Coaching Havana Crews. "Joe" Wright, the veteran Toronto Argonaut coach, is at present coaching the crews of the Havana Yacht Club in Cuba. An important race was scheduled a week or so ago, with a rival club, one of the crew of which was the son of the President of Cuba. This Cuban wasn't feeling very well, so he asked Joe if the race could be postponed until he fully recovered, and the Toronto man gracefully acceded to the request, which sportsmanlike action was much appreciated by the Cuban.

WELSH SHOW REGARD FOR ALL GOOD PLAY

Edinburgh Fifteen Serenaded After Defeating Cardiff While on Tour.

Wales is a land full of quaint customs and good sportsmen. Rugby football is the great game in the south, and it was no uncommon thing for the Welsh miners to walk distances of as much as 50 miles to the centre where their favorite team was to do battle, in the olden days. Although a keen partisan, the Welshman appreciates nothing more than good work on the part of an opponent.

On one occasion, Edinburgh Watsonians, one of the crack Scottish fiftens, while on tour in Wales, defeated Cardiff, and the Welsh crowd not only carried the Scots from the field, but serenaded them, accompanied by the town band, outside of their hotel that night.

During the visit of the first New Zealand team, known as the "All Blacks," to the Old Country their final international game took place against Wales at Cardiff, Wales winning by a try to nothing.

It was the custom of the New Zealanders, on coming onto the field, to give the Maori war cry, and they did so on this occasion.

The Welsh crowd was rather taken aback for a few moments, and then the great gathering of over 60,000 people replied with the Welsh national anthem, "Hen Wlad y Nhadau" (Land of My Fathers). Wales is a land of singers, and the result was more than impressive.

Nothing prettier than the passing of the Welsh back has been seen in rugby. They were the first to introduce the low pass and the four three-quarter system, and during a run the ball travelling from wing to wing would never rise above the level of the waist line.

It was their three-quarters who first placed Wales on the map in rugby, and Gwyn Nicholls, the Cardiff centre, was probably the greatest player in this position in the history of the game.

Corbett First Used Left Hook. Jim Corbett and Joe Choynski fought four rounds at Fairfax, Cal., 29 years ago, May 30th, 1889.

This was the first of the famous meetings between the San Francisco bank clerk and the blonde Hebrew boxer and the authorities put a stop to the festivities before either man had a chance to demonstrate his superiority.

About a week later Jim and Joe resumed hostilities on a barge near Benicia. That contest was memorable for the reason that it was then that Corbett invented the left hook. Early in the barge contest Gentleman Jim smashed the knuckles of his left hand. Unable to strike out straight from the shoulder, Jim began to turn

SMITH WAS THE LAST BARE-KNUCKLE CHAMP.

He Fought Kilrain a Draw in France in 108 Rounds.

Ted Pritchard defeated Jim Smith in three rounds in London in 1891. In this battle Smith, the last of the bare-knuckle champions of England, lost his title. He had previously been defeated by Peter Jackson, but when the Australian negro left England Smith again claimed the heavyweight honors of that country. Despite the fact that Smith carried the title on Pritchard in a return bout, he was never much good after that, and was defeated by Dan Creedon, the Australian middleweight.

JOHNSON IS TAKING THE PROPER POSITION

No Concession From the War Department, and None Is in Sight.

Clark Griffith of Washington and Comiskey of Chicago White Sox have written letters to President Ban Johnson of the American League, "reputating" the formal attack on Johnson's policy, which, they say, was issued at Cleveland a week ago by H. H. Frazee of the Boston Red Sox. Griffith and "Commy" made it plain that Frazee originated an attack public the attack without their authority or knowledge.

Meanwhile Johnson continues to insist that if there is a World's Series it must be played before September 1st. Johnson appears to be correct in his contention, in view of the fact that no concession has been obtained from the War Department, and that within the next three weeks many players are expected to desert their teams in order to indulge in useful employment. The next major league pay day falls on Thursday, and it is said that as soon as some of the stars receive their salaries they will leave their employers.

Get in For the Finish. A ball game is not won until the last man is out. The final jump wins the race. The game man and the game horse show their gameness in the final moment.

This war will be won by the gamest side. The Allies have it, but it will be in the final quarter.

There is a chance for every man to get in on the finish. Farms of Canada need men and the Allies need the products of Canadian farms. Get out with the harvesters and make sure of the crop.

CLOSER RELATIONSHIP

Between U. S. And Canadian Golfers is Foreshadowed.

Closer relationship between the golfers of the United States and Canada is foreshadowed as one result of the war. The latest evidence of this is the invitation that has been extended to "Chick" Evans, Jerome D. Travers and John G. Anderson to play matches at Montreal and Toronto, and it will indeed be surprising if this is not merely the thin end of the wedge which will result in calls upon the services of other United States stars for exhibitions in the Dominion.

Credit for the closer linking of the interests of the United States and Canadian golfers must not go to Travers and Anderson, but to the veterans, for it is about a year since the veterans across the border formed an association on the lines of the one which had its inception at Apawamis, with the view of bringing about a yearly contest between the two bodies. While the age limit in the American Association is fifty-five years, the Canadians allow players of fifty years to membership because in their country there are fewer of these veterans.

It seemed to be the idea of the American seniors that the first match was to be deferred until after the war, but although they have been in the big fight since the beginning, the Canadians seem to be anxious to begin without delay. This much can be said—it will be a great event when it does take place, and will go a long way toward bringing the golfers of the two countries even closer than they have been.

Can You Run a Car.

The world's greatest athletes and sportsmen have poured out their blood in a rich, red stream for humanity. In the scroll of history, the runners, the fighters, the jockeys, the ball players, in fact, all "sports" will hold large space.

There are those who follow the games who cannot get "over there." They are willing to do their share, but many have not had the idea impressed upon them that having food, producing food, and buying bonds helped much. They do, but there is still more to be done.

Can you run a motor car? There will be much work to be done soon, in the operation of threshers, the binders. Learn to operate a farm machine, and help in this way. It's the work that tells.

Want Sohmer Park.

It is reported that an offer has been made for Sohmer Park, Montreal, for use as a giant ice rink next winter, presumably for the purpose of playing professional hockey matches.

The names of George Kennedy, who has the Canadian hockey franchise in the National Hockey League, and Lucien Rielop, who managed the Jubilee rink last winter, are mentioned in connection with the offer. Putting Sohmer Park into shape for a hockey stadium would be a huge undertaking, as there is no adequate seating arrangement at the present time.

Baseball Billed for Palestine.

Americans arriving with the British army in Palestine are to introduce baseball in that country, and present plans call for a number of games in Jerusalem between rival

THE REO MOTOR CARS

"The Gold Standard of Values."

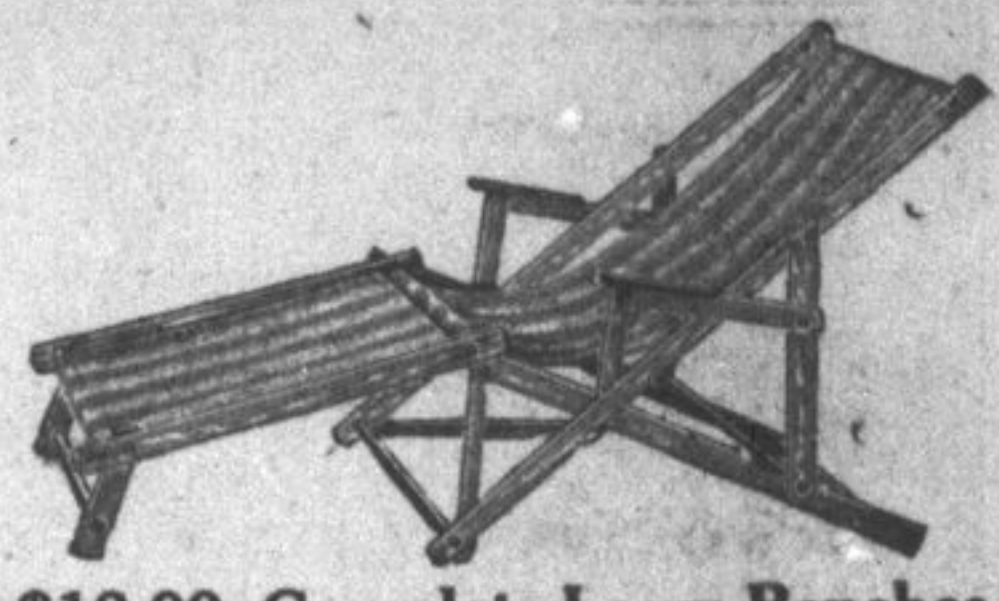

Reo 3-4 Ton "Speed Wagon," Light, Agile, Economical

TO ATTEMPT TO CIRCUMSCRIBE the field, or to enumerate the various lines of business to which this Reo "Speed Wagon" is ideally applicable, were futile. There seems to be no limit to its adaptability. Though only in its second year, this Reo is now performing in hundreds of capacities—and enthusiasm of owners knows no bounds. For stability, dependability and speed, with the minimum of upkeep cost, it has, we verily believe, no equal. It is a Reo with all the name implies—"Radiator cap to tail light."

If you will drop in some day we can prove our statements.
