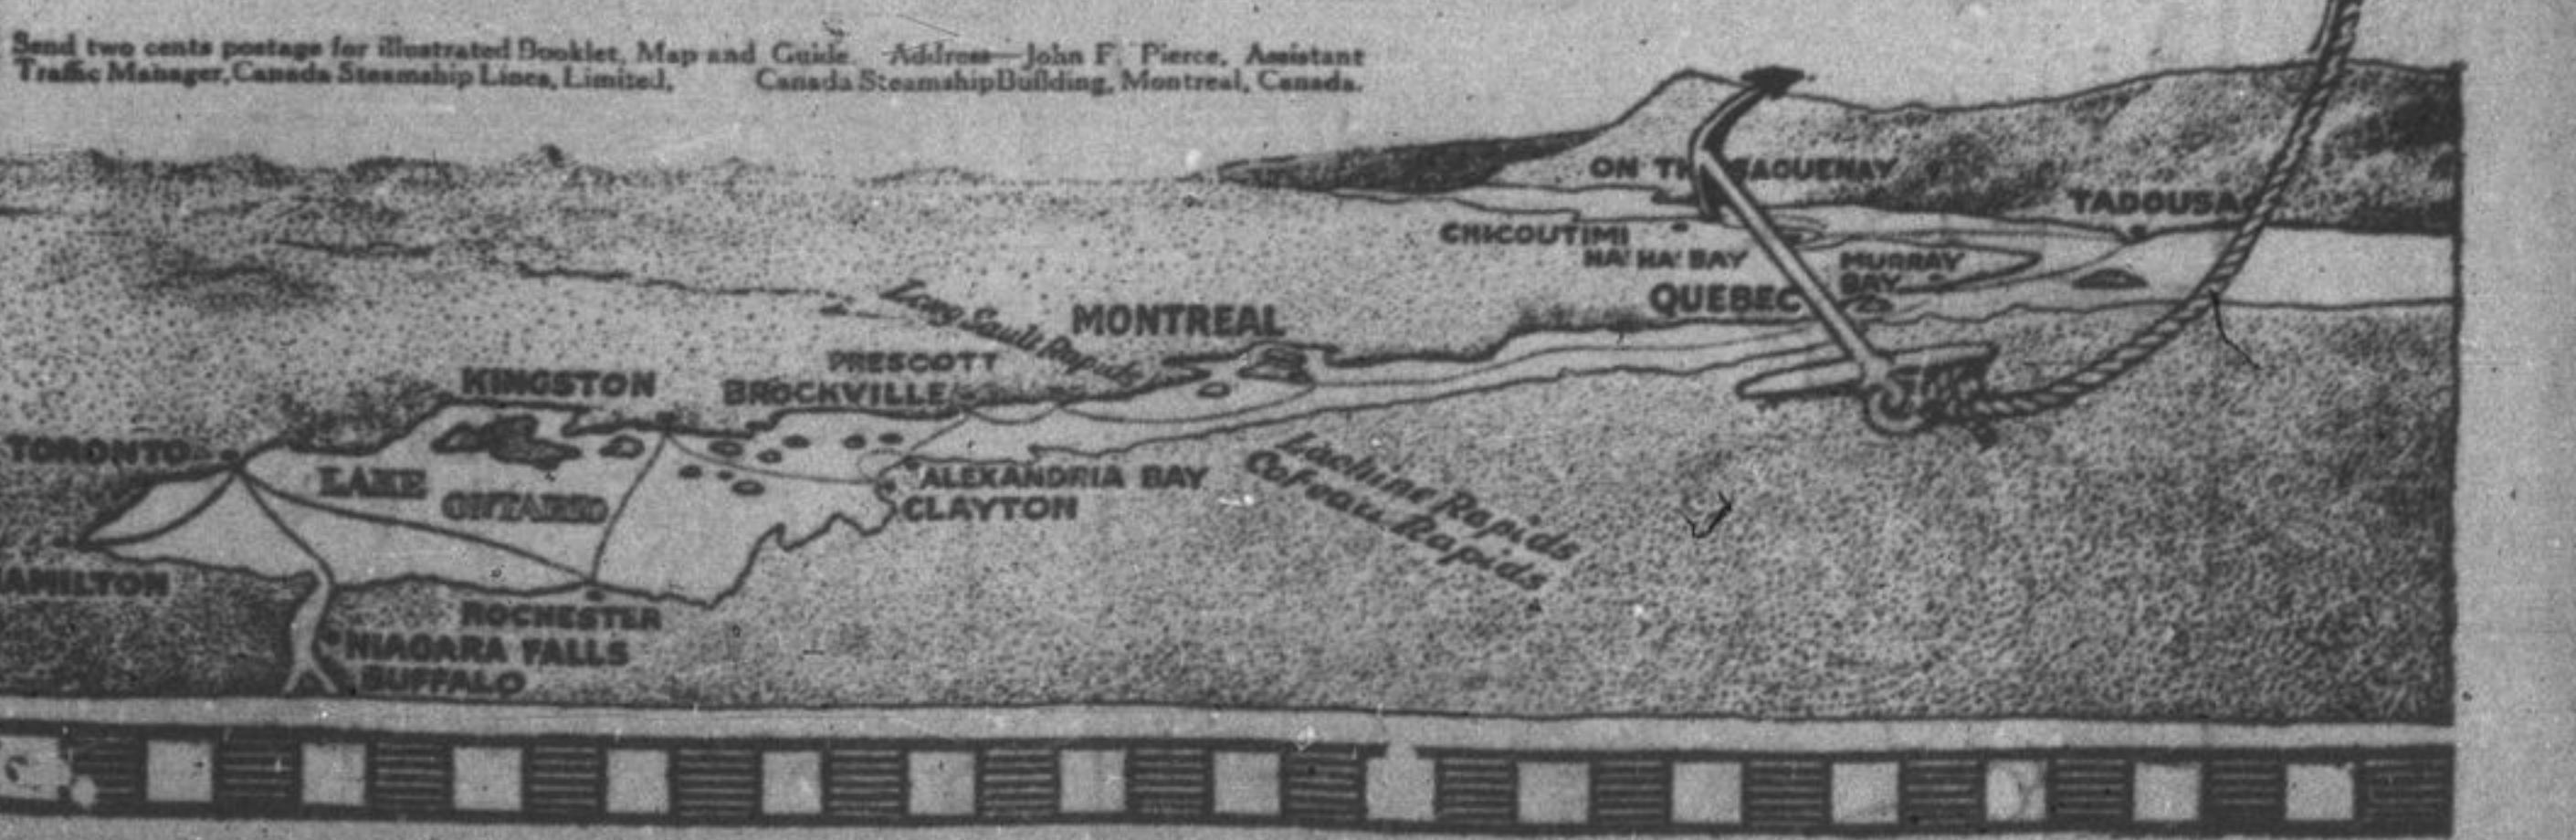

THE world's most famous scenery—just at your door. Miles of beautiful Lakes, Rivers, and Rapids, including the Thousand Islands (the Venice of America). Quaint old Quebec (cradle of New France). The lower St. Lawrence (rivalling the fjords of Norway). The miracle-working shrine of Ste. Anne de Beaupre. The world-famous Saguenay River Canyon, compared with which the Rhine and the Danube are insignificant in grandeur. Murray Bay, with its duplication of the west coast of Scotland scenery; and the marvellous rapids, for which Europe has no counterpart. Spend a week—or a fortnight—on the lakes and rivers of Quebec, where the architecture and customs of the early French regime still survive.

From the moment you board a "Canada Steamship Lines" boat at Toronto—you will find each hour of the journey filled with new and surprising delights. The route is one of wondrous beauty—the boats are floating palaces, providing a new experience in travel de-luxe.

1,000 miles of scenic splendor—each day of it so wonderful that you'll marvel why anyone ever went across the sea for scenery when this vacation route is so readily accessible—at a cost so low that all can go.

The Economical Vacation
 Make it a water trip this year—the kind of holiday that promotes health and refreshes the mind. Extravagant pleasures are not to be encouraged—but there's real economy in taking the kind of vacation that keeps one's efficiency above par. There is no congestion on the mighty rivers that flow from Niagara to the Sea, and a complete standard service will be maintained.

CANADA STEAMSHIP LINES, Limited

The Less Waste The Better The Service
"SLOW" telephone accounts -- the accounts on which repeated efforts to collect must be made -- result in waste of time and labor.
 Most telephone users pay their bills promptly and the labor and time of collecting them are reasonable.
 But some subscribers overlook their bills or neglect to pay them promptly, and the work of collecting such accounts is laborious and time-wasting.
 The elimination of waste in the telephone business means better telephone service. When we can do away with any waste time or labor that may be involved in furnishing service, we can put an equal amount of time and labor into the service itself to the benefit of all telephone users.
 Help us, by the prompt payment of accounts, to avoid waste time and labor and to concentrate on the enormous amount of necessary work that war-time conditions demand.
