### Only Rusted Iron Filings.

A farmer at Washburn saw a streak of what he thought to be metallic ore embedded between layers of rock. It looked like graphite except that the color was brown. When rubbed between the fingers it left a stain similar to that made by a lead pencil. He gathered a quantity of it and sent a sample to Queen's Mining School. The amazement of the farmer was great when he received the following report: "Iron filings or turnings which have been thrown out and rusted, forming a rich ochre." The farmer stated that there was a large deposit of the substance at Washburn.

Sale at Prevost's, Brock Street. Boys' Embroidered underwear, 35c each; men's Balbriggan underwear, all sizes, 50c each; men's combinations, big assortment; men's colored shirts from \$1.00 up; also great stock of ready made clothing.

Major R. H. Armstrong, of the Royal Engineers, who graduated at Kingston, has been commissioned in the Flying Service.

### OBJECT TO COAL PRICES

LABOR MEN ASK DOMINION CONTROLLER TO INVESTIGATE.

Resolution Passed Objecting to Dismissal of Ex-Fireman Turner and to Firemen Being Asked to Do Work of Trade.

At a meeting of the Trades and Labor Council held Thursday evening the question of coal supply during the coming winter caused discussion. The prices charged excited protests and a resolution was passed asking the Dominion fuel controller to take action, as the prices are claimed to be higher in Kingston than they are in Toronto, Ottawa and Montreal, points more distant from the mines than Kingston is. The discussion was precipitated by a letter from William Halliday.

A letter was read directing the attention of the City Council to the dismissal of a fireman because, it was alleged, he refused to lay a concrete floor when ordered to do so by the fire chief. It was pointed out that the fireman was employed to perform a fireman's duties and that the fire chief when he ordered him to do mason work acted on authority given him in a city by-law, which is a violation of the rights of organized labor, and the man in refusing to do the work was within his rights. It was claimed that the fire and light committee has no right to require firemen to do the work of tradesmen, such as carpentry, plumbing, tin-smithing, mason work, tailoring, etc. Some thought that when a fireman was called upon to do tradesmen's work he should be paid according to the union schedule of wages, but a resolution was passed for presentation to the fire and light committee asking that firemen be not required to do the work of tradesmen at all but firemen's work only, and also that ex-Fireman Turner be reinstated.

### A CANNING DEMONSTRATION

BY MISS FOOTE OF AGRICULTURE DEPARTMENT.

Kingston Ladies Profited by It—The Demonstration to be Repeated on Friday Afternoon.

Miss Foote, a graduate of McDonald College, Guelph, conducted a demonstration in the canning of vegetables on Thursday afternoon in the domestic science room of the Board of Education. There was a good attendance of ladies, who were representative of every class in the city. Miss Foote's presence here was secured by Mrs. John Macgillivray, president of the local branch of the National Council of Women, who has been active in promoting measures for the greater production and conservation of food.

Miss Foote gave an address explaining the methods to be followed and the reasons for the different processes. The ladies evinced great eagerness to obtain the necessary information. Miss Foote canned tomatoes, carrots, beans and peas, and explained that it is very important that can be sterilized in preparing the articles to be canned. For instance tomatoes should be canned very soon after being taken from the vines because fermentation sets in very rapidly when the fruit is allowed to remain uncooked, particularly when exposed to the sun. Glass jar with the "perfect seal" top were used, and these are considered better than the screw top jars.

Miss Foote repeated the demonstration on Friday from 2:30 p.m. to 5 p.m., as Mrs. Macgillivray was anxious to have a larger attendance of Kingston ladies. Miss Foote is following an itinerary arranged by the Department of Agriculture, Toronto, and she visits only the places that have made application for her services.

Mrs. Macgillivray has taken a keen interest in this branch of domestic science, and she hopes to establish a community canning centre in Kingston because of the practical and educational value it would be to domestic economy. A great saving in fuel would be effected, too. The domestic science room of the Board of Education was found to be well equipped, but a much larger room would have been better. The demonstration was greatly appreciated even by those who are able to can successfully, because they were able to obtain new ideas and simpler methods.

### SPRITED BENEFIT GAME.

Leaders of City and Military Y. Baseball Leagues Clashed.

Enthusiasm reigned supreme at the baseball game between Athletics and the Dentals at the Cricket Field on Thursday evening for the benefit of the Red Cross. Athletics are leaders in the City Baseball League and Dentals in the Military "Y" Baseball League, and this contributed to the interest of the game. It was a case of nip and tuck with both teams racing along at a fast rate until the fourth innings, when the Athletics secured their lead and the game ended 6 to 4 in their favor. Thompson commenced the good work in the first innings when he scored on a home run, and this gave a spirit to the game which did not wane. The teams:

Athletics—McNeil, c.f.; Schultz, 1b.; Thompson, s.a.; Coyne, 2b.; Cummings, c.; Purcell, p.; Spencer, c.f.; Fitzgerald, 3b.; Hughes, 2b. Dentals—Spoor, 3b.; Hartford, 2b.; Adams, c.f.; McCartney, 1b.; James, s.a.; White, r.f.; Kniewasser, c.; Walsh, l.f.; Adams, p. Umpires—J. Devlin and Lieut. Charles Larocque.

The score by innings:  
R. H. E.  
Dentals . . . . . 2011000—4 6 1  
Athletics . . . . . 111300x—6 6 2

### To Play in Tennis Finals.

E. D. Hendry, Cornwall, and C. C. Goldring, Toronto, are contesting for honors in the final of the men's tennis singles at Queen's University summer school. W. A. McWilliams, London, and A. G. Leitch, Toronto, will play N. J. Thomas, St. Thomas, and E. D. Hendry, Cornwall, in the final of the ladies' games; have not yet been reached.
