

Ride a MASSEY Bicycle

Buy Now and Save Money

It will pay to get your bicycle now instead of waiting until next Spring. It is almost certain that prices will have to be advanced considerably next season.

It may even be hard to get a bicycle at any price. Better secure one now and enjoy the use of it all Summer and Fall.

This Mark is Your Protection. Beware "C.O.M." Bicycles bear this design on the rear upright bar.

Twice as easy as walking Three times as fast

"Better to pay the price of a good bicycle than the penalty of a poor one"

Every other dealer tells you he has something "just as good as a Massey."

Why? Because they all copy the Massey.

Jack Hendricks has secured outfielder Anderson from the Milwaukee club of the American Association. Anderson was a member of the Brooklins several seasons ago.

Jess Barnes has not communicated with any of the Giants since he went to Camp Funston the last week in May, but it is reported that he is already in France.

In the World of Sport

Baseball Briefs

Catcher Hurling, of the Hustlers, earned \$50 for hitting a sign in the Rochester park. It was the first time this season the sign had been hit.

The resignation of John K. Tener as president of the National League was accepted by a special committee.

It now transpires that Hartford was offered the Syracuse franchise for the balance of the season but refused.

Catcher Bradlee Kocher, formerly of the Giants and Leafs, has gone to work for a munitions plant at Hazelton, Pa.

Armando Marsans, the Cuban outfielder of the Yankees, has left the club and gone to his home. Failure to land a regular berth is given as the reason.

Manager Irwin, of the Rochester Colts, has signed Chief Manners, pitcher, from the Springfield club, of the Eastern League, which has closed its season.

In the present scramble to secure star ball players for the Head of the Lakes League, one notable acquisition is reported by officials of the Riverside shipyard team, of the Mesaba League. The shipyards stated they have obtained the services of "Bunny" Brief, first baseman. Brief has played with the St. Louis Americans, Pittsburgh Nationals and Chicago White Sox.

John Russell, the left-handed pitcher, who was a member of the Robins early this season, and who was sent to the Rochester Club, of the International League, is now in the army at Camp Upton, L.I.

Herb Hall and Wilbur Good, of Kansas City, probably will wear Breckenridge (Pa.) uniforms in the Steel League. Hall has practically agreed to terms and Good tentatively accepted a contract with the metal workers.

Word has been received from Jack Fournier that he will leave California early next week and will join the Yankees in St. Louis. Huggins plans to play him regularly at first base.

The Boston Red Sox owners have purchased Jean Debuc, former star pitcher and pinch hitter of the Detroit Tigers, from the Salt Lake Club, of the disbanded Pacific Coast League.

Jack Egan, former American League umpire, and then manager of the Providence International League team, and this year manager of the Milwaukee American Association team, has returned to his home in Providence, where he is quoted as saying that attendance was generally good in Association cities up to the end of the curtailed season.

The Braves rang in a pinch hitter named Bass against the Cubs. Mr. Bass refused to bite at the bait offered by "Douglas" wide curves. There were cries of "Get the hook" when two strikes were called; then Mr. Bass struck savagely, and started the rally that won for Boston. Evidently Mr. Bass is no fish.

President Weeghman of the Chicago Cubs is said to have offered several of his players jobs as man-

agers in his Chicago restaurants, so arranging their hours that they can be off Saturdays and Sundays to play ball in Chicago. Thus he can keep tabs on them for future use when the Cubs take the field again.

Manager Fred Mitchell waxed wroth because his club officials agreed without consulting him to moving up a game from somewhere in October to make a double-headed last Saturday. Mitchell thought it would give the Giants an advantage, as he figured the less games the Cubs played the better. However, since the Cubs won that part of the double-header, he probably will take back the things he said about money-mad magnates.

Catcher Eddie Burns quit the Phillies last week and went back to California, where he expects to go into some sort of war work, but says it won't be in a shipyard. To fill in the Phillies took on Mike Devine, who has been catching in the Eastern League. Pitcher Garry Fortune also was added to the Phillies' staff during the week. He was the leading pitcher in the Eastern League.

Dunny Belef, who finished the season as first baseman with Kansas City, has found another league to play in. He has joined one of the shipyard teams at Duluth.

Fred Falkenberg, who finished the season with Indianapolis, has joined the Duluth team of the Mesaba Iron League. A large number of former American Association players are "working" in this league.

Catcher Bradley Kocher, formerly of the New York Giants and Toronto Leafs, and later with Louisville, has gone to work for a munitions plant at Hazelton, Pa., and will do some ball playing on the side. Chayelin, late of Columbus, is with the same concern.

Manager Fred Mitchell of the Cubs and Jim Vaughn is as good a pitcher as Grover Alexander was in his prime. Well, there may be differences of opinion, but it's hard to go behind the figures and Vaughn certainly has them this season. Bill Killifer may have been the real man in the making of both pitchers. Perhaps he could handle Mule Watson for a season and also make him as good as Alexander.

Chicago report has it that Charley Deal, who jumped to a munitions plant, was much grieved when he heard of Secretary Baker's respite and at once started negotiations for rejoining the Cubs, so that he might get in another world's series, figuring that his experience would be a great help to Mitchell.

Chicago report has it that Charley Deal, who jumped to a munitions plant, was much grieved when he heard of Secretary Baker's respite and at once started get in another world's series, figuring that his experience would be a great help to Mitchell.

Now that Secretary Baker has granted exemption to players under the work or fight order until September 1st, Walter Holke, who got his orders before Baker loosened up, figures he got the worst of it and doubtless wishes he were back with the Giants drawing down that \$667 a month. He is now working for the Bethlehem Steel Company at \$300 a month, pretty good pay for a plate setter at that.

No Baseball Next Year? Ebberts Field, home of the Brooklyn National League Baseball Club, will be closed for the duration of the war after the game with Philadelphia next Wednesday and converted into a storage warehouse. This action was decided upon at a meeting of the board of directors of the club.

Immediately after the final home game of the curtailed season, on Aug. 14th, special structures will be erected upon certain portions of the field, and these, in conjunction with spaces in and under the grandstands, utilized for storage purposes. The former Federal League park, Brooklyn, is being used for similar purposes at present.

The action of the Brooklyn Club directors is taken to indicate that the officers of the organization do not contemplate a continuation of big league baseball in 1919, if the war continues.

Dick Murphy, the young outfielder recently secured by the Braves from Des Moines, is hitting like a house afire.

McHenry, the new left fielder of the St. Louis Cards, looks like quite a ball player.

COLLINS TO ENLIST.

Congratulated by President Comiskey for His Action. Eddie Collins, star second baseman of the Chicago Americans, yesterday received a telegram from President Charles Comiskey, congratulating him on his announced intention to join the marines. Collins was purchased from the Philadelphia American for \$50,000, and in addition to getting \$10,000 as a bonus from President Comiskey, his contract called for \$15,000 a year. He is thirty years of age, married, and has two children. Collins is the third member of the world champions to announce their determination to enlist within the last week. Fred McMullin and Charles Risberg left the club to enter the service.

NEW SWIMMING RECORD.

Wm. Wallen Made World's Mark For Half Mile. William L. Wallen, of the Great Lakes Naval Training Station, made the world's record time of 11 minutes and 17.5 seconds in the 800 yard swim in defending his national title in New York last Saturday.

Duke Kahanamoku, of Honolulu, finished second to Kruger, also of Honolulu, in the 110-yard handicap. Kruger had an eight seconds allowance. Kahanamoku covered the distance in 56.4-5 seconds, but was favored by a trifling tide. Clarence Lane, of Honolulu, won the open 110-yard swim.

Would Color Golf Balls.

With a million golfers in Canada and the United States, little wonder that the inventive mind occasionally offers suggestions which threaten to send the ancient game and its traditions a-glimmering. Inventions rarely receive encouragement, for "golf is golf," and for that reason the iconoclasts seldom make more than momentary flash ere fading away to utter and lasting oblivion.

For instance, one is at a loss to know why anyone should suggest the substitution of yellow for white paint on a golf ball. It has been claimed that under certain conditions white is hard on the eyes; that on a very bright day a more neutral color would be serviceable. Yet golfers have played for a good many years and the sun has shone just as brightly in the past as it does at present. It would be hard to get better contrast than the white ball and the green turf.

So far as the trade goes, there have been comparatively few recommendations to change the color of the ball, though recently a New York golfer left an order with a prominent sporting goods house, calling for a dozen of one of the latest makes of rubber cores to be painted red. His reason was that when shots went wandering among the glistening white shells, the caddy had trouble in locating the sphere. Consequently he figured it out that a red object would be much easier to distinguish.

Rochester Yachts Defeat Cleveland. In two spectacular races on Lake Ontario, off Summerville, Saturday, two Rochester yacht club's star boats, Leda, skippered by L. G. Mabbett, and Juno, handled by John A. Taylor, outdressed the double entry of the Cleveland Yacht Club, the Felo, with Julius Schweitzer in charge, and Evening Star, under Win Andrews, in defence of the local club's title to the Brodie Cup, which was won in races at the Sixth City last year.

When pluck gets busy, luck takes a back seat.

THE REO MOTOR CARS "The Gold Standard of Values."

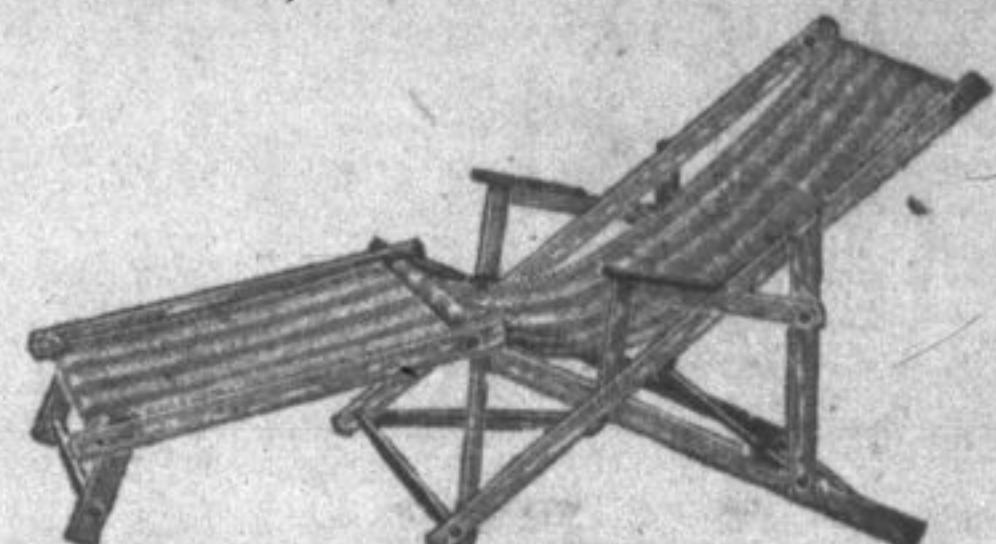

The Reo Brand of Service is Built into the Product

HIS IS WHAT WE MEAN when we say service. We mean service "built into the car." That's the kind of service for which you are looking. It is the only kind of "service" that guarantees consistency, dependability of performance. And it's the only kind of "service" that can possibly guarantee a low maintenance cost. So it is "Reo Service Built Into the Car" that you obtain with this 3/4-ton Reo "Speed Wagon" as with every other Reo. Keeping in mind the fact that low upkeep is a big factor in the automobile world, the feature of this truck is its accessibility. If you can get at any part quickly it can be adjusted or repaired or replaced quickly—and therefore cheaply. Let us show you the Reo's "accessibility."
