Jenny Lind is only a memory, but the voice of GALLI-CURCI can never die.

Two voices of finest, purest gold, one is gone forever, the other lives for all time. There was no Victrola to capture the fleeting beauties of Jenny Lind, but Galli Curei's will be heard in centuries to come.

To-day GALLI-CURCI herself thrills and entrances vast audiences throughout the world. Happy singer and public, that her flawless, limpid notes will flow forever in indiminished beauty from her Victor

"CIVILIZATION."

When we use the word civilization human race, and something that every nation was supposed to be striving for; something that we are taught from childhood to recognize as the one thing that every human being should strive for.

Had there been no civilization, and had we never been taught what a beautiful thing it was, just imagine the condition the world would be in to-day; the inhabitants of this world of to-day would be in the same state as the human race was in the days of the cave man, and this wonderful earth of ours would not be safe to live in; as it is, the German nation has forgotten the teachings of thousands of years of civilization, and has reverted to the days of Attila, and to

the days of the cave man. It is to be hoped that the anthropophagi of former days had more mercy In their savage state than the supposedly cultured German of this pres-ent day has. The German race have been boasting of their civilization, but if you want to see how little they know of civilization, and how they have reverted to the savage harbarian. you must come and see civilization as it should be, and how it is practised at the present time by the brutal Hun and his vile ruler, who has out-neroed;

The master film "Civilization" shows us what real civilization is, and how the great master would have us practise it; no greater lesson can be taught than the one that is taught by Thomas H. Inces "Civilization." presented by Griffin pictures at Griffin's Theatre on Monday, Tuesday, and Wednesday, Aug. 19th, 20th, and 21st.
