Extra values in all pure wool and the best guaranteed dyes for dresses, skirts and suits, from \$1.50 to \$7.50 per yard.

**Waldron's**

## 46,100 TONS IS ALLOTTED

**THIS IS KINGSTON'S SHARE OF HARD COAL SUPPLY.**

The Provincial Fuel Controller Advises That Kingston No Longer Delay in Appointing a Local Controller.

Mayor Hughes on Wednesday morning received notice from R. C. Harris, fuel controller for Ontario, that the allotment of anthracite coal for Kingston for the season of 1918-1919 would be 46,100 tons. Kingston's requirements in this line are understood to be about 65,000, so the difference will have to be made up in other ways. The province of Ontario is to receive 375,000 tons less of anthracite coal than it did during the season of 1917.

The 46,100 tons has reference to the smaller grades of coal, as egg-stove, nut and pea. Municipalities may get more hard coal of steam size.

A coal commission has been instituted in the United States and the allotment is being made at Philadelphia, Pa. The commission will endeavor to have seventy-five per cent. of Ontario's coal delivered by the 30th of November. The balance will come during the winter.

It is not yet known how much coal has arrived at Kingston since navigation opened, but possibly sixty per cent. of the city's allotment has come. The coal is being delivered into houses, stores, hospitals, manufacturing places, etc., as fast as it arrives.

Fuel Commissioner Harris tells the Mayor that no municipality should any longer delay in appointing a fuel controller or board of commissioners to take the fuel situation in hand, and see that the best distribution possible is made of available coal.

Mayor Hughes will reply to Mr. Harris and state that Kingston has no fuel controller, as the City Council decided after full discussion last spring to let things go until it thought a controller was actually necessary. It is not likely that the Council will appoint one until it convenes after vacation next October, as the aldermen are of the opinion that the coal dealers are faithfully carrying out the fuel regulations. However, Kingston will need a controller by the time the cold weather arrives. Most cities and towns have controllers.

Copies of fuel regulations sent to the local coal dealers were also received by Mayor Hughes, who will keep in close touch with the dealers.

**Coal That Has Arrived.**

As far as can be learned, there is now in the city between 28,000 and 30,000 tons of anthracite coal. This is much better than last year at the same time. Soft coal has been coming in very steadily since the opening of navigation. There is, therefore, every indication that the allotment of 46,000 tons will be reached before navigation closes. It is quite likely that with the more general use of soft coal and coke there will be no danger of a fuel shortage this winter.

**At the Grand.**

Last evening's programme at the Grand was one that delighted the capacity house, and all were of the same enthusiastic mind concerning the feature picture, which was "A Bachelor's Children," and had Harry Morey in the stellar role. There was also the Pathe News, a good comedy, and an O. Henry story, besides Moss and Moss in a dancing, talking and juggling act that was exceptionally good. This bill will be repeated to-night for the last time. For Thursday and Friday of this week Sir Johnston Forbes-Robertson, the famous actor of the legitimate stage, will be seen in a five-part Brady-made photoplay entitled "Masks and Faces." In this picture Mr. Robertson is supported by the most remarkable cast ever assembled for stage or screen.

"Masks and Faces" was made for the benefit of a war charity, and it was chosen because it was the only universally known piece of English literature that could afford the proper vehicle for the great array of talent that volunteered. Other films will be a Lonesome Luke comedy, the Pathe News, and two other fine reels. An act of first class vaudeville will hold the boards for these two days only, as "My Irish Cinderella" will open the Kingston theatrical season on Saturday.

**"My Irish Cinderella."**

There is something unique and quaint about "My Irish Cinderella" which gives the play of that name a certain distinction. Peggy McNeil is a little Irish girl, whose parents died when she was quite small, and when the play opens we find her in the poorest of homes. She is taken to London as the supposed granddaughter of Lord Lonsdale, and while here she meets Clifford Morgan, a young American aviator, in the service of the Allies. She falls in love with him at sight, but it would be robbing one of half the pleasure if the whole story were told here. There is enough comedy in the piece to afford a hearty laugh now and then, and in fact there is nothing missing that could make the show more effective than it is. Miss Daisy Carleton, in the role of Peggy, presents a character drawing that is perfect. She is a remarkably clever dancer and during the action of the play has several real song hits. A big scenic production is carried and an excellent company of players is promised by the management. "My Irish Cinderella" will be the attraction at the Grand, Saturday, Aug. 24th.

**At Griffin's.**

Again last evening a capacity audience witnessed, at this popular theatre, Thomas H. Ince's incomparable screen success, "Civilization." This million dollar spectacle comes direct from the Criterion Theatre, New York City, where it still continues as one of the most potent factors in the metropolis. Seldom, if ever, has a production of this kind received such unanimous praise. "Civilization" is best summed up as a screen epic, depicting an idealistic conception of the birth of the millennium and the bringing about of universal peace through the second coming of Christ. As to photography, it probably has never been equalled in motion picture drama. The production in its entirety is superb, and stands for all that is complete, fascinating and illuminating. This great masterpiece will be shown for the last time in this city this evening, at Griffin's.

**At the Fruit Market.**

Blue plums, yellow plums, red plums, green gages, peaches, pears, apples, tomatoes, etc., 250 baskets coming Thursday for Carnovsky.

**DAILY MEMORANDUM**

See top of page 3, right hand corner, for probabilities.

**Familiar Quotations**

A man is not little when he finds it difficult to cope with circumstances, but when circumstances overmaster him.

**Military News**

No more applications from candidates for the Canadian Naval Air Service can be entertained after Aug. 22nd, and any received after that date will not be replied to, but will be filed for future reference.

The left hand salute has been abolished and an order to this effect has been issued to the commanders of all units.

A meeting of the executive committee of the G.W.V.A. was held on Tuesday evening. The membership committee reported that 200 new members had been added to the local branch since July 1st. It was decided to provide office accommodation in the club for Capt. Dimsdale, who has been appointed to recruit returned

soldiers for the Siberian expedition. Capt. Dimsdale served in France with the 8th Battalion and is at present on the staff of the 1st Depot Battalion, E.O.R.

Lieut.-Col. Deacon, deputy-inspector-general, was a visitor at headquarters on Tuesday.

Lieut.-Col. Wilson, A.D.D.S., who leaves for overseas this week, will be succeeded by Captain Wall, of Stirling. Captain Wall is a returned man.

G. A. Powley, Gananoque, is among the wounded reported to-day.
