monopolize. Dearth of shipping and the world-wide wastage of raw ma

terials have brought home to us th

fact that we, too, have been allowing vast quantities of valuable "rubbish' to go to waste. The birth and growth of the salvage idea will make an en-

thralling story when it comes to be written in full. Our armies have been

the pioneers in this work . A single

example will serve to show how

magnificently this enthusiasm has

borne fruit. The refuse from arm;

kitchens has yielded sufficient tallov

to propel 23,000,000 eighteen pounder

Rubbish Helping Win the War.

Salvage Council, the story of salvage

has entered upon a new chapter. It the army's "rubbish" could provide

such treasures, why should not the

the war? This is the question which

mous. . Every dustbin contains ma

terial which the nation needs, and there is practically no kind of "waste"

that has not its uses in these days of

scarcity. The bones that are too often burnt or mixed with ashes are

la perfect treasure house of valuable

Glue which enters so largely into

the manufacture of aeroplanes, and

valuable poultry food. It is fallacy again to suppose that no fats are go-

ing to waste. An example from the

enemy's country can teach us some-

thing on this point. About a year

ago the German Government took

steps to save the grease that was go-

ing to waste from large hotels and institutions, adopting the usual meth-

tion was decidedly smaller than our
