Sheaf exhibit, wheat, spring or fall, J. S. Sibbett. Sheaf oats, any white variety, J. S. Sibbett. W. J. McNeil, Government grain inspector.

Air-Heated Suits.

In order to protect military air-men from the intense cold of the upper atmosphere, and also free them from the burden of cumbersome, heavy garments, an ingenious idea has been promulgated, consisting of an air-heated one-piece suit. The garment is made of two layers of material, and supplied with a system of air conduits extending to its various extremities. Air, taken in through a funnel mounted behind the propeller and warmed by passage through a coil surrounding the motor's exhaust pipe, is carried into the main artery of the suit by a flexible tubing connected at the rear. The heat circulates into the gloves and shoes worn by the airman and rises around his body, while cool air passes out through valves. — The Bits.

Meat in Saxony.

Camel meat, dog meat and horse meat are being eaten in Saxony by the poorer classes, according to the Berlin Tageblatt of April 2, a copy of which has been received here. The camel is being sold in Zwickau and comes from the mohair camels of the Hagenbeck Menagerie, which gave a show in Zwickau in March. The camels were sold to a butcher because of lack of fodder. The larger camels gave from 300 to 400 pounds of meat. Consumption of dog meat and horse meat has increased greatly owing to the war-time scarcity of meat and the price also has gone up. Dog meat sells for 2 marks 75 pfennings a pound and horse meat at 1 mark 80 pfennings.

A Threadbare Phrase.

At a London club of writing men—chiefly from Fleet street—there was an informal debate recently as to which is the "most over-employed phrase of the war." Thirteen members took part in the argument, and on the question being put to a vote, it was found that twelve were of opinion that, without doubt, the most overworked phrase was: "When the history of this war comes to be written."

ROCKVILLE-PRESCOTT ROAD.

To be Linked Up With Kingston-Brockville Provincial Highway.

Brockville, Sept. 30.—The Brockville and Prescott road for a distance of twelve miles, which was recently relieved of four toll gates, is to become part of the new provincial highway.

The Brockville people were about to send a deputation to Toronto to urge upon the Government the desirability of making this part of the new Government system. A. E. Donovan, M.P.P. for Brockville, states this will not be necessary, as he has been absolutely assured by Hon. F. G. McDiarmid, Minister of Public Works, that the road will go direct from Kingston to Gananoque, and on to Brockville and Prescott, and from there to Ottawa, and that it be designated in the near future.

BOVRIL Gives Strength to Win

The Dreaded Message

It is the women that have suffered most in this terrible war— "For men must work and women must weep." Theirs has been the worry and anxiety. The watching and waiting in constant dread of what might happen. Because mental suffering is far more distressing and debilitating than physical pain and discomforts women have had the greatest burden to bear. The strain has been both severe and long, and the result is an alarming increase in diseases of the nerves. Nervous headaches, neuralgic pains, nervous prostration and exhaustion, restlessness, irritability and melancholy. These are some of the indications of nervous breakdown. The building up of an exhausted nervous system is oftentimes a somewhat tedious process, but with the persistent use of Dr. Chase's Nerve Food you can be sure that restoration is both natural and lasting. Get out into the fresh air as much as possible. Seek the companionship of healthy, cheerful people, and depend on this food cure to enrich the blood and sup-
