PALMER COULDN'T RAISE HAND TO HEAD

Every Muscle in Body Ached With Rheumatism—Like New Man After Taking Tanlac.

"I have just lived in Portland for thirty years and there are just a few people here who know old Tanlac has made a new man of me," said J. H. Palmer, the well known transfer and baggage man, residing at 266 Knott street, Portland, Ore., recently.

"I have been a sufferer from rheumatism twenty-five years," continued Mr. Palmer, "and reached the point where I never expected to get well, or even any better. I spent thousands of dollars trying to get relief, but gradually got worse. Every muscle in my body seemed to be drawn up, every joint stiff, and I could not move without suffering agony. When I walked instead of lifting my feet, I would just have to drag them along, and if my life had depended on it, I could not have raised my hands high enough to touch the back of my head. I was laid up for more than two years at one time. After sitting down for a while I couldn't get up without holding onto something and after I did get on my feet it would take me several minutes to straighten myself up. During the past year or two my condition became very much worse. My whole system seemed to be run-down. My kidneys bothered me nearly all the time, my back hurt me, and at times I would almost scream from pain."

"I also suffered from indigestion. My stomach would bloat up after eating and my food would sour and add more to my misery. I would lay awake more than half the night rubbing my arms and legs trying to get easy so I could get a little rest. I would get awfully blue and dependent over my condition, and yet, could see no way out of my suffering."

"The testimonials of people right here in Portland, some of whom I know personally, caused me to try Tanlac. Well, I am now seventy years old and I just want to say that I have never seen anything like it. Before I finished my first bottle I was eating twice as much as before and felt no bad effects from it. I am now on my fourth bottle, and the rheumatism has just about all left me. Why, my legs are just as limber as if I had never had a touch of rheumatism. I don't suffer any more from constipation and headache and have gained back all my energy and strength and several pounds in weight besides. Numbers of my friends who know what Tanlac has done for me are now taking it with fine results. Yes, sir, Tanlac has done everything for me I could wish, far more than I expected it could do, and I would be willing to go before a notary and make an affidavit as to the truth of this statement."

Tanlac is sold in Kingston by A. P. Chown, in Plevna by Gilbert Ostler, in Battersea by C. S. Clark, in Fernleigh by Ervin Martin, in Ardock by M. J. Scullion, in Sharbot Lake by W. V. Cannon.

Reid, Mrs. John McCammon, Mrs. William Marshall and one brother, Thomas Grimason, collector of inland revenue. Mrs. Harkness had been in failing health for the last year and was laid up for the past two months.

The Late James McCormack.
On October 24th there passed away at Fairfax, James C. McCormack, one of Lansdowne's most esteemed citizens. His death occurred at the homestead where he was born and where he always lived. Deceased leaves to mourn his loss his wife, daughter of the late Andrew Glenning of Leeds; one daughter, Mrs. R. H. Williams, Warburton; two sons, Andrew, Fairfax, and Raymond, at home. He also leaves three brothers, Robert, Samuel and Joseph, and five sisters, Mrs. Annie Holmes, Mrs. R. Williams, Mrs. A. Henslip, Miss Maggie and Miss Nancy. THE LOAN FINANCES LIVE STOCK EXPORTS

Sir Thomas White Says Industry Dependent Largely on Success of Big Loan.

In the past fiscal year Canada had a surplus of animal exports amounting to \$142,245,195, of which the cattle, mutton and pork products amounted to \$100,000,000. This large business was absolutely dependent on the ability of the Government to finance the sales to Great Britain out of the Victory Loan of last year.

Sir Thomas White, Minister of Finance, says: "The Victory Loan (1917) maintained the live stock market. The Government has urged the farmers to raise hogs. It is, therefore, vitally important that the entire bacon product should be sold at a good price. Last year's surplus of pork and beef, valued at \$100,000,000, was purchased outright by the British Government. Canadian bacon enjoys a great vogue in the Old Country and the loss of the British market would be a serious matter to this industry."

The situation, of course, was that Canada has to advance the money for the British Government's purchases, and would not have been able to do so had it not been for the success of the Victory Loan. Last year the people contributed \$116,000,000 in loan money. It was a good investment for them—5 1/2 per cent, and tax free—but the best thing was it helped to carry on some of the immune industries which would have lagged for want of markets.
