AUSTRIA GIVEN ALLIES' TERMS

Conditions of Armistice Submitted to Enemy High Command by Gen. Diaz.

ADVICES ARE CONFUSING

AS TO THE CONDITIONS IN THE AUSTRIAN CAPITAL.

The Imperial Government is Powerless to Meet the Crisis—Austria is Splitting Up Into States.

(Canadian Press Despatch) New York, Nov. 2.—The Associated Press this morning issued the following: Events are moving with dramatic swiftness in the battle zones of France and Italy. In the former, French, American and British struck the enemy on three sectors of the long front yesterday. In Italy, Italian, French, British and American forces pressed on in pursuit of the Austrians retreating over the plains of Venetia or plunged through the mountain barrier so long maintained by the enemy on the mountain front.

General Diaz has submitted terms of an armistice to the Austrian high command. There are rumors that it has been signed, but these have not been confirmed.

Advises as to conditions in Austria are confusing. It seems, however, that the imperial government is powerless in the crisis which has come at Vienna. Some reports say that Emperor Charles is a fugitive from his capital, but other advisers say that he and Empress Zita are still in Vienna.

Austria seems to be splitting up into a number of independent states. There seems to be no doubt that the Austrian fleet at Pola has been surrendered to the Croatian national committee. The Croats have declared their union with Italy. Germany has recognized the new Czechoslovak government at Prague and has suspended diplomatic intercourse with it.

Valenciennes Taken. French attack to east of Aisne in Vouziers area was renewed on Saturday morning. 1,400 prisoners taken.

Fighting south of Valenciennes was continued until this morning. Canadian corps, under General Currie, after hard fighting, have pressed through that town, wholly in our possession. Germans fought tenaciously to retain the town, but the Canadians and British overpowered the enemy resistance.

Destruction of Austrian super-dreadnought Veribus Units by Italians is announced.

Emperor William is persisting in his refusal to abdicate. He has taken refuge at German grand headquarters.

Bulgarian King Has Abdicated

(Canadian Press Despatch) Copenhagen, Nov. 2.—King Boris of Bulgaria, who ascended the throne on Oct. 3rd, has abdicated. A peasant government has been established at Tirnova under the leadership of M. Stambulisky, who is reported to be in command of the republican army of forty thousand men.

Claims Imperial Throne.

(Canadian Press Despatch) London, Nov. 2.—The Bavarian Premier has notified Berlin that the Bavarian royal family claims the imperial throne in the event of Emperor William's abdication.

BRYAN AS PEACE ENVOY.

He May Be One of United States Commissioners. New York, Nov. 2.—The name of William J. Bryan is being mentioned in various circles as one of the commissioners from the United States to frame the final peace terms.

ALLIES CUT OFF AUSTRIAN RETREAT

Headlong Flight of the Enemy Forces Continues on the Venetian Plain.

(Canadian Press Despatch.) Italian Headquarters in Northern Italy, Nov. 2.—Allied troops have reached Grigno, five miles north of Monte Luser. They have cut off the retreat of the Austrians in Trentino, except over mule paths in the mountains. The headlong flight of the Austrians continues on the Venetian plain.

The Austrians are fleeing from Udine, about fifty miles east of the Piave, according to reports received here. They have abandoned a great quantity of war material in the region of Udine, which was Italian headquarters before the 1917 retreat.

It is probable that Valenciennes has fallen despite enemy counter-attacks Friday, which deprived the British of part of their gains.

Putting the Terms Into Final Shape

(Canadian Press Despatch) London, Nov. 2.—The Express claims to be able to state that there is most complete unity and cordiality at the Versailles conference, where the delegates are quite agreed as to how Germany and Austria are to be treated. No differences on points of principle have developed, the newspaper says, and whatever hopes Germany may have had of discord among the Allies regarding an armistice will be completely dissipated.

Official circles believed last night that the conference would issue a statement in a day or two. It is known that a conference has put the terms for Germany into something like final shape. They include stern naval guarantees. It is also definitely known that Gen. Diaz received from Versailles the conditions to be imposed upon Austria.

A VERDICT OF MURDER

Was Found Against Miss Selina Bedard, Napanee.

An inquest on the body of the infant child found in the Napanee river on Thursday morning was held Friday evening at Napanee. The jury returned a verdict that the child came to its death by drowning in the Napanee river, and that it was thrown into the river by its mother, Miss Selina Bedard. A number of witnesses were examined.

Mrs. Arthur Houle, Deseronto, a sister of the child's mother, was the chief witness. She stated that she had been writing to Mrs. Houle to Miss Bedard was produced at the inquest. The child was identified by Mrs. Houle, who identified it by the articles of clothing found on the body. Dr. W. T. Connell, Kingston, made a post-mortem examination of the body and found that death was caused by drowning, and that the child was alive when it was put into the water.

Evidence was given by Mrs. James McVicar and Miss Pearl Sedore as to the presence of the child at the Paisley hotel on the night of Oct. 4th. There were other witnesses who gave evidence of a minor nature.

The mother, Miss Selina Bedard, will now be tried on a charge of murder, and will probably appear next week. She is at present in custody in the Napanee town jail.

SCHOOLS ARE NOT TO RE-OPEN MONDAY.

The secretary of the Board of Education has inserted a notice in the Whig that the public schools and Collegiate Institute will not re-open on Monday. "Bob" Bushell, who is now hard at work for next year's fair, told the Whig that he already had applications for space from several outside people.

ALREADY SECURING SPACE.

"Bob" Bushell Has Already Received Applications.

Merchants who want to get space for the Kingston Fair of 1919 had better step lively, for those who know a good thing when they see it are already grabbing for it.

Manager "Bob" Bushell, who is now hard at work for next year's fair, told the Whig that he already had applications for space from several outside people. The fair is certainly going strong, and with almost a year to keep boosting, it should reach the very top notch when the time arrives for the opening.

NEARING MILLION FOR THE LOAN

Lend. Buy Victory Bonds—Kingston And Frontenac Will End First Week Well Over That Amount.

RAISED \$72,300 FRIDAY

IN THE CITY AND \$18,750 IN THE COUNTY.

Victory Loan Sunday in the Churches—The Mowat Hospital Has a Fine Record—Portsmouth Stands High. The amount raised in the city and county up to Friday night for the Victory Loan was \$90,950. The results on Friday were better than for Thursday.

Table with columns: Applications, Amount, City, County, Totals. Shows \$72,300 raised in city and \$18,750 in county.

The race between Portland and Portsmouth continues keen. The energetic canvasser for Portsmouth, Mr. Scally, says that if there were three more days in this week he would capture the Governor-General's flag.

The Mowat Hospital has a fine record for the week. It has received 60 buyers of Victory Bonds, and every effort is being made to obtain one of the honor emblems, which will show ninety-five per cent. of the employees and inmates of the institution have bought bonds. These honor emblems will soon be in evidence in many of the stores and factories, and will certainly bring great credit to the organizations that secure them.

The executive committee want the figures to be well over the million mark to-night. Scores of citizens to market square every evening to see how the Kaiser is being overtaken and express disappointment.

For their information it might be stated that larger figures can only be shown by buying bonds, and their contribution is required. To-morrow is Victory Loan Sunday in all the churches of the city, and it has been arranged that at least one service shall be devoted to patriotism and the necessity of buying Victory Bonds.

The following telegram was received last night by the organizer, Mr. Warburton:

GERMAN ARMY SOON TO YIELD

This Opinion is Held Owing to Hopeless Position it Occupies.

HAS NO FRESH RESERVES

WITH WHICH TO MEET ITS VERY HEAVY LOSSES.

The Enemy is Cleverly Retreating—No Collapse Yet, But There Are Hopes of It. London, Nov. 2.—With Turkey definitely out of the war, following the capture of the remnant of the Tigris army, and Austria suing for peace in the field in order to save her army from destruction, this question grows more general and persistent: what will Germany do? Opinions here still vary greatly, but the idea that the German army will definitely capitulate gains ground owing to the hopeless position these developments cause. A part of the German press still shows fight, but authentic information here shows the German army itself in a very serious plight. It has not a single fresh division in reserve, only seven which had a fortnight's rest, and only fifty nominally in reserve at all. The last I heard the German army had eighty fresh divisions. The average interval between re-arrangements of divisions has fallen to nine days and their recovery after an action, therefore, is impossible. Many of them returning to the line are mere fragments, with less than one thousand men's strength instead of nearly seven thousand. One such a division mustered 783 rifles, or about the strength of one battalion. The estimated actual rifle strength is said to be about half a million short of normal strength. Their casualties this year are two and one-half millions, of which the reserve forces in permanent loss. The reserve forces in sight in Germany, including most of the 1920 class, are less than 350,000. One-third of its total artillery, or 15,000 guns, as lost since July 18th last.

The divisions recently withdrawn from Russia were thrown into battle on the west front without artillery, trench mortars or machine guns. Still it is admitted the enemy is fighting well on some parts of the front, conducting a clever retreat and not giving evidence of any general demoralization. Although his morale is greatly affected in spots, the Allies' advance may bring a collapse, but that is uncertain. The simple fact is it has not collapsed yet.

ROMANIA CLAIMS TRANSYLVANIA.

Washington, Nov. 1.—Capt. Basil Stoica, president of the Rumanian National Council of America and an officer in the Rumanian Legion now fighting in France, yesterday presented Secretary Lansing a memorandum setting forth the claims of Rumania and her aims and ambitions in the war. He declared that Rumania's claim to Transylvania is based on historical and ethnological grounds. The Rumanians make no claim to territorial boundaries, being content to leave that to the peace conference settlement. What they now need most, Captain Stoica says, is a word of encouragement from the United States.

Jap Prince Impressed by Energy Shown in Dominion. London, Nov. 2.—Prince Yorihito, special envoy from Japan, has been received in London with much ceremony. A Paroled Convict Was Killed in Action in France. Boston, Mass., Nov. 2.—William J. Manogue, alias William J. Clayton, a former bandit who made daring railroad raids on railroad ticket offices in many cities in 1915 and was paroled from the Massachusetts state prison so he could go to war, was killed in action in France, Oct. 13th. Officials at the prison received word from Ottawa that Manogue fell while fighting with a Canadian unit.

TURKEY'S COLLAPSE RENDERS INFINITE.

Task in Russia to Restore Order and Encourage Local Reconstruction. Washington, Nov. 4.—Announcement from London that armistice with Turkey which permits passage of Allied warships through the Dardanelles already in operation led naval officers here to believe that an Allied fleet, if it has not already started, soon will pass through to the Black Sea to attack the German naval forces there. These forces include ships of the Russian Black Sea fleet taken over by the Teutons after the collapse of the provisional government in Russia. Official British reports revealed by Sir Eric Geddes, first lord of the British Admiralty, during his recent visit here, shows that the Germans obtained one super-dreadnought, several battleships of the pre-dreadnought type, and a score of fast destroyers. The German battle cruiser Goeben also is in the Black Sea. This vessel was in the Mediterranean when the war began, and escaped to the Bosphorus, where it was reported to have been "sold" to Turkey before that country entered the war. The cruiser was badly damaged several times, but recent reports said it has been repaired again, taken over by the Germans and withdrawn to the Black Sea.

THE BRITISH TROOPS ARE HAILED AT OMSK

Siberian Newspapers Praise Britain's Chivalry as Rescuer of Russia. Tokyo, Nov. 2.—A War Office communication says: "General Knox, chief of the British military mission in Siberia, arrived at Omsk last Saturday. He was warmly welcomed by a large number of officials of the Siberian government and guards of honor. The commander-in-chief of the Russian troops held a review at noon, which was participated in by all the Omsk garrison, who cheered General Knox. British troops arrived in Omsk Sunday. General Volokovsky, commander of the Russian troops, received them. A triumphal arch which had been built at the entrance to the railroad station was decorated with the Union Jack. The Russian troops and the populace generally, including school children, lined the streets and gave the Britishers an ovation. Great Britain was hailed as the saviour of Russia. The Siberian Government distributed publications welcoming the visitors, while the newspapers enthusiastically praised British chivalry in 'rescuing Russia.'"

WAR TIDINGS.

The Austrian fleet at Pola, the naval base of the Adriatic, has surrendered to the southern Slav coalition. Representatives of the Allied nations began their deliberations at the Supreme War Council at Versailles shortly after noon Friday. Views expressed at the German War Cabinet substantially strengthened the decision to meet President Wilson's demand regarding the monarchical autocracy. The number of prisoners taken by the Allies in their drive against Austro-Hungary is steadily increasing. More than 100 guns have been taken and an immense amount of booty. General Pershing's forces attacked the Germans on a wide front Friday and took 3,000 prisoners. An official statement says the French and Serbians are now at the outskirts of Belgrade, capital of Serbia. English and Canadian troops forced the passage of Rhonella. They made an advance of five miles and took between two and three thousand prisoners. The rout of the Austrian armies on the Italian front continues. The number of prisoners taken is increasing rapidly. A large fleet of British mine sweepers is clearing the Dardanelles, which is mined for over fifty miles. A British Foreign Office statement says the surrender of Turkey was unconditional and the immediate mobilization of the Turkish Army will take place. Whole regiments are reported to be joining the revolutionary movement in Germany. Negotiations between the Italian and Austro-Hungarian military commanders for an armistice are proceeding. The Italians have completely severed communications between the Austrian armies in the Piave and Trentino regions. Austrian forces have evacuated Udine, abandoning vast quantities of war materials and supplies in their hasty flight, a despatch to the Italian embassy reported. The Germans will be allowed no respite. Unless complete surrender comes, new blows will fall, each deadlier than the last, until Ludendorff's prophecy of disaster be fulfilled.
