NOTICE—MILITARY SERVICE ACT, 1917 REGISTRATION OF UNITED STATES CITIZENS

Male citizens of the United States living in Canada of AGES 21-30, both inclusive, MUST REGISTER BY REGISTERED POST with the Registrar under the Military Service Act of the district in which they live, during the TEN DAYS NEXT FOLLOWING SEPTEMBER 28th, 1918; and such CITIZENS OF THE AGES 19, 20 AND 31-44, both inclusive, must so register during the TEN DAYS NEXT FOLLOWING OCTOBER 12th, 1918. It must be emphasized that THIS INCLUDES AMERICANS LIVING IN CANADA OF THE ABOVE AGES, MARRIED AND SINGLE, and INCLUDES ALSO ALL THOSE WHO HAVE SECURED DIPLOMATIC EXEMPTION OR HAVE REGISTERED WITH AN AMERICAN CONSUL, OR HAVE REGISTERED FOR MILITARY SERVICE IN THE UNITED STATES.

Registration letters may be handed to local Postmasters for despatch to the proper Registrar, under the Military Service Act.

MILITARY SERVICE BRANCH.

NOTICE—MILITARY SERVICE ACT, 1917 MEN EXEMPTED AS FARMERS

Having in view the importance of leaving a sufficient number of men on those farms, which are actually contributing to the National Food Supply, notice is hereby given as follows:

1. ALL MEMBERS OF CLASS I POSSESSING EXEMPTION AS FARMERS which is expiring and WHO WISH TO REMAIN EXEMPT should communicate with the Registrars under the M.S.A., of their respective districts, REQUESTING AN EXTENSION IN TIME OF SUCH EXEMPTION. Questionnaires will thereupon be issued to these men by the Registrar and they will receive further exemption upon furnishing satisfactory proof that they are contributing sufficiently to the National Food Supply.

2. In order to facilitate productive employment during the Winter months, MEN EXEMPTED AS FARMERS SHOULD APPLY TO THE REGISTRARS FOR PERMITS TO ENGAGE FOR THE WINTER IN SOME OCCUPATION OF NATIONAL INTEREST, SUCH AS LUMBERING, MUNITION WORK, ETC. Such permits will serve to enable exempted farmers to pursue other useful occupations for the months during which farming operations cannot be carried on.

MILITARY SERVICE BRANCH.

LOCAL FUEL CONTROLLER

TO BE APPOINTED BY THE CITY COUNCIL.

The Finance Committee to Recommend an Official Within a Week—W. F. Nickle, M.P., Urges an Appointment.

The City Council on Monday evening placed itself on record as being in favor of appointing a fuel commissioner for Kingston in view of the threatened shortage of coal. The Finance Committee was instructed to report to Council by the 7th of October the name of a suitable commissioner and the salary, if any.

W. F. Nickle, M.P., at the request of the mayor, outlined the fuel conditions and strongly advised the Council to appoint a commissioner. Where a municipality did not appoint a commissioner, the fuel controller for Canada assumed that the conditions in that municipality were satisfactory and that it did not need to secure any more coal. Last winter Kingston used 53,000 tons of hard coal. For this winter Kingston's allotment was 46,000 tons. Mr. Nickle declared that the coal dealers had a hard time ahead of them. It would have been wiser, in his opinion, to have had a fuel commissioner during the past summer. However, if a mistake was made by not appointing one earlier, let the Council do the best with the situation that confronts the city now. We do not want a crisis. In justice to the consumer, the coal dealer and the coal controller, a commissioner should be appointed to take charge of the situation here. It was highly necessary that fair prices be charged for coal and that there should be equity in distribution. The Dominion controller, Mr. Nickle pointed out, says that if Kingston does not act in the matter of appointing a commissioner, it assumes the responsibility of the conditions that may arise between now and the 31st of March next.

Ald. Newman's Motion. Ald. Newman moved, seconded by Ald. Kent, that a fuel commissioner be appointed and that the Finance Committee recommend a satisfactory official and the salary, if any, and report back to Council not later than the 7th of October.

Ald. Kent said that Mr. Nickle had summed the matter up very satisfactorily. He was satisfied that the dealers had handled the coal situation as best they could, in so far as giving the people seventy per cent of their needs. Ald. Kent felt that Kingston should certainly take advantage of the Canadian fuel controller's good offices in case they were needed during the winter.

Mayor Hughes called upon the Trades and Labor Council representatives present to express their views. W. J. Driscoll, in response, stated that the labor men had last spring favored the appointment of a fuel controller. Many people had secured coal, but there were many others who could get none. The labor people had in mind to show that some people had more than 100 per cent of their coal requirements in their cellars. Those less fortunate faced a hard winter. If there was going to be a shortage of coal, Mr. Driscoll said that the laboring class should not alone suffer. The shortage should be borne by all classes alike. Mr. Driscoll also made reference to the prices charged for coal. The prices were not the same in all coal yards here, but they were higher than in many other places in Ontario not so well situated as Kingston.

Ald. Newman said he was satisfied that some people had more coal in their cellars than they should have. Had a fuel controller been appointed last spring, conditions would have been better now.

Ald. Wright agreed with Mr. Nickle that it was not yet too late to take advantage of the good offices of a fuel controller. Although the coal dealers had done the best they could, yet he was convinced that many people had more coal stocked in their cellars than they had last winter.

Ald. Armstrong Opposed. "I opposed the appointment of a fuel controller last spring, declared Ald. Armstrong, "and I oppose it again."

"If the people use their efforts to get coal into the city, the dealers will do all the controlling necessary. The city would be wasting money in paying a fuel controller," Ald. Armstrong claimed.

"The appointment of a commissioner will not bring one more pound of coal to Kingston," added Ald. Armstrong, who pointed out that the Army and Navy Veterans' Association took the view that no fuel controller was needed here.

Ald. Litton disagreed with Ald. Armstrong as to a fuel commissioner not being able to secure more coal. According to Mr. Nickle, the Canadian controller regarded a municipality as being not in need when it appointed no commissioner.

Ald. N. A. Smith said that from the first he had gone on record as being in favor of a fuel commissioner. He claimed that if a commissioner had been appointed last spring fully 2,000 tons of coal could have been saved by making some concerns burn coke or some other kind of fuel during the summer. Ald. Smith declared that if deaths occurred this coming winter through houses being without sufficient coal, the Council would be partly to blame if it did not do its part by appointing a coal commissioner. Ald. Smith remarked that he represented about 1,800 laboring men in the city, and nearly all of these men favored a fuel controller.

Ald. Anglin was also in favor of a fuel commissioner who would help both consumers and dealers.

Favored Council Committee. A committee of the Council could control the fuel situation, Ald. J. W. Smith claimed. If a controller was paid, it would mean a dollar a ton added to the price. Ald. Smith claimed that there was no shortage of coal. The trouble was in getting the coal carted. He claimed that the dealers were handling the situation just as well as if there was a commissioner. It was necessary to protect the poor, and this could be done by appointing a committee of Council

If Strength Declines As Age Advances Follow This Suggestion

So many women grow old before their time, perhaps your wife or sister. A little while ago, buoyant, full of vigor and activity—she enjoyed life and imparted pleasure to the whole family; but now in a few short years she has faded and lost color and strength. She is just ready to develop some disease that will further weaken and debilitate. You remember how it began, failure of appetite, tired in the morning, and household burdens, always near you and a little irritable. It's a shame to let her go down hill further when you can build her up so quickly with Ferrozone. The change this nourishing tonic makes in a weak woman is surprising. It gives great zest for food, increases appetite and digestion enormously. The blood gets richer and stronger and adds new life to every organ in the body. A rebuilding process works through the entire system. The first week will show an improvement, and a month or two will fatten up the thinnest, most run-down woman you can think of. Take Ferrozone for lost color, for nervousness, for weakness—use it when "run-down" and feeling poorly—it will do you more lasting good, keep you in better health, than anything else. Just as good for men and children, too, because Ferrozone is harmless and safe, 50c per box or six for \$2.50, at all dealers.

arrange with the dealers for a fair distribution. "Some thousand tons of coal has gone into the country, hereabouts," said Ald. Litton, who claimed that many farmers who had lots of wood close by had driven coal from the city. A commissioner could have regulated this.

Ald. Simmons stated that he had been in eight cellars one day recently. Six of these had no coal and two were laden to the very joists. One lady who burned nineteen tons last winter, had already four tons in her cellar and expected seven more tons.

Mr. Nickle, in replying to Ald. Armstrong, estimated that he had done his duty as member of the municipality in urging the appointment of a fuel commissioner in view of the threatened crisis.

Ald. J. W. Smith still claimed that no salary should be paid a fuel commissioner. A committee of Council should act. "If there is any alderman who is willing to act as fuel commissioner without salary, let him declare himself," remarked Mayor Hughes. As there was no response, the mayor put Ald. Newman's motion, which was adopted by a vote of 15 to 2. Ald. Armstrong and J. W. Smith alone opposing it.

Parking By-law Amended. Ald. Newman presented a by-law to amend the traffic by-law respecting parking of vehicles on Princess, Brock and King streets in the business section. Heretofore, vehicles, excepting those of merchants before their own stores, have been prohibited from standing longer than ten minutes. This regulation has proven unsatisfactory, and it was decided to change the time to thirty minutes, as provided for in the by-law Ald. Newman presented. Mayor Hughes stated that the Kingston Motor Club would ask Council shortly to make several other changes in the traffic by-law.

In attendance were Mayor Hughes and Ald. Black, Clugston, Chown, Corbett, Hooper, Kent, Hewitt, Litton, Norris, Newman, Peters, Simmons, J. W. Smith, N. A. Smith, and Wright.

Pte. M. J. Woodcock Killed. Pte. M. J. Woodcock, 521 Princess street, received word on Saturday that her brother, Pte. M. J. Woodcock, 15th Battalion, had been killed in a ton on August 28th.

The marriage occurred on Sept. 19th of Richard E. Logan, A.M.C.I., Toronto Base Hospital, son of Robert Logan, Tweed, and Annie E., youngest daughter of James Girven, Peterboro.

Mr. and Mrs. H. S. James, Toronto, announce the engagement of their second daughter, Agnes Winifred, to Archie Knight, eldest son of Mr. and Mrs. George S. Knight, Renfrew.

Editor Clarence G. Young, of the Trenton Courier, is recovering from typhoid fever.

KINGSTON EVENTS 25 YEARS AGO.

A walking match has been arranged between J. Healey, G. Patterson and W. Gaudier, the course to be between Kingston and Gananoque.

Messrs. Donnelly and Murphy, divers of this city, have been called to make a diving to recover bodies of victims of the Fraser disaster.

Edwin and Hugh Elliott have purchased from the Synod of Ontario the farm lately owned by Matthew Elliott, on the Perth Road, near Kingston.

PURE RICH BLOOD PREVENTS DISEASE

Bad blood—that is, blood that is impure or impoverished, thin and pale, is responsible for more ailments than anything else.

It affects every organ and function. In some cases it causes catarrh; in others, dyspepsia; in others, rheumatism; and in still others, weak, tired, languid feelings and worse troubles.

It is responsible for run-down conditions, and is the most common cause of disease.

Hood's Sarsaparilla is the greatest purifier and enricher of the blood the world has ever known. It has been wonderfully successful in removing scrofula and other humors, increasing the red-blood corpuscles, and building up the whole system. Get it today.
