

"The Price in the Pocket"

Semi-ready Tailored

No matter where you buy or when you buy a Semi-ready Suit or Overcoat the price is the same. In the East or West, North or South, the same price is on the label in the pocket. Look for that label.

A \$25 Suit here costs \$25 in Montreal, Toronto, Winnipeg, Vancouver or Halifax.

That is one of the nine reasons why men like and trust the Semi-ready tailored garment.

That label price is based on the wear, value and cost of cloth—there is a uniform standard of work.

The Value of "Made-in-Canada" Goods to Retailer and Consumer

EVERY dollar you spend in Canada for Canadian-made goods helps to keep the wheels of industry turning. Every factory kept running to capacity, no matter where it is located in Canada, helps to build up all Canada.

Yet there are being sold in Canada to-day cheaply-made, "shoddy" foreign goods in place of reputable articles made in Canada.

Sometimes there are so-called reasons for this—but most frequently it occurs through lack of thought on the part of the buyer or seller, or both. The increased profit obtained by the retailer on the transaction is as nothing compared to the fact that the bulk of the sale price is permanently lost to Canada—it will never pay its share of local improvements or help to build a credit-able city for other than foreigners in a foreign land. The Canadian Manufacturer stands back of his goods—the foreign maker is unknown—sometimes even to the retailer. No more specific instance can be found than in Electrical Equipment—no more glaring instance of fraud than the manufacture of cheap, inferior, uninspected and dangerous imitations of goods copied from well-known Standard lines of Electrical Devices. Every one of these specific instances of unfair trading that can be eliminated is so much toward the betterment of Canadian Industry, the maintenance of business integrity, the safety of Canadian homes, and the upbuilding of Canada itself. If you would do your share—one way is to

The money is yours!

You have earned it. But—

Will you use it for Canada or against Canada? Will you save your money and help to shorten the War? Or will you buy what you want, go wherever your pleasure dictates, dress as well or better than you always have dressed, indulge such whims as you can afford?

You must choose

The money is your own to do as you like with. But when you buy what you do not need—urgently need—your money actually works against Canada. For, it represents precious materials and labor, both of which are absolutely essential to the army. Your money uselessly spent delays all-important war work—merely for your self-indulgence.

It is possible that unwittingly you are doing this very thing. Remember Canada's need. Let not Canada's sacrifice go for naught. Thrift, self-denial, patriotic privation, give us who stay at home the glorious privilege of a share in the great struggle for human freedom.

You would not, knowingly, stop the progress of Canada's war efforts. You would not prolong the war. You would not let your money work for Germany. But

Save your money for Canada, and for Canada's fighting men. Save your money to bring nearer that day we all long for—the Victorious end of the War.

Fatal Mistake to Ignore Nature's Danger Signals

Slight Kidney Troubles Soon Develop into Chronic Complaints

You Can't Neglect Nature's Warnings and Remain Healthy

Danger cannot always be seen—and because of this fact many people have entirely ignored Nature's danger signals—with the result that to-day hundreds are suffering unnecessarily from chronic kidney and bladder troubles.

It is the old story. You feel that something is wrong in the region of the kidneys and bladder, but because you don't suffer acute pain right at the start you conclude that there is nothing very serious the matter and fail to remedy the defect. That is the fatal mistake.

Nature's Methods of Warning.

When Nature warns you by a pain in the back, headaches and dizziness that there is poison in the blood stream, you can readily conclude that your kidneys are out of order and need immediate attention and assistance. You may say to yourself, "That will pass away in a day or so," but the truth of the matter is, it won't, for once those delicate organs are affected, the congestion must be speedily removed or chronic kidney trouble will develop.

The Function of the Kidneys.

Pictorially the condition yourself. The kidneys are the great blood filters, and when they fail to clean the urine and other impurities from the blood, these are carried through the system again and lodge in muscles and joints, setting up infection, which results in rheumatism, lumbago, sciatica, etc.

How to Remedy the Cause.

You can readily understand yourself, without our going into further detail, that if kidney and bladder troubles are to be cured the cause must first be removed, and the kidneys removed to perform their proper function of purifying the blood. This is exactly what Gin Pills are for and what they do. Gin Pills remove the congestion from the kidneys, strengthen them and re-establish their proper function. In this way the blood is purified and the disease germs carried out of the system.

Gin Pills have relieved the sufferings of hundreds of Canadian men and women. Mrs. Ross writes from Comox, Cumberland Hospital, Vancouver Island: "I came here from New York about five months ago crippled with rheumatism. I was unable to

affected—use Gin Pills and be sure of safe, sure and speedy relief.

The Danger Signals.

Here is a list of Danger Signals that warn you of Kidney and Bladder derangements: A dull ache or pain in the back, pains in the sides and groin, Brick Dust Deposits, Painful Urination, Dizziness, Constant Headaches, specks floating in front of the eyes, a general feeling of lifelessness, swollen ankles or joints, Sciatica, Pains, Symptoms of Rheumatism, Lumbago, etc.

Any of these warnings should convince you that your kidneys need assistance. That congestion must be removed at once or grave results will follow. Don't hesitate and think you will be better to-morrow—you won't!

Time, unassisted, never remedies kidney derangements. A case like this Nature needs Nature's Remedy, and that is found in Gin Pills.

A sample free on request. Gin Pills are sold everywhere for 50c a box. A free sample will be sent to you if you write us for it.

WARNING

That pain in the back is a danger signal. Pain in the back is one of the commonest symptoms of kidney trouble. It is Nature's way of telling you that your kidneys are tired, congested and need immediate assistance, or they cannot keep the blood stream purified.

You know the rest. Once the blood stream is poisoned, a chain of diseases follow, and you probably become an invalid. So warned.

GIN PILLS

and free yourself from the ravages of all Kidney or Bladder ailments, Brick Dust Deposits, Painful Urination, Backache and constant Headaches.

Gin Pills have brought relief to thousands—they will do the same for you. Try them.
