

The Final Phonograph

With the Ultona Sound Box Plays Any Record Made Better.

At the Toronto Exhibition crowds stood around the exhibit of Brunswick Phonographs and were absolutely astonished at the clearness and naturalness of the Brunswick with the Ultona Sound Box, playing Brunswick, Edison, Pathe, Victor and Columbia records with changing to any different parts or pieces. This makes

THE LAST WORD

In phonographs as you have all the records of all manufacturers at your disposal to pick and choose, and your Brunswick will play them better than the machine they were originally made for.

Why?

Because it is made by the old wood working institutions in this country who have been making cabinets for leading phonograph makers for years. They pick out the best ideas from all these different machines and place them in one.

FINAL PHONOGRAPH

For you. Is this not what you want. Come into our store and see and hear this wonderful machine.

MONUMENTS!

Importers of Scotch and American Granites, Vermont Marble, The McCallum Granite Company, Ltd. 307 Princess Street. Telephone 1931

The sympathy of the sporting public of Canada goes out to Charlie Querre in the announcement of the death of his younger and only brother, Flight-Lieut. Harry W. Querre. The young lacrosse player—he followed in the footsteps of his brother as an exponent of the gutted stick—was killed in an airplane accident in England. He leaves a wife and young son. The rugby players are beginning to "dig deep" for the moleskins, and the old pigskin is being booted around these days. The O.R.F.U. is endeavoring to make an early start this fall.

In the World of Sport

BABE RUTH'S UNIQUE HOME RUN RECORD

He Hit Them in Streaks and Two Were Off Walter Johnson.

One of the curiosities of the past season was the home run record of Babe Ruth. The Red Sox pitcher finished the month of June with 11 home runs to his credit, and he finished up the regular season on Labor Day with those same 11 homers. An odd feature about Ruth's performance was that he was not played regularly up to the time he developed the home run fever in June. He clouted eight for the circuit in that one month and was played regularly through July and August without once hitting a home run. Ruth hit his homers in clusters. Three came between May 4th and 7th, four between June 2nd and 5th, one on June 15th, and three more between June 25th and 30th. He got three against New York, three against Washington, three against Detroit, one against Cleveland, and one against St. Louis. None of the homers were made at Fenway Park. Two were off Walter Johnson.

CANADIAN OARSMEN ROWING ON THAMES

Khaki University of Canada Makes Headquarters at London Rowing Club.

The London Rowing Club, whose president, Percy Adcock, has been devoting a good deal of time to coaching Canadian service oarsmen, was the headquarters of a regatta held by the Khaki University of Canada Boat Club, at Putney. The short programme carried out provided some close and exciting finishes. There were twelve entries for the single sculls, the winner being R. C. Wood, who finished comfortably ahead of S. Wilson and W. L. Doyle. Less than a couple of feet separated the Canadian Pay Office and the Canadian Forestry Corps at the finish of the race for fours, the first-named winning. The scratch eight was won by about a canvas by the crew composed of Sims (bow), Walters, Wolfe, Peters, Webster, Sherriff, A. G. Robertson, Jackson (str.), and C. H. Robertson (cox).

SOCCER AND BASEBALL MOST POPULAR GAMES

Canadian Soldiers in France Show Preference in Requests for Goods.

Athletics have reached gigantic proportions in the operations of the Canadian Y.M.C.A. overseas. During seven months ending July 31st last, over 31,000 balls for all kinds of games have been sent to France. These include baseball, indoors and out, soccer, football, badminton, lacrosse, tennis and volley balls.

Baseball accounts for most of the above, the proportion being 10,000 balls and 1,200 bats. Nearly 5,000 fielders' gloves were provided, and 620 first base mitts, 375 deckers, 625 masks and 485 protectors completed the equipment for this game alone. Indoor baseball received 6,000 balls and 3,000 bats. Soccer called for 4,500 balls with 1,300 extra bladders, this game far outdoing football, whose requirements were met with 100 balls and half that number of bladders.

Clothing for the players called for 17,200 shoes, 17,900 jerseys and 15,000 nickers. Among the miscellaneous items provided were 74 pistols with 15,000 cartridges, 100 megaphones, 100 tape measures, 6,000 yards tug-of-war rope, 650 sets boxing gloves, and 350 sets of quilts.

Shortest Nine-Inning Game.

A baseball record that is likely to be permanent in the dope books was established eight years ago today, on the Southern League lot in Atlanta, Ga., when Atlanta defeated Mobile, playing full nine innings, in exactly 32 minutes. The nearest approach to it was a game which lasted ten minutes longer, and which was played in 1912 at Binghamton, when the local club of the New York State League and the Albany team rushed through the contest in 42 minutes.

In September 1904, Atlanta was the scene of another hurry-up contest when the Crackers and Shreveport pulled off a pastime in 44 minutes. Back in 1898, San Francisco and Oakland turned the trick in 47 minutes, which then constituted a record, tying the one set up in 1884 by the Dayton and Ironton O. clubs. It is coincidental that all but one of these exceptionally rapid games were played during the month of September.

The time record for a double-header of two full games was sung up in 1905, with the Oakland and Los Angeles clubs of the Coast League doing the rush stunt. They tore off the first pastime in 47 minutes and 30 seconds, and the second in 51 minutes, the two contests requiring an hour and 38 1-2 minutes.

England Found Dogs Valuable.

England has found the dog most valuable in war work. In England they have several camps for the training of dogs and a few weeks ago the British Government called upon the farmers of Great Britain and her colonies for dogs and more dogs. The Government pays all shipments to the camp and furnishes the owner with a bill of receipt and promises to return the dog to him after the war, providing he survives. The breeds especially sought are Great Danes, Mastiffs, St. Bernards, Newfoundlanders, Airedales, Retrievers and Collies. Only males, not less than a year and a half old, will be accepted.

Waves, like some men, arrive at the seashore in grand style and go away broke. If a man can't be bought you can usually land him with flattery.

CORP. COOPER SMEATON. Well-known Montreal sportsman who, it is said, has been recommended for the D.S.M.

Britt a Good Monologist.

James Edward Britt, the same little fellow who climbed to the top notch of pugilistic fame away back in 1904 by winning the lightweight championship of the world after 20 gruelling rounds with Young Corbett, is doing well in vaudeville as a monologist. There's nothing about the appearance of James Edward that would lead one to connect him with the prize ring. He's a real entertainer now and he interests his audience in a much different manner to the way he interested Young Corbett and other lightweight of his time.

For Hindy Tannet. Somewhere the sun is shining. Somewhere the people shout; But there is no joy in Junkerville, For Hindy has struck out.

Compulsory Boxing? Boxing will be a part and parcel of the curriculum of the San Francisco high schools if President George E. Gallagher of the Board of Education and Superintendent Roncovieri have their way. A resolution is ready for the board to have the physical instructors teach boxing.

And there's not likely to be any opposition. "Put me down as in favor," said Superintendent Roncovieri. "I feel that boxing ought to be taught in every high school, and perhaps we can start lower down. I hope they put that through in a hurry."

High school teachers already interviewed have expressed themselves in favor of the move, and it is likely will be taken at once.

New Work for Ladies.

Seemingly girls are being employed in some racing stables in New Zealand. A Wellington exchange mentions that there was recently an exciting incident at Riccarton (Christchurch) during training operations. Vascular, with a young girl in the saddle, and Red Book, on the lead, broke away from the centre of the course and made a bee line for the scraping sheds.

Australian Swimmer Killed.

Lieut. Cecil Healy, a well-known Australian swimmer, was killed by a bullet on the Somme battlefield Sept. 1st, according to Le Journal, of Paris. The lieutenant led a party of 300 swimmers across the Somme, enveloped the enemy positions, and captured Mont St. Quentin, the key to Peronne.

Football appears to be coming back to its own in Ottawa this fall. Three city leagues are in the making. In addition the proposed series between the Ottawa and McGill fourteen is almost sure to be played.

Diamond Construction Makes a Derrick Strong

The derrick is strong because it is supported in every direction by sturdy diagonal braces that form diamonds everywhere. The battery is strong because its plates, like the derrick, are built on the diamond principle. That is why the plates do not buckle nor lose their active material. This is why the battery can be guaranteed for eighteen months. That is why we are the official Philadelphia Service Station. Expert battery recharging and repairing. Free inspection—any battery—any make, any car, any time. Drop in to-day and let us look at the condition of your battery.
