Mill Feeds at Montreal.
In Montreal sales of feed cornmeal are being made at 68¢, pure grain moulting at 67¢ to 68¢; barley feed at 63¢ to 64¢, mixed moulting at 55¢ per ton, including bags, delivered to the

The Market Reports

trade, while bran is quoted at \$37, and shorts at \$42.
Bean Market.
Prospects appear to be for an unusually heavy crop of beans in Ontario this year. Acreage is large and yield per acre is promising. Banking on this, dealers are predicting lower prices. At present Montreal dealers are quoting hand-picked at \$8 to \$8.50 per bushel.

Grain.

AMERICAN LOCOMOTIVE
Have Surplus of \$65.75 a Share After All Payments.
New York, Sept. 13.—The annual report of the American Locomotive Co. is expected to show net earnings after charges before federal and Canadian taxes of about \$10,125,000, compared with \$9,506,000 in 1916-17 period. Assuming the accuracy of these estimates, American Locomotive has earned net for its common stock since the middle of 1915 of about \$75.50 a share.

Dom Steel a Big Spender.
Charlottetown, P.E.I., Sept. 13.—Mark Workman, of the Dominion Steel Corporation, and E.M. MacDonald, ex-M.P. of Pictou, spent the last three days here. The former in an interview stated that his company was spending about thirteen millions in extensions.

U. S. September Payments.
New York, Sept. 13.—Dividend and interest payments during the month of September in the United States will aggregate \$243,312,000. Dividend disbursements to stockholders will amount to \$82,200,000, as compared with \$87,689,000 in the corresponding month last year; and interest payments on bonds and notes will total \$161,112,000, as against \$70,000,000 in September, 1917.

Bronze Powder Trade.
New York, Sept. 13.—The United States industries use practically 6,000,000 pounds of bronze powder annually, and 35 per cent. of the total consumption was formerly imported from Germany, but it is now "made in America." For many years German manufacturers have been practically controlling the bronze powder trade, due to the fact that they have been offering prices which were less than those of the American producers. Bronze powder is manufactured in over 200 grades, differing in color and texture.

New Glass Company.
Montreal, Sept. 13.—The new Consumers' Glass Company is now in active operation, and turning out bottles as well as a varied line of other glassware. The plant is claimed to be one of the most up-to-date of its kind on the continent. The company, which is headed by E. P. Jones as president, was financed by interests closely identified with the Canada Cement Company.

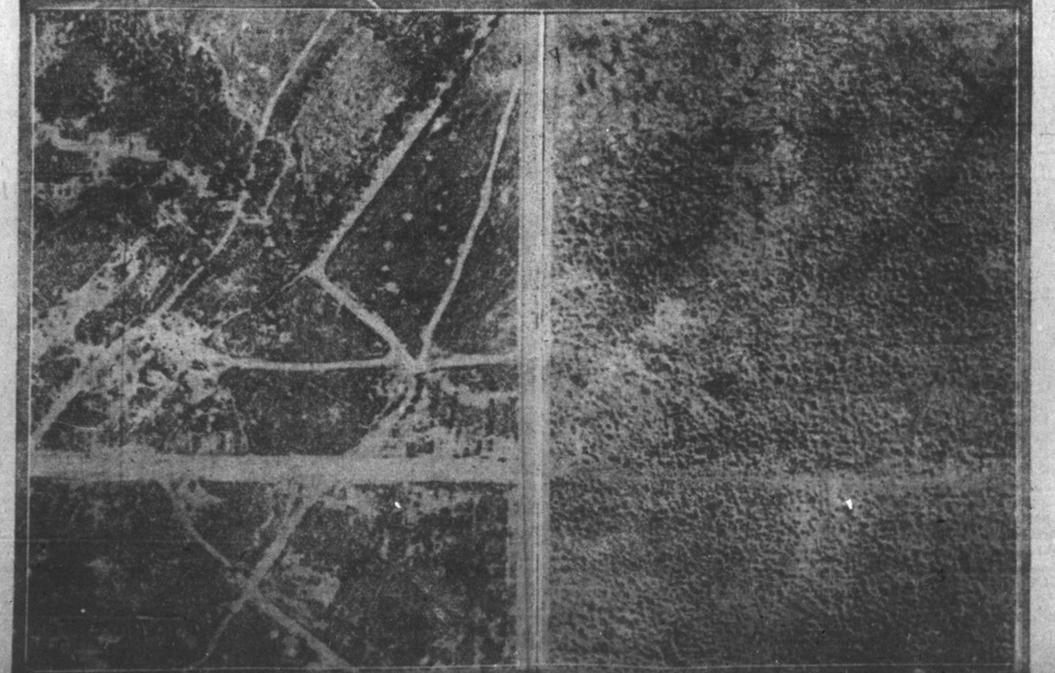

Commercial Notes.
There is every prospect that the Standard Chemical, Iron and Lumber Company will show earnings during the present year equal to those of 1917.
The Monetary Times estimate of Canada's fire loss during August, 1918, is \$3,110,445, compared with the July loss of \$3,369,684, and \$1,230,183, for August, 1917.

Teach the Children to Save
Habits are acquired early in life. Children, who are taught the value of money and the habit of saving, grow up into good business men and capable women.
The easiest way to teach children to save, is to start a Savings Account for each child (\$1.00 each is sufficient). After a child has saved another dollar to make an additional deposit, he or she will have a better appreciation of just what a dollar stands for, and how much work and self-denial it represents.
