#### WESTERN CROP DAMAGE

Reports Greatly Magnified—Want 10,000 Harvesters at Once.

Reports previously published regarding the damage by frost to the crops in Saskatchewan were unduly pessimistic. Frequent showers and favorable weather have changed the outlook and it is apparent that the great province of Saskatchewan will have a normal crop. This is evidenced by western demands for farm laborers, as not less than 10,000 are required immediately for harvesting.

Every young man and those more mature in every community in Ontario, including our own, should get away and can make this a great opportunity to serve the country in a practical way, and at the same time be of invaluable benefit to himself. It means an interesting, long-distance journey at low fares, and a chance to see and study the immense new country served by Canadian Northern—the People's Road.

Final excursion, by Canadian Northern trains leaving Toronto 10 p.m. Sept. 11th. Harvesters from outside points to use connecting trains to Toronto.
