Attention is drawn to the fact that it is a violation of Regulation No. 10 of Order-in-Council P.C.2190 (1917), for any person to make improper use of war services badges. Numerous circumstances have been brought to the attention of headquarters of women wearing as a badge, badges issued by the department to their relatives. Class "B" badge is most frequently put to this use. The above regulation reads: "No person other than the person to whom the badge has been duly issued, shall wear any badge so approved, and infringement renders the wearer liable to the penalty provided by this Order-in-Council."

At the Theatres

At the Grand.
A brand new characterization is promised by Harry Morey in his latest five-reel Vitagraph release, "A Bachelor's Children," which comes to the Grand to-night and also on Tuesday and Wednesday, both matinee and night. Supporting Mr. Morey in this picture are many old favorites such as Florence Deshon, Julia Swayne Gordon, Jean Page and Charles Hutchinson. "A Bachelor's Children" is the story of a man who tries to fight a great wrong, and in doing so he wins the girl of his dreams. Interwoven throughout the production are scenes rich in human interest, while yet retaining the deep pathos and absorbing romance of the original story. Nothing was spared by the producers to make this film a decided success, and the magnificence of some of the scenery will astonish you. Besides this feature there will also be the Pathe News, one of those screamingly funny comedies, and two other reels of equal exceptional merit. For the vaudeville, Moss and Moss will present a dancing, talking and juggling act that will be just the kind required to round out such a high class programme.

At The Strand.
When Harry Carey fell fifty feet with his pony and scraped off most of the side of his face, he thought of the name of his latest picture and since then it has been called "Hell Bent." This picture was shown at the Strand this afternoon and will be the attraction to-night, to-morrow and Wednesday. It is something new in western drama, and if full of exciting stunts by that well-known and incomparable movie artist Harry. Nova Gerber plays opposite Carey, and they make a strong pair. The scenes are well filmed and the whole presentation has been well chosen as a re-opener for this favorite theatre. In addition there are comedy and topical reels, and a good one by Charlie Chaplain, "The Cure." The new bill is well chosen, and this afternoon's crowd was well pleased.

"CIVILIZATION."

A Special Picture to be Seen at Griffin's.
In Griffin pictures the submarine scenes and battles which form one of the most interesting features of "Civilization," Thomas H. Ince's film spectacle, which comes to the Griffin's Theatre to-day, Tuesday and Wednesday, were actually made aboard real sea sharks of Uncle Sam's navy. It was through the investigation of J. Parker Read, Mr. Ince's personal representative, that the United States Government agreed to co-operate in the taking of this portion of the film. It is customary for the navy in its quarterly practice off Point Loma, San Diego, to use for target practice an old discarded steamer or freight vessel. Mr. Read agreed to furnish the battleship seen in "Civilization" for this purpose, and on behalf of Mr. Ince to pay for the expensive torpedoes and shells used in the fray. The Government agreed to furnish two battleships, two torpedo boat destroyers, one cruiser and two submarines, the latter of the H boat class.

The battle as fought for the movies actually lasted twenty-seven minutes. There were 600 shots fired by the navy men, and another 600 shots fired into the air, for the most part by the hired motion picture soldiers. Of the real shots fired by the United States navy men, each one carefully timed and placed, 92 per cent. were effective.
