

RED WAR WITHOUT SENTIMENT

The Emma Gees

By Capt. Herbert W. McBride, Machine Gunner, Twenty-first Canadian Battalion, Kingston.

This interesting story follows the course of Gunner McBride's experience as a member of the Machine Gun Section of the Twenty-first Canadian Infantry Battalion, mobilized at Kingston, Ontario, in October, 1914.

DEDICATION
In Flanders fields the crosses stand—
Strange harvest for a fertile land!
Where daisies, wheat and barley grow,
With scarlet poppies running through,
This year the poppies bloom to greet
Not only heroes, now or white wheat,
But only crosses, row by row,
Where staid warriors used to go.—Driscoll.

SAVE GAS!

AN APPEAL TO LOCAL PATRIOTISM

Just as you have been asked to Save Gasoline, so now you are asked to Save Gas—and we believe that the response to this appeal by the people of Kingston will be as hearty as was the response on Sunday to the Fuel Commissioner's appeal re Gasoline.

At the moment it is impossible for production in our gas plant to keep pace with normal consumption, and we accordingly appeal to those who can save gas to do so until present conditions are remedied.

Help us and help the city by saving gas.

PATRIOTISM BEGINS AT HOME!

GOSSIP HEARD ON THE SIDE

WITH SOME TIMELY COMMENT IN A DAY'S ROUND.

Everybody Talking About The Fair Next Week—Quite a Number Have Lost Their Registration Card—Auction Sales Are Popular.

Everybody is talking about the fair which opens on Tuesday next, and everybody is pulling for good weather. Judging from the comment heard on the street, the old fairgrounds will be filled to overflowing during the four days and nights of the big show will be on. Owing to the fact that there has been so much rain, the citizens are wondering if there will be rain next week.

"Bob" Bussell is not worrying at all about this. Asked what he thought about the weather by the Whig, "R. J." winked his eye and said, "Don't worry about the weather. I've got that fixed; get the crowd to come out, and that is all that will be necessary to make the fair a success."

Citizens are looking for a great fair and a great outing. All roads will certainly lead to the fair grounds next week.

The street railway company, the "cabbies" and taxi men are looking for a big week's business.

It is strange how many people have been careless in regard to their registration cards, and have allowed them to slip out of their possession. Postmaster Stewart has received several applications for new cards, and following out the instructions, he has informed the people minus their cards that they must write to the Registration Department at Ottawa. On Friday afternoon the Postmaster had a married couple wait on him and inform him that they had lost their cards. The couple intended making a trip across the border on Saturday, and were very much disappointed when informed that they would have to wait until they secured a new card on instructions from Ottawa.

Auction sales are just as popular as ever. Auctioneer Allen held forth in the market house on Friday afternoon, and the building was filled with people. As usual, there was everything on sale from a needle to an elephant. Before the sale started the goods were as usual given the "once over" by the crowd.

Men are engaged in cutting out some of the trees in City Park. The park is pretty thick with trees, and the weeding out of a number is certainly a good policy.

The watering carts have not been overworked this month. Old Jupiter Puvius has been doing the work of the water-wagons. The cool weather has also caused a falling off in the demand for ice. Good-bye summer.

Our school boy contributor to-day handed in the following: The autumn days are here, the greatest of the year, when the "kids" they eat green apples. And get their stomach out of gear.

CONVERTED IN GERMANY.
Bishop Fallon Dropped Fenianism After Visiting Germany.
Bishop Fallon of London, Ont., who has been overseas visiting the Canadian forces knows Germany as well as Britain. In a speech made to Canadians while overseas Bishop Fallon is quoted as saying:

"I was born a Fenian, and a Fenian I remained until I went to Germany. It was when I went to school in Germany that I learned the truth. It was there that I discovered that the dear old motherland, so far from being an enemy of liberty personified, was the land where the great forces of work whose aim it was to overthrow and to destroy this bulwark of liberty. And I left Germany a Britisher to the core."
